6. Background information

- 6.1. The Council's treasury management activity is underpinned by CIPFA's Code of Practice on Treasury Management ("the Code"), which requires local authorities to produce a Treasury Management Strategy Statement annually. CIPFA has defined Treasury management as: "The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."
- 6.2. The Code recommends that members are informed of treasury management activities at least twice a year. Formulation of treasury policy, strategy and activity is delegated to the Corporate Committee and this Committee receives reports quarterly.
- 6.3. However, overall responsibility for treasury management remains with full Council and the Council approved the Treasury Management Strategy Statement and set the Prudential Indicators for 2018/19 on 26 February 2018. The Corporate Committee is responsible for monitoring treasury management activity and this is achieved through the receipt of quarterly reports. This report forms the 3rd quarterly monitoring report for 2018/19.
- 6.4. Government guidance on local authority treasury management states that local authorities should consider the following factors in the order they are stated:

Security - Liquidity - Yield

The Treasury Management Strategy reflects these factors and is explicit that the priority for the Council is the security of its funds. However, no treasury activity is without risk and the effective identification and management of risk are integral to the Council's treasury management activities.
