Dear Licensing Department,

The representation from Mr. Wiler De Costa contains WhatsApp screen shots of my client's messages. First of all, due to privacy rules and guidelines, personal messages between two parties cannot be shared without the consent of both sides.

However, in this case, these images actually show that my client was very cooperative by informing tenant clearly on certain events, responding to messages on time and even receiving tenant's packages. Moreover, some of the events mentioned in the text messages have never happened anyway. And, in a particular case, the noise created was actually coming from across the shop.

Additionally, the objector shared some photos of the tables and chairs in order to show that my client obstructs his entrance. However, you can see from the photos that the chairs are moved by customers rather than then my client. In order to avoid this, my client will provide regular staff training and will be requesting customers not to obstruct the entrance by a sign which be located on his shopfront. Please find the photos of a tables and chair outside taken by CCTV on 29.06.2022 and a photo taken on 29.06.2022 on Appendix 1.

The resident also complained about the sisha garden at the rear of the property. Sisha is not regulated under the Licensing Act. My clients' garden at the rear complies with Sisha Guidance and the 50% percent rule.

Please see the photo on Appendix 2.

My client would like to work with the local community therefore we have spoken with other neighbours at the area about the application and got 16 supporting letters. Please find the letters on Appendix 3. There are also 3 more flats above the premise that did not make any complaints regarding the application.

We understand the concerns regarding public nuisance. Please find your risk assessment above. In order to reduce noise levels, we will have signs in the shop asking customers to respect neighbours and leave quietly. We will train our staff periodically. We will display the nearest police station and ambulance's phone number for any incidences. The neighbouring entrance door will not be obstructed. Staff will be trained regarding to this and a sign will be displayed. We will also have a phone number of the responsible person displayed on the shop. If the residents have any concerns they can call my client and my client will take all the precautions in order to reduce the noise levels. Additionally, we will have a complaint procedure in place.

With these measures in place, we believe my client will be able to manage the place in compliance with 4 licensing objectives. We kindly request our premise licence to be granted.

Appendix 4. Objection Letter

Hi there, My wife and I live at [redacted], just by Turnpike Lane underground station and above JANI restaurant and bar. We have lived there for several years and enjoy being a part of the community here very much. We did have a good relationship with Mirjan Gradica until around September 2021, when he started playing music very loudly in his bar at night and we regularly needed to send him messages asking him to turn down the music. I do understand that it's a bar in the evenings, but we also should be allowed a certain amount of peace in our own home. At the time, Mirjan was pleasant enough and would turn the music down. Then earlier this year the music was being played until 3am most weekends and people were out the back of the building smoking shisha pipes just as late or later. This has been going on since then and when I've tried to speak to him about it, he says that he now has a late license, which he has displayed in the window. It was only last week when I looked at the notice in the window that I saw it is not actually a license to sell alcohol until 2am, but the application to do so. This means that he has been breaking licensing laws by staying open later than his current license allows, though I believe he probably has misunderstood the situation after applying for the license and getting the paper through in the post so must think that this is the license he applied for, rather than the notice of application. Also, the chairs and tables they have for customers now are often put out right in front of the door to our building making it very hard to get in and out plus I think they have too many chairs on the public pavement I saw oldest, disabled and mums with kids struggle to pass through due to too many chairs and tables. It now feels as though they think they can do what they like, but we're not sleeping until 1am most weekdays and until 3am or later at the weekend. The lack of sleep and confrontations we have to deal with now has become too much and I want to put in a representation to ask that the license remains for the earlier time and that this is enforced to make sure he sticks to the times that he legally should be opening and closing at. I don't wish for him to lose his business of course, I do want him to be able to run a successful restaurant and bar that provides a safe space for members of the Albanian community in the area. However, I just want to be able to sleep at night and do not wake up 6am every morning with the noise of the waitress dragging chairs and talking very loudly with customers and not be tired at work every day. It has been very stressful over the last few months and so I felt that I had to act, not only for myself but also on behalf of my wife who has also suffered as a result of the loud music and voices through the night. Please do take a look at the attached form and photos to illustrate each point I've raised. I look forward to yearning back from you. Kind regards
Wiler Da Costa
