3. URGENT BUSINESS

4. DECLARATIONS OF INTERESTS

There were no declarations of interest.

5. QUESTIONS, DEPUTATIONS OR PETITIONS

The Board RECEIVED two deputations - in response to APPCT CEO's October letter to tenants around the Masterplan for the Grove and the Trust offering lease extensions to 2027 and then on an annual 12 month rolling basis.

The Board noted that Jason Jenkins - Little Dinosaurs Leaseholder had put forward a deputation requisition, in accordance with CSO 29, wanting to make representations on:

- The impact and reality of recent events from the tenant's perspective.

- Realistic and manageable proposals to the Board for consideration prior to a third party company being engaged.
- Seeking clarity on the preferred intentions of APPCT around the Grove plans.

Mr Jenkins was invited to make his deputation and expressed the following:

- When he first took the business forward in the vacant building, it had been derelict and was now a vibrant indoor and outdoor play space welcoming 1500 users a week.
- In his view, the soft play facility had mental health benefits and the business had received positive feedback about being a lifeline for many local groups and was a safe place for children to play.
- There was no other soft play facility in Haringey that offered the indoor and outdoor fenced off play.
- That Little Dinosaurs was still in the early stages, a start-up business, and had not planned beyond 2029.
- During the pandemic, took forward business plan and applied for investment in this business. This was in discussion with the CEO of AP at the time.
- During initial negotiations a restriction was placed on the maximum number of years a tenancy could be in place but the then CEO had advised that unusual a tenancy to not be renewed.
- Needed a longer extension than 2027 to allow business to be future proofed
- The 12-month rolling lease would not work, as events and parties, which kept the business afloat, were booked often a year in advance.
- Crippling energy costs and need time to recover from Covid closures.
- Hoped to continue working partnership with the Trust
- Mr Jenkins expressed that if the board decided Little Dinosaurs could not indefinitely remain, which was his preferred choice, he sought a much improved term than 2027 to allow for a properly managed exit (which 2027 certainly would not).

NOTED in response to Board Member questions from Mr Jenkins:

- That all repairs, maintenance, fixtures, and fittings were the responsibility of the tenant as per the lease.
- Invested life savings as a start-up and then through Covid he had reinvested through a bounce back loan. He was now at the crucial point of deciding whether to invest the remainder of the business loan in making this a first class facility.
- The provision had a fenced in garden and contained an indoor and outdoor activity centre for children up to the age of 9 years old with parents, grandparents and carers.
- -Not informed verbally or in writing by the Trust that the lease would be longer than 2027.

Clerk's note 1940 hrs Cllr Anne Stennett arrived during this item

The Chair thanked Mr Jenkins for his representations.

Gemma Graham – Co-Chair of 345 Preschools was invited to put forward her deputation. NOTED that the purpose of the deputation was to air the views of 345 Preschools and discuss a number of issues with the proposed changes to the lease

agreement. Gemma Graham wanted to ensure their organisation's case was heard and to have a generic conversation with the Board before the master planning process in the Grove began.

Gemma Graham outlined the following:

- Recently received the CEO's letter, indicating potential for the masterplan to bring all the different leases in the Grove together to expire in 2027 and then to each be on a 12-month rolling renewal. This came as a shock as earlier in the year the organisation had seen a draft lease document proposing a 14-year term lease.
- Located in the Grove for 40 years and a community nursery, a charity, with volunteer trustees and the available places were full as the demand for term time preschool setting is large.
- Wanted to help fulfil the APPCT ambitions in the strategic vision.
- The organisation was confused about next steps and whether the Trust wanted the leaseholders to leave in 2027?
- There was a need to fill places a year in advance and the 12-month rolling contract was not tenable for the preschool.
- The deputation party were seeking transparency in the plans for the Grove.

The following was NOTED in response to questions to Gemma Graham:

- 345 Preschools was not a state funded provision and run by a small committee of parents who helped run the pre-school for pre-school service across the borough and sometimes outside of the borough.
- Did have some visits from other preschools who wanted to use outdoor woodland space. There was a qualified staff team, and the parents volunteer as the trustees.
- Haringey fund 3-4 year olds 15 hours a week and anything over that the parents pay fees to the organisation, which they try to keep to a minimum. The reason one parent chose this provision was because 345 pre-schools offer completely free school spaces – the 15 hours are completely free.
- Currently have 39 children at the school.

The Chair thanked the deputations for making their representations and advised them that the Trust was still only at the beginning of the research & master planning process and, as the letter of 13 October stated, the tenants would be a part of the ongoing discussions.

Emma Dagnes, CEO, introduced the report which updated trustees on current issues and projects at Alexandra Park and Palace and provided information on the events programme and the Trust activities.

9. FRRAC CHAIR'S FEEDBACK

Cllr Collett, Chair of the FRAC, introduced the report highlighting the financial issues that the Trust was facing due to the increase in energy prices which was set out in the later Finance report item.

The letter of representation from the Council's Section 151 Officer confirming funding and additional support for the 2023-24 had not been sent as yet but was expected to be sent to APTL on the 31st December. This would also be received by the Trust to enable the consolidated accounts for the Group to be considered by the 31st of January 2022.

It was clarified that the Board were asked to note the following recommendations by FRRAC when considering agenda items 10, 11, 18,19.

1. That the Trustees' Annual Report & Accounts 2021-2022 be approved by the Trustee Board and signed by the CEO and Chair, subject to the written letter of representation from the Corporate Trustee confirming funding and additional support for the 2023-24;
2. The recommendations for the award of the Estate Guarding Contract be approved.

10. FINANCE REPORT

Richard Patterson, Director of Finance and Resources, introduced the report on the financial performance of the Trust. He highlighted that for the end of this year and the next financial year, the impact of energy costs both for the Trust and the trading company was significant. The trading company would not be able to gift aid any profit to the Trust and was reliant on the Corporate Trustee(Council), which had confirmed that it would support the Trust in meeting its financial obligations. It was noted that the trading company would meet its own liabilities.

The Director for Finance and Resources outlined that a major exercise for the organisation was to reduce energy consumption and it had started to do so with the LED lighting replacements and was taking forward a trial for solar lighting.

Although there was a lot to do , the Trust had already seen a 20% reduction in the cost of electricity and 38% on the use of gas. This was attributed to the use of the SALIX funding stream which had enabled upgraded lighting throughout the Palace from halogen discharge to LED.

The Trust were considering business cases for projects ensuring focus on reducing consumption and bringing costs down.

In response to questions, the following information was provided:

- APTL picked up over 50% of the energy costs because of its role as the main consumer of energy. The Trust had an idea of base consumption, from the Covid lockdown period, and therefore anything over and above this has been assumed as trading costs.
- It was noted that if the trading company makes less profit and has higher energy costs, this will mean less gift aid to the Trust.
- The factoring of increased energy costs in contracts with consumers, clients, tenants would need to be discussed in the exempt part of the meeting.
- The impact of inflation had been reviewed.
- The Sundry income were items that were difficult to budget for, for example unplanned insurance contribution as a result of storm Eunice.
- Noted that the confirmation letter from the Corporate Trustee would unlikely convey a set financial figure of support and will likely indicate that it will act accordingly to ensure able to meet its liabilities.

RESOLVED

1. To note the year to date position of the Trust.
2. To note the full year forecast for the Trust and the impact of energy prices.
3. To consider the outline budget for the Trust for 2023/24.
4. To approve the 2021-22 Annual Report (Appendix 3) and Financial Statements (Exempt Appendix 4) as recommended by FRRAC, and;
