	<i>Stretch</i>	<p>Number of people from the worst twelve wards helped into sustained work</p> <p><i>Target</i> 74 (40 JSA and 34 Lone Parents)</p>					<b>LAA stretch</b>								
							<b>Lead</b>								
		<p>The 7 sustained job outputs achieved in quarter 2 are broken down as: 6 long-term JSA claimants; and 1 lone parents. We are on course to achieve this stretch target and the 60% threshold upon which reward grant is payable has already been achieved in relation to the JSA component of the target.</p> <p>We expect these figures to substantially increase in quarters 3 and 4 as participants are supported through their action plans addressing their barriers to work.</p>

							<b>Lead</b>								
		<p>Achieving this stretch target remains a significant challenge and we will be seeking to renegotiate this target as part of the LAA refresh.</p> <p>It is also worth noting that other London boroughs such as Islington and Bromley are also struggling with similar targets and are unlikely to meet them.</p>
