1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required.

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'.
- 6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off.
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

 We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

 Please let us know if any of the submitted contact information changes during the BCF planning cycle so we are able to communicate with the right people

in a timely manner. 4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the worksheet.

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments since 2017 and cover areas such as prevention.
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include any discretionary use of the DFG.
- 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding your local approach.

5. Income (click to go to sheet)

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the previous year.
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 and 3 are met.

The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes. On this sheet please enter the following information:

1. Scheme ID:

- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.

Scheme Name:

- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.

3. Brief Description of Scheme

- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- While selecting schemes and sub-types, the sub-type field will be flagged in 'red' font if it is from a previously selected scheme type. In this case please clear the sub-type field and reselect from the dropdown if the subtype field is editable.

5. Planned Outputs

- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant unit from the drop down and an estimate of the outputs expected over the year. This is a numerical field.

6. Metric Impact

- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the scheme is not expected to impact a metric, the 'n/a' option could be selected from the drop-down menu.

7. Area of Spend:

- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.

8. Commissioner:

- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside.

9. Provider:

- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each.

11. Expenditure (£) 2019/20:

- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
- 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-down list
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further details.

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and actual performance on these metrics in 2018/19.

- 1. Non-Elective Admissions (NEA) metric planning:
- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- 4. Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

Version 1.2

Please Note:

- You are reminded that much of the data in this template, to which you have privileged access, is management information only and is not in the public domain. It is not to be shared more widely than is necessary to complete the return.
- Please prevent inappropriate use by treating this information as restricted, refrain from passing information on to others and use it only for the purposes for which it is provided. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content, including such descriptions as "favourable" or "unfavourable".
- Please note that national data for plans is intended for release in aggregate form once plans have been assured, agreed and baselined as per the due process outlined in the BCF Planning Requirements for 2019/20.

 This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

Health and Wellbeing Board:	Haringey
Completed by:	Paul Allen
E-mail:	paul.allen14@nhs.net
Contact number:	2036881173
Who signed off the report on behalf of the Health and Wellbeing Board:	Beverley Tarka
Will the HWB sign-off the plan after the submission date?	Yes
If yes, please indicate the date when the HWB meeting is scheduled:	16/10/2019

		Professional Title (where

Better Care Fund 2019/20 Template 4. Strategic Narrative		

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i) Link to B) (ii) Link to C)

A) Person-centred outcomes	
Your approach to integrating	ci

Your approach to integrating care around the person, this may include (but is not limited to):

Prevention and self-care

Promoting choice and independent

Remaining Word Limit:

Our approach builds on progress in implementing our Design Framework outlined in our 2017-19 BCF Narrative which laid the foundations for a person-centred approach to health/care integration. Our vision in Haringey's Borough Plan is to ensure strong families, networks & communities help people live well and have healthy and fulfilling lives, stay active and connect to their communities. Delivering these solutions will mean different things to different people depending on their needs and circumstances. This is why our approach is tailored to differing levels of needs and founded on prevention and person-centred planning.

In 2017-19, our successes associated with BCF Plan investment were:

- Improvements in preventative services such as falls prevention and self-management schemes for people with LTCs, e.g. COPD, which reduced long-term dependence on services and mitigated crises;
- Development of our integrated and person-centred health and care teams (e.g. Locality Team) that enable people to improve or maintain their health, independence at home as long as possible;
- Collaborating across the system to improve community- and bed-based intermediate care and support to regain independence after hospital discharge with a 'Home First' policy;
- Improvements in end of life services to support people in their last days, including helping those in care homes develop advance care plans.

Building on our Design Framework and in line with the NHSE Comprehensive Personalised Care Framework, we've introduced a Haringey 'care cone' model to match an individual's need to an expected 'system' level of response:

- (Healthy, safe & well' describes how universal services in the community, such as leisure centres, could better accommodate more vulnerable adults as part of age-/disability-friendly communities and thus build social capital in communities. Our approach will build on the success of Dementia-Friendl Haringey in which 60 organisations from a range of sectors are collaborating to make simple improvements to services for people living with dementia;
- Early Help describes how community-based solutions can be specifically tailored for those with some, but less complex, health and care needs, and how people can be matched and connected to solutions through community navigation/social prescribing;
- People with complex needs need a more holistic multi-agency, multi-disciplinary and coordinated response to assessing, planning, delivering and reviewing their care, such as that offered through our Locality Team;
- People who need a well-coordinated crisis or post-crisis response to help avoid unnecessary hospitalisation or to help them recover post-hospitalisation.

