	<ul style="list-style-type: none"> • Performance information for the Victim Support Anti Social Behaviour (ASB) project had now been updated and fed into CSP performance monitoring arrangements. • A brief updated was provided on how the Metropolitan Police Service (MPS) measure performance against the public confidence indicator. Performance against the challenging target of 75% was assessed using the national public attitude survey and crime survey for England and Wales focussed on four key drivers. 	
HSP98.	<p>TERRORISM / PVE UPDATE (VERBAL)</p> <p>The international threat level remained substantial, with no significant change since last reported.</p> <p>RESOLVED</p> <ul style="list-style-type: none"> • That the update be noted. 	
HSP99.	<p>TRIDENT UPDATE (VERBAL)</p> <p>An update was provided on the work of the MPS Trident enforcement and partnership team from their three month placement within the borough. It was advised that a bid was to be submitted to extend the placement. Key activities had included the use of a gangs matrix to identify gang nominals, the holding of a corporate day of action, visits to top 10 victims, diversionary visits, community engagement events, training sessions for partners and referrals to job fairs.</p> <p>It was agreed that the profile should be raised of the visits Trident were making to schools in the borough through promotion via the Schools Bulletin. A short blurb would be drafted for inclusion in the next issue.</p> <p>The value was agreed of seeking to secure a longer term crime prevention design resource to link in with regeneration work in the borough.</p> <p>Consideration needed to be given to the training of Council Frontline Service Officers in forensic sweep techniques.</p> <p>It was requested that an update be provided at the next meeting following the receipt of the final closing update report from Trident.</p> <p>RESOLVED</p> <ul style="list-style-type: none"> • That the update be noted. 	<p>Maggie O'Farrell</p> <p>Stephen McDonnell</p> <p>Stephen Clayman</p>
HSP100.	<p>QUARTER 3 PERFORMANCE HIGHLIGHT AND EXCEPTION REPORT</p> <p>The Partnership received a report updating on quarter 3 performance against key indicators and highlighting exceptions and outstanding issues. 85% of targets were showing a positive upward trend for the</p>

quarter:

- Confidence in policing had risen to 57% although the target remained challenging. Activities going forward would be focussed on low confidence wards.
- The Integrated Offender Management (IOM) team were due to exceed their annual target.
- The three youth justice targets were showing an upwards trajectory.

A number of indicators were below target and required further focus going forward:

- Theft from motor vehicles offences were increasing, particularly in the west of the borough in general and Crouch End in particular. An offender focussed approach would be utilised going forward.
- The number of domestic violence reports had shown an increase although this potentially reflected higher confidence levels.
- Serious youth violence offence levels remained significantly above target level.

The Board queried whether, in light of the good yearly performance, the IOM cohort for year two should be more ambitious. Confirmation was provided that the case target for year 2 would increase to 274, although it was emphasised that the establishment of clear referral pathways going forward would need to be prioritised to facilitate the increase in numbers.

In terms of joint working, progress had been made in building relationships with other authorities, with a visit made to Manchester and improvements to joint working with LB Enfield in train. A workshop session had also been proposed between LB Enfield, Hackney and Haringey to look at areas of concern and opportunities for co-ordinated approaches.

It was flagged up that the Partnership needed to give consideration going forward to strategically addressing the wider issues of violence across the priority areas including serious youth violence, violent assault and gang-related and violence against women and girls. This could potentially include the establishment of a joint working group.

RESOLVED

- That the update be noted.

HSP101. YEAR END ROUNDUP 2013-14

The Partnership considered a report on progress against key commitments in the Community Safety Strategy and the Corporate Plan and against each strategic outcome. Achievements to date and areas for attention were outlined. The Chair conveyed his thanks to the Board for their efforts in delivering the Strategy and the progress made including

the establishment of clear areas for focus and key leads steering each outcome.

Under outcome 1, confirmation was provided that terms of reference and membership arrangements for the Safer Neighbourhood Board had now been signed off by MOPAC. HAVCO was leading on recruitment to the lay positions.

It was advised that the Integrated Gangs Unit was now operational under outcome 2 and co-located with the IOM unit. One of the key areas of focus going forward into year 2 would be early intervention and associated resourcing.

Under the domestic and gender based violence/abuse outcome, work was underway ahead of schedule to look at findings from the perpetrator's survey. The mapping audit undertaken of service responses would be important going forward in feeding into next years work plan. A workshop was scheduled for next week to explore issues such as joint agency working. At a corporate level, it was agreed that domestic violence needed to be established as a key Council priority to ensure clarity was reached as to how the issue would be tackled going forward centred on a whole system approach. There was also agreement that future work was required regarding terminology in this area.

With regards to outcome 4, the IOM model had been praised as good practice by the Policing College. A key focus for the next year would be establishing single working practices to ensure continuity. Stable housing had been identified as a key factor impacting the cohort and it was agreed this needed to be picked up corporately to look at capacity issues across the borough although it was recognised this was a very challenging area.

In terms of ASB and property crime, engaging with businesses was an important area of focus going forward with regards to crime prevention.

Under outcome 6, preventing violent extremism, work was underway to develop webpages to provide information and support to parents and carers.

RESOLVED

- That the update be noted.

HSP102. FORWARD FUNDING (MAJOR BIDS; GOVERNMENT AND PARTNERSHIP) (VERBAL)

- The £1.2m MAC-UK bid had been confirmed although the funds had yet to be received.
- MOPAC funding for year 2 had been secured following their satisfaction with the return submitted and outcomes achieved in
