Statutory Notification

West Green Road Local Safety Scheme – Improvements to zebra crossing and raised junction

Dear Resident or Business,

Each year we identify areas which require attention under our Local Safety Scheme (LSS) programme. We identify these areas through analysis of the accident statistics across the borough and produce a ranked list of areas with priority given to those areas most in need of measures to protect vulnerable road users such as cyclists and pedestrians; however the schemes are engineered for the benefit of all users.

An accident analysis study undertaken for the borough network has identified that a high number of personal injury accidents (PIA) are occurring on West Green Road and in particular close to the junction with Avenue Road. We have therefore produced a scheme proposal to help reduce the PIA rate and improve road safety for all road users.

The key interventions are as follows and are detailed on the plan overleaf:

- Raise the existing zebra crossing on West Green Road.
- Building out of the southern footway.
- Raised entry treatment on Avenue Road at its junction with West Green Road.
- Reduction in length of the bus stop to reduce congestion and improve sightlines.

This notification letter marks the start of a three week consultation period during which we welcome your views using the enclosed Freepost feedback card. Alternately email your views to us at frontline.consultation@haringey.gov.uk. Should you wish to object to the proposal please include reasons.

Please ensure that your comments reach us as soon as possible and no later than 1 July 2018. If you have any specific questions on the scheme please contact frontline.consultation@haringey.gov.uk.

Thank you for your interest and we look forward to hearing from you.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'Ann Cunningham'.
