Licensing

During the presentation of the Annual Public Health Report, residents queried why health was not taken into consideration when the Local Authority issued a premises licence. It was explained that there were four licensing objectives that had to be taken into consideration, and health was not one of them.

ACTION:

To enquire as to whether the licensing policy for the Local Authority could be amended to include health as one of the licensing objectives.

ACTION: Councillor Stennett

Post meeting note

The licensing regime does not permit licensing authorities to impose additional objectives over and above the four statutory objectives. Health is nonetheless a consideration for the Council when exercising its licensing functions and it is referred to throughout the Council's licensing policy.