Our health and care 'offer' to all residents will be built around the 'care cone' for 4 population groups (older people, children & young people, mental health and vulnerable adults) so individuals can access the right care in the right setting at the right time. It incorporates our original Design Framework to guide system-wide transformation:

- Prevention: taking every opportunity to promote the need for people to manage their health, well-being and independence to mitigate the risk of needing complex or crisis-driven interventions;
- Community asset-based approach to development, i.e. working with residents, the voluntary sector and providers to ensure people's needs can be better met in a greater range of sustainable community solutions and individuals can connect to solutions, e.g. via community navigation;
- Integrating health & care to develop solutions jointly, so partners can plan and deliver person-centred care in a joined-up and effective way to deliver on agreed goals. We are developing integrated care networks, the heart of which will be primary care networks, incorporating, community health services, acute services, mental health, social care and voluntary sector;
- Promoting a fairer Borough and recognising the diversity of our communities and how different groups experience health & well-being inequalities. For example, there's a greater level of deprivation and a younger population in the east than in the west of Haringey. This means, for example, differing community-based solutions will emerge in different neighbourhoods in response to underlying need alongside a 'core' offer for people with complex needs. Our resources will be tailored appropriately (see B(i) on North Tottenham);
- Co-design: ensuring we actively engage and work with stakeholders, including patients, users, carers and their representative groups, in designing and delivering solutions in a transparent and evidence-based way.

The development of Haringay's Againg Wall (AW) and Long Term Conditions (LTC) Strategies illustrates how we intend to realise these aspirations. They are targeted at groups a older people those with frailty or LTCs — likely to benefit from solutions the RCF Plan funds. Our AW Strategy sets out our

R) HWR leve

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements

Alignment with primary care services (including PCNs (Primary Care Networks))

Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector

Remaining Word Limit:

^^ Link back to top

The BCF Plan a joint CCG/LBH commissioning arrangement. Its budget and use is overseen via multi-layered governance arrangements so partners are engaged with its development (see (C)). Haringey has well-established joint commissioning arrangements and S75 funding for MH and learning disabilities services. We are building our new partnership arrangements across commissioners & providers to support integration: this includes CCG, Council, GP Federation, Whittington Health (integrated acute-community) and NMUH Trusts, BEHMHT, hospices and voluntary sector and patient representative groups.

We're developing our approach across STP, Borough and Neighbourhood footprints to ensure there's a 'golden thread' to align system solutions. In (A), we've described how we're developing integrated care solutions some services are Borough-wide, whilst others are at neighbourhood footprint, but they're expected to work together to form a seamless pathway. For example, our single multi-agency point of access for patients needing support post-discharge is Borough-wide, and some may a veced (HWB-1000) bed-based intermediate care. However, patients rehabilitated and discharged from the latter will benefit from a 'warm handover' and coordinated care planning & delivery via our integrated care and primary care networks at a Neighbourhood footprint. This will mean patients can access a range of professionals as appropriate locally and based around their GP.

Specific developments for our population include:

- Establishing our 8 primary care networks in Haringey as part of the NHS Long-Term Plan changes. PCNs will be at the heart of the wider development of our neighbourhood Integrated Care Networks which will bring together GPs, pharmacists, nurses, therapists, social workers, mental health specialists and voluntary sector navigators to work together as ICN teams to support people. Support explore, Support explore, Support people. Support heap receive;
- Working with the voluntary sector to expand the range and uptake of community navigation and community-based solutions available to people with health and care needs, and to support the voluntary sector to build community social capital. This includes, for example, encouraging carers/former carers of people with dementia to form support networks to share their experiences and expertise; or using the expertise of staff working with people with severe dementia in our Borough-wide 'dementia hub' to facilitate voluntary or social housing sector staff working in communities to support thos with less severe dementia. One way we intend to connect the Borough & Neighbourhood footprints is to support the practical development of voluntary or community solutions in neighbourhoods, but to shape developments according to a common Borough-wide Design Framework, co-developed with voluntary sector representatives. This will set out the outcomes people tell us they want to achieve and assure these services can respond to needs appropriately;
- Partners are increasingly committed to sharing resources and facilities within neighbourhoods. This approach, for example, facilitated development of a MH Well-Being Hub run by the voluntary sector in a RSL facility which also hosts NHS services. In 2019/20, we will map such opportunities geographically to form a flexible Borough-wide plan about estate utilisation to ensure synergy between the Borough and Neighbourhood footprint, which will facilitate co-location of teams.

