Appendix C2

		The principle of charging for a whole package of care, rather than treating travel costs separately, was supported by the Panel. However, it was agreed further information, about the cost implications of the Transport to Day Opportunities proposal, especially the total number of service users affected, should be made available to OSC, before final budget scrutiny recommendations are agreed.	That concern be expressed about the timing of the Transport to Day Opportunities saving proposal, especially in view of the number of changes already taking place across day activities for people with learning disabilities and older people with dementia. With this in mind, consideration should be given to moving this proposal back to later in the MTFS period.	Yes

<b>2.5</b>	Market efficiencies	None	Noted	No
<b>2.6</b>	New Models of Care	That additional information, on New Models of Care, be made available for consideration by the Overview and Scrutiny Committee before final budget scrutiny recommendations are agreed. This should include narrative on the range/type of savings proposed, including staffing, to demonstrate how savings of £1.4 million would be achieved.	That the Cabinet Member for Finance and Health be asked to host a Member Learning and Development session, for all Members during the first half of 2017, on New Models of Care. This should include an update on the Haringey and Islington Health and Wellbeing Boards.  That an update on progress with the development of New Models of Care be submitted to a future meeting of the Panel during 2017/18.	Yes
