Well-being Theme Board Significant Risks

This document sets out the HSP Well-being Theme Board key risks, as per our agreed approach. The risks are based upon the LAA targets, which have been included below for information.

- i. NI8 Adult participation in sport (2007 2010 stretch target)
- ii. NI39 Alcohol-harm related hospital admission rates
- iii. NI21 Mortality rate from all circulatory diseases at ages under 75
- iv. NI123 16+ smoking rate prevalence
- v. NI125 Achieving independence for older people through rehabilitation /intermediate care -delayed until Oct 2008 (provisional)
- vi. NI135 Carers receiving needs assessment or review and a specific carer's service, or advice and information
- vii. NI141 Number of vulnerable people achieving independent living
- viii. NI149 Adults in secondary mental health services in settled accommodation delayed until 2009

Key to the Risk Register:

Ref: Details the reference number (usually the National Indicator) for the risk.

Risk Identified: Details the risk identified by the PMG or Theme Board.

Inherent Risk: Is assessed by Impact (I) and Likelihood (L). The Inherent risk is the impact of the risk occurring, and how likely it is to occur, without any mitigating actions in place to address the risk. The Impact and Likelihood of the risks are scored from Low to High according to the schedule in Appendix 1 of this report. The rankings can be tied into the overall HSP risk framework.

Controls: The actions and processes which are currently in place to manage the risk identified.

Residual Risk: Is assessed on the same rankings as Inherent Risk. The Residual Risk is the impact and likelihood of the risk occurring with the current controls in place.

Further Action: Where there is outstanding residual risk, further actions have been identified by the Theme Board to reduce the exposure of the Theme Board to the risk. A separate action plan, including a timetable for implementation of the further actions, will be produced where appropriate.

	 Effective reporting does not take place Failure to work effectively with other theme boards on relevant issues Risk Owner: Co-Chairs of sub-groups. 			 monitor progress on LAA targets. Sub-groups consider, comment on and endorse, as appropriate strategic documents from other partnership boards or sub- groups relating to group's outcomes that require a joint multi-agency response. Sub-groups report to the partnership board via the sub- group chairs. Sub-groups account for actions and performance through regular reports to the WBPB via the joint commissioning group which manages finance and performance of the WBPB. WBPB monitors the effectiveness of the Partnership Boards and sub groups and other joint planning arrangements within its structure through receipt of an annual report or other agreed mechanisms. WBPB accounts for actions 			update reporting from sub- groups to WBCE.

Appendix A1

Impact and Likelihood Scales

To be used as a guide in assessing risk ratings:

Descriptor Impact Guide

Likelihood Guide

LOW No or limited impact. Financial loss up to £10,000, or no Up to 10% likely to occur in next 12 months impact outside single objective or no adverse publicity

MEDIUM Financial loss up to £300,000, or impact on many other processes, or local adverse publicity, or regulatory up to 40% likely to occur in next 12 months sanctions (such as intervention, public interest reports)

HIGH Financial loss up to £1 million, or major impact at strategic Up to 90% likely to occur in next 12 months level, or closure/transfer of business
