

Dear Licensing

Finsbury Park is in my ward and as such I am writing to make a representation regarding the license application below for a four month event in Finsbury Park. Having read the background information regarding this application, I would ask that this application is considered by the licensing committee. It is unclear to me how this will be managed and supervised, and this raises concerns since the application involves provision of alcohol for nine hours per day in the park, which is a public open space. I also understand from the background information I have read that varied arts, music and cultural events are planned for this month period. How will the applicant manage noise, crowds and ensure public safety for this period? I would ask therefore that this is brought to the committee.

*The Open Arms on 17 May to 17 September 2021 Finsbury Park, London N4 2NQ Ward -
