## Welcome to Opus Energy

Dear Mr Arda,

Thanks for choosing us as your business electricity supplier. We've received your electricity contract and we'll now begin the registration process. From this point on we'll take care of everything.

We want to make becoming an Opus Energy customer hassle free. We've enclosed your details and our Terms and Conditions, please read over them and let us know if your details need changing. Once we've registered your account, we'll send you confirmation of your supply's start date.

The price you pay for your energy is fixed at the start of your contract, and this will not change throughout the duration of your contract. So no matter what happens to your energy's wholesale price during the term of your contract, your business will be protected from the market's volatility.

There are some elements of your invoice that are charged at a rate either regulated or set by the Government, and are subject to change. These include some distribution and transmission charges as well as taxes such as the Climate Change Levy and VAT.

As a voluntary FiT licensee, we can offer FiT terms if you're generating small amounts of power. For every MWh you generate, you'll receive a FiT subsidy at a price set by the government. If you're interested in this scheme, please visit [www.opusenergy.com/renewables/](http://www.opusenergy.com/renewables/).

We are committed to providing a customer service that you'll value. On our website you can find our privacy policy and details of how we use your consumption data, and what to do if you would like to restrict our access to that data. You can also find our standards of conduct which will detail the service you can expect to receive.

Protecting your privacy is something we take seriously. Our data protection policy sets out how we use information about our customers and prospective customers. You can find our customer data protection policy on our website at [opusenergy.com/data-protection-policy](http://opusenergy.com/data-protection-policy).

Ofgem has recently authorised new regulations that will affect businesses with meters in Profile Class 5-8. The regulations require these businesses to switch to Half-Hourly metering. Affected businesses may see some additional charges from the electricity distribution companies passed through on their invoices. For more information on this, please visit [www.opusenergy.com/hh-billing](http://www.opusenergy.com/hh-billing).

Our Customer Service team is available weekdays 8am to 6pm, so if you have any questions please feel free to give us a call on 0843 227 2377 or email [contactus@opusenergy.com](mailto:contactus@opusenergy.com).

Yours sincerely,
