Proposal:	Works to tree protected by a TPO: T1 - Ash - Fell The tree works are proposed to stop the influence of the tree(s) on the soil below building foundation level and provide long term stability. Estimated costs of repair to the building are ?50k if the influence of the tree(s) remain and ?15k if the proposed tree works are allowed to proceed. Granting permission will limit these costs. In the event of a refusal we, or our clients, will seek to secure compensation for the additional costs incurred through Section 202(e). Should the tree/s remain the total cost of repairs will be the Superstructural repairs + Alternative method of repairs = ?65k It is the expert opinion of both the case engineer and arboriculturalist that on the balance of probabilities the supporting information demonstrates the influence of the tree(s). Note: Further monitoring results may be submitted if these become available during the course of this application

**Proposal:** Change of use from Use Class A1/A2/B1 as approved in planning decision notice HGY/2014/1105 to D1 - Non-residential institutions. The ground floor unit is presently vacant (shell) and unused since construction. The proposed works include fitting out ground floor units to accommodate reception area, office units, medical area, washroom and W.C facilities. Currently the opening to front entrances of units 1 and 2 are boarded up behind hears fencing. The proposal includes for new glazed aluminium frame frontage with wall mounted acrylic signage to masonry wall. The signage will not be illuminated or exceed A2 in size and there is no provision for roller shutters to elevation.
