Internal Audit Strategy - Introduction

Haringey's internal audit function is driven by an appropriate strategy, rather than as a tactical response to operational issues, to minimise the risks that key strategic issues could be overlooked. Haringey's framework has been developed to cover both strategic and tactical considerations and ensures that internal audit resources are used to provide the appropriate assurances for the organisation at any one time, as follows:

To create an effective internal audit function, internal audit's key stakeholders will determine how the audit function delivers the desired value by focusing on e.g. risk management and control assurance; assessment of internal control effectiveness and efficiency; regulatory and corporate compliance assurance; developing awareness of risk and control across the organisation. Internal audit's resources and plans are then aligned to the Council's key business risks and operational and financial priorities as follows:

Internal Audit Objectives

Haringey's approach is designed to enable internal audit's remit to evolve and develop as the organisation's needs change over time. As stakeholder needs evolve, internal audit can focus on creating value through assisting with improvements in operational processes. As Haringey's risk appetite changes, internal audit's strategy and functional focus can move from internal control, to risk management, assurance.

The internal audit strategy sets out how the Council's Internal Audit service will be delivered, in accordance with the Internal Audit Charter. Internal Audit will provide independent and objective assurance to the Council, its members, the Chief Executive and Senior Leadership Team and to the Chief Financial Officer to support them in discharging their responsibilities under S151 of the Local Government Act 1972, relating to the proper administration of the Council's financial affairs. It is the Council's intention to provide a best practice, cost efficient internal audit service which fulfils the requirements of the statutory 2017 UK Public Sector Internal Audit Standards (PSIAS).

Internal Audit's Remit

Internal Audit will:

- Provide management and members with an independent, objective assurance and advisory activity designed to add value and improve the Council's operations;
- Assist the Corporate Committee to reinforce the importance of effective corporate governance and ensure internal control improvements are delivered;
- Drive organisational change to improve processes and service performance;
- Work with other internal stakeholders and customers to review and recommend improvements to internal control and governance arrangements in accordance with regulatory and statutory requirements;
- Work closely with other assurance providers to share information and provide a value for money assurance service; and
- Participate in local and national bodies and working groups to influence agendas and developments within the profession.

Internal Audit will ensure that it is not involved in the design, installation and operation of controls so as to compromise its independence and objectivity. Internal Audit will however offer advice on the design of new internal controls in accordance with best practice.

Service Delivery 2021/22

The internal audit service will be delivered by a 'mixed economy' of externally procured services under the direction of the Council's Head of Audit and Risk Management, supported by an inhouse Corporate Anti-Fraud Team. A Deputy Head of Audit and Risk Management post has been established and the new post holder started in February 2020. This role was established to strengthen the in house senior resources focused on Fraud, Risk, Audit and Governance to ensure the services plans for continuous improvement can be efficiently implemented with less reliance on the private sector. A key area for development is the council's Risk Management Framework by strengthening the formal mechanisms that support management it will be easier to gain insight and provide assurance, to all stakeholder, in future.

The resources available in 2021/22 to deliver the internal audit and counter-fraud function have been assessed as adequate to fulfil the requirements of the PSIAS and ensure that the key risks of the Council are subject to an appropriate level of independent audit review.

Internal Audit Planning

Audit planning will be undertaken on an annual basis and audit coverage will be based on the following:

- The Borough Plan and Corporate / Directorate Risk Registers;
- Risk identified at Priority Boards or within Directorate Management Teams;
- Discussions regarding assurance needs with the Council's senior management, statutory officers and Priority Owners;
- Outputs already available from other independent assurance providers.

The annual Internal Audit Plan is composed of the following:

- Borough Plan/Priority and Business Area Risk Based Audits: Audits of systems, processes or tasks where the internal controls are identified, evaluated and confirmed through risk assessment process. The internal controls depending on the risk assessment are tested to confirm that they are operating correctly. The selection of work in this category is driven by internal audit's and senior managers' risk assessment and may also include work in areas where the Council services are delivered in partnership with or by other organisations.
- Key Financial Systems: Audits of the Council's key financial systems on a continuous basis.
- Probity Audit (schools/other establishments): Audit of a single establishment. Compliance with legislation, regulation, policies, procedures or best practice is confirmed.
- Computer Audit: The review of ICT infrastructure and associated systems, software and hardware.
- Contract and Procurement Audit: Audits of the Council's procedures and processes for the letting and monitoring of contracts, including reviews of completed and current contracts.
- Counter-Fraud and Ad-Hoc Work: The in-house Corporate Anti-Fraud Team undertakes a
 programme of pro-active and reactive counter-fraud investigations. A contingency of audit
 days is also included in the annual audit plan to cover any additional work due to changes or
 issues arising in-year.
- Advisory: Supporting management with advice and guidance regarding new systems and processes and how an efficient and effective control environment to manager risk can be implemented. Our mix of in house and outsourced resources, enables us to provide this added value service without conflicts of interest arising.

Follow-up

Internal Audit will evaluate the Council's progress in implementing audit recommendations against agreed targets for implementation. Progress will be reported to management and to the Corporate Committee on a quarterly basis. Where progress is unsatisfactory or management fail

to provide a satisfactory response to follow up requests, Internal Audit will implement the escalation procedure as agreed with management.

Reporting

Internal audit reports the findings of its work in detail to local management at the conclusion of each piece of audit work and at the follow up stage. The appropriate officers to receive the report at the draft and final reporting stage of the audit will be determined at the planning stage of the work and reviewed at the end of the fieldwork period to ensure completeness. Summary of findings are reported to the Corporate Committee as part of the quarterly reports and within the Head of Internal Audit's annual report which contributes to the assurances underpinning the statutory Annual Governance Statement of the Council.

Internal Audit Plan 2021/22

The annual internal audit plan has been discussed and agreed with the Senior Leadership Team; Priority Owners; and nominated clients. The plan and strategy are submitted to the Corporate Committee for final approval and any significant changes to the annual internal audit plan and/or the internal audit strategy will be reported during the year to the Corporate Committee for formal approval.

The table below sets out the internal audit work to be completed by the external contractor. The total number of days to be delivered excludes audit work that will be completed as part of the corporate anti-fraud team's work.

The work planned aims to provide coverage across the value protection and value added requirements of the Council. The internal audit service has focused its annual plan to align it with the identified key risks within the Borough Plan in order to provide assurance across the Priority areas. Assurance on Priority 5 key risk areas will be provided in part via internal audit's annual audit plan delivered via Homes for Haringey and the counter-fraud work plan.