We will implement these approaches across Haringey but are piloting an integrated outcomes-based approach in North Tottenham (one of our more deprived areas), in which a number of statutory and voluntary sector teams have agreed to collaborate as a test-bed for what can be achieved locally. This initiative is based on our design principles and has progressed through intensive engagement with residents, an emphasis on strengthening early intervention, and enabling frontline staff to design and test new ways of working together that address local needs, all built on an asset-based approach. This North Tottenham development will result in:

- Improved universal and targeted advice, guidance and early intervention on issues such as debt, housing and care, including via LBH's Connected Communities teams that operate within public facilities such as libraries. We will ensure opportunities to access these teams is expanded so people with care needs and carers can benefit from these solutions, e.g. via GP Link Worker;
- A Neighbourhood team of nurses, social workers, therapists, housing officers and navigators who work with GP practices and the PCN to support people with care and support needs, and link individuals into services from which they could benefit or to promote behaviour change or self-care. The team's practical development will inform wider ICN development in Haringey. The resulting greater local knowledge of residents gained by staff (and inter-connectedness of the virtual network) will help identify people whose needs are complex or are approaching crisis to mitigate these issues earlier;
- team's practical development with information to development in naminger, the resulting greater local knowledge of residents gained by staff (and inter-connectedness of the virtual network) will neep identify people whose needs are complex or are approaching crisis to ming.

 **Understanding and mapping the 100+ voluntary schemes working in this diverse needs into these solutions and working with services to align and build their offer?

(ii) Your approach to integration with wider services (e.g. Housing), this should include:

Remaining Word Limit:

Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any rrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

^ Link back to top

18 The approach discussed in (A) incorporate integration with a variety of wider services in the Borough that the BCF Plan supports right across the 'care cone'. For example:

• Universal Solutions: The AW Strategy contains plans to extend the number of organisations who have signed up to Haringey Dementia-Friendly Communities beyond the current 60. Current members include a diverse range of voluntary-, public- and private-sector organisations such as those working in health and social care, including hospices and VCS organisations, retail, hospitality, social housing, funeral services, leisure and sport, and arts and museums across Haringey. This means staff employed in these organisations have an understanding of dementia, whilst some have purposefully shaped heir 'offers' around the needs of people with dementia, e.g. Tottenham Hotspur Foundation run 'sporting stories' to help people recall their past.

Our strategies plans to extend this concept to make Haringey an age- and disability-friendly Borough as part of our commitment to the Borough Plan. For example, we've specific actions in the AW Strategy to make better use of green spaces, allotments and interactions with nature and to encourage older people to volunteer in local communities, both of which will improve people's physical activity levels, wellbeing & quality of life. The application of this concept will mean an individuals' needs will be better accommodated through accessing services available to all of us and feeling part of the

• Early Help: We are working with our Registered Social Landlord (RSL) providers to ensure individuals with life-limiting physical or mental health conditions or frailty and who may have support needs can be better helped within housing environments. For example, many of our 130 Extra Care units are situated in wider supported housing complexes so people can be supported without having to move from their communities.

We are increasingly using supported housing facilities as 'community hubs' for activities for those living in these schemes and in the wider neighbourhood, e.g. knitting clubs, exercise classes etc., as part of making the best use of local assets. These hubs are concentrated mostly in the deprived areas, which are in the east of the borough, as this will help address health inequalities. LBH has also recently funded a number of community navigators who can connect vulnerable people to these 'hubs' (see B(i)).

LBH is planning to make a number of improvements to its Safe & Sound service, its in-house 24/7 community alarm service, with the aim of improving its service and technology 'offer' to potential customers, which older people and those with life-limiting conditions. We are discussing how health colleagues can best promote this revised offer to their patients and carers. This will provide reassurance help is available quickly if an alarm is triggered and which will can also help reduce unwarranted LAS call-outs.

We are also working with LBH's community-based services in public building, e.g. Connected Communities, which provide information, advice and guidance on a range of issues – an example can be found in the previous section. This will include providing advice and information to people with support needs, e.g. providing this information in hospital.

- Complex Needs: With our RSL partners, we are currently exploring how to add additional Extra Care and specialist accommodation in Haringey. LBH reviewed its DFG Allocation Policy in 2018/19 and improved its administration and delivery processes. We have improved the timescales for delivering adaptations between 2017/18 and 2018/19 (with the average time for delivery reducing by 2 weeks) and we are committed to continuing this improvement in 2019/20. To do so, we are progressing a 'trusted therapy assessment' model between the Council and our Community Health provider whereby relevant therapy recommendations identified by the latter could be accepted as a trigger for DFG adaptations by LBH without a new therapy assessment being needed. This will further reduce timescales for assessment and delivery of DFGs. We're also exploring how we might use part of our DFG allocation to fund assistive technology solutions to keep people as independent as possible, particulary for those with advanced dementia, one of our priority areas over the next 18 months.
- Needs at Crisis: Part of bed-based intermediate care 'offer' funded through the BCF is based within an RSL facility already, with the nursing and therapies input provided by our Community Health provider. This facility is well-used, and patients' stay provides an opportunity to decide and progress

C) System level alignment, for example the	nis may include (but is not limited to):	_
- How the BCF plan and other plans align to	the wider integration landscape, such as STP/ICS plans	
- A brief description of joint governance ar	rangements for the BCF plan	^^ Link back to top
Remaining Word Limit:	29	

The BCF Plan and LTC and AW Strategies are aligned with ICS/STP initiatives. We have adopted a three-tier approach as per NHS Long-Term Plan to planning and governance.

STP/ICS:

North London Partners in Health & Care, on which North Central London CCGs, Council and health providers are represented, is responsible for coordinating STP-wide plans. As part of the development of a single ICS for Mar-20, NCL CCGs are finalising which services could be commissioned or provider at STP, and which at a Borough, footprint.

Those services likely to be commissioned at a STP footprint include elective health services in which there's likely to be a common NCL care pathway, particularly those for which there are opportunities to reduce unwarranted variation and economics of scale in commissioning across Boroughs. A number of our existing LTC pathways and end-of-life care pathways fall into this category. We have also well-established joint commissioning arrangements between Haringey and Islington CCG, e.g. for community health services, where it makes sense to do so.

Even for services likely to need to a tailored Borough solution, such as those associated with integrated care between local partners, there's a need to establish a set of multi-agency design principles across NCL to which Borough partnerships adhere. For example, a set of such principles and support materials has recently been established across NCL to support PCNs to establish social prescribing. This work informed the approach to community navigation more generally in Haringey and was delivered on the ground in Neighbourhoods (see (A)). In turn, our approach in Indianate to the principles. This provides consistency of approach and assures alignment between STP, Borough and Neighbourhood footprints.

There are several examples of how the interaction at STP and Borough levels has already provided opportunities to align solutions via Haringey's BCF Plan investment:

- Common NCL-wide hospital discharge processes were implemented over the last 2 years. These processes contributed to Haringey's significant improvement in DTOCs and the introduction of gradually converging acute-community care processes and structures, e.g. move to single point of access, across NCL to reduce unwarranted variation, e.g. implementation of a common NCL Choice Policy for patients needing care home admission (see (A));
- Haringey commissioned its Trusted Assessor/Enhanced Health in Care Home model via established Enfield & Islington procurement arrangements rather than introducing its 'own' model. This means a single TA for Haringey & Enfield operates within NMUH rather than 2 different ones and models of onward support. This has simplified operational arrangements for the provider, care homes and for the acute staff.

Borough Leve

The Ageing Well Strategy is in the process of being agreed at Haringey's Borough Partnership and HWB Board. It and services listed in this BCF Plan which make a significant contribution to the Strategy, is chiefly at the Borough or Neighbourhood footprints.

Our solutions in the BCF Plan are comprehensively aligned with LBH's Borough Plan and Haringey CCGs existing commissioning plans. For example, the BCF Plan includes investment in early intervention/prevention in 2019/20. This supports the AW Strategy, which includes actions to better consolidate and target information, advice and guidance across partners to residents and patients in the Borough and in neighbourhoods, and how an asset-based approach to commissioning community solutions will be adopted to support older people with care needs. In turn, both approaches reinforce the People section of the Borough Plan.

Where it makes sense to do so, we are designing Haringey's integrated care solutions to align with those in Islington and Enfield & Islington and Enfield & Islington and Enfield & Islington and Enfield & Islington and Enfield By Federations, acute and community health providers and Enfield & Islington and Enfield By Federations, acute and community health providers and Enfield & Islington and Enfield By Federations, acute and community health providers and Enfield & Islington and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and community health providers and Enfield By Federations, acute and Community health providers and Enfield By Federations, acute and Community health providers and Enfield By Federations and Enf

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services	Care Coordination Single Point of Access Care Planning, Assessment and Review Other
	which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets. Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct	
	joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency team. Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type alongside.	
Intermediate Care Services	who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of	
	professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the sub- types.	

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and	Personal Health Budgets
reisonansed budgeting and commissioning	budgeting.	Integrated Personalised Commissioning
	budgeting.	Direct Payments
		Other
Personalised Care at Home	5-h	Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can	
	continue to live at home, through the provision of health related	
	support at home often complemented with support for home	
	care needs or mental health needs. This could include promoting	
	self-management/expert patient, establishment of 'home ward'	
	for intensive period or to deliver support over the longer term to	
	maintain independence or offer end of life care for people.	
	Intermediate care services provide shorter term support and care	
	interventions as opposed to the ongoing support provided in this	
	scheme type.	
Prevention / Early Intervention		Social Prescribing
	Services or schemes where the population or identified high-risk	Risk Stratification
	groups are empowered and activated to live well in the holistic	Choice Policy
	sense thereby helping prevent people from entering the care	Other
	system in the first place. These are essentially upstream	
	prevention initiatives to promote independence and well being.	
Residential Placements	Residential placements provide accommodation for people with	Supported Living
		Learning Disability
	sight or hearing loss, who need more intensive or specialised	Extra Care
	support than can be provided at home.	Care Home
		Nursing Home
		Other
Other	Where the scheme is not adequately represented by the above	
	scheme types, please outline the objectives and services planned	
	for the scheme in a short description in the comments column.

7. High Impact Change Model

hattala2	Health and	Wellbeing	Board:
seiectea	Health and	wellbeing	Board:

Haringey

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

Our acute Trusts, NMUH and WHT, supported by their health & care partners, led Winter Reviews in 2019/20 to better understand what went well last winter and how we could plan for summer and winter 2019. We identified a number of improvements that form part of our plans in our AW Strategy, including investment in several schemes funded via BCF Plan.

These improvements will be progressed as part of the wider development of the Frailty Network NMUH Urgent & Emergency Board will oversee (see

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

8. Metrics

Selected Health and Wellbeing Board: Haringey

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
		There was a greater increase in 65+ admissions in 2018/19 than any other
Total number of	Collection of the NEA metric	population. Development of our system-aligned and multi-agency care network,
specific acute	plans via this template is not	particularly our Frailty Network, should impact on NEL admissions in 2019/20 (see
non-elective	required as the BCF NEA metric	Narrative). Three elements of our plans will impact on NEA:
spells per	plans are based on the NEA CCG	- Our early intervention & preventative solutions targeted at 'at risk' patient groups
100,000	Operating plans submitted via	(e.g. older people) at a neighbourhood footprint will mean a greater number of
population	SDCS.	people will be identified and connected into community solutions to keep them fit,
		well and stimulated. We will focus on supporting self-care, and help them to better

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox:

ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

	19/20 Plan	Overview Narrative
Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)	17.0	Haringey has a well-integrated and effective solution to reducing delayed transfers of care. Our Discharge-to-Assess (D2A) process has been successful and resulted in a consistent year-on-year reductions in delays over the last 2 years, e.g. there was a 21% reduction in DTOC days between 2017/18 and 2018/19. In 2019/20, we will expand resources to support discharge planning and onward patient management including System Resilience/WG funding. Improvements include: • Hospital Discharge Preparation: The planned development of NMUH's 'Frailty Hot Floor' will better manage patient flow for older people. NMUH has also invested in additional resources to support its internal discharge processes and liaison with patients for those patients who with the most complex needs (and are most likely to

Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older	Annual Rate	476		In 2019/20 we have or intend to:
people (age 65 and over) met by		476	468	- Work with NMUH and WHT and our Trusted Assessors
admission to residential and	Numerator			as part of our continued improvement to Simplified
nursing care homes, per 100,000		130	130	Discharge to better identify the optimum solution for
population	Denominator			older patients with complex needs with potential to
population	Denominator	27,326	27,767	return home with support rather than be placed in a

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and	Annual (%)	01.00/		In 2019/20 we will continue to invest in reablement
over) who were still at home 91		81.8%		services funded via the BCF Plan. We will:
days after discharge from hospital	Numerator			- Work with NMUH and WHT as part of our continued
into reablement / rehabilitation		82		improvement to Simplified Discharge to better identify
services	Denominator			the optimum solution for older patients who have the
3CT VICC3	Denominator	100	100	potential to return home as part of our 'Home First'

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Haringey

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted? Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes	Ageing Well Strategy (Draft) BCF Plan Narrative 2017-19		
NC1: Jointly agreed plan	PR2	A clear narrative for the integration of health and social care	Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers: - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICSs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes	Ageing Well Strategy (Draft)		
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities? Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes			
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (autovalidated on the planning template)?	Yes			
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NH5 commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes			
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care? Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes	Ageing Well Strategy (Draft)		

Agreed expenditure plan for all elements of the BCF	PR7	pool that are earmarked for a	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? Has funding for the following from the CCG contribution been identified for the area? - Funding dedicated to carer-specific support? - Reablement?	Yes		
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes		
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? Have stretching metrics been agreed locally for: - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes	Finance & Performance Partnership Board Performance Update Q4 2018/19 (which set out proposed targets for 2019/20) - Jun-19 papers & minutes
