**Subject:** Gladstone House/Taco

Hi Dale,

Gladstone House is a building in close proximity to Wood Green underground station and the busy thoroughfare of West Green High Road.

The property itself is on a very busy road near to the junction with West Green High Road and Lordship Lane.

There are many retail premises in the locality as well as restaurants which hold late night refreshment licenses.

As with any other inner London Borough, the area is susceptible to High levels of crime and antisocial behaviour which are investigated by the police and local authority.

These types of offences can range from low level antisocial behaviour to theft from person or violence related offences.

From police records, it does not appear to be offences that have been specific to Gladstone House.

The only representation that I can give for this proposed premises is that the late night refreshment license operates to a time similar to other restaurants in the area. I do not believe that the premises will increase crime or asb in the area as it will not be doing anything different to other similar premises.

Regards

Phil

**Subject:** Objection to late night restaurant licence on residential street

To Haringey licensing:

This is an objection to the following application:

1-2 Gladstone House, High Road, Wood Green, London, N22 6JS (WK/493154)  
Ward - Noel Park

**Late Night Refreshment**

Monday to Sunday 11pm to 12 Midnight

**Hours open to the Public**

Monday to Sunday 10.30am to 3am

**Type of Premises** -Restaurant

**End Date** - 26 April 2021

**Licence Type** New Application

Three AM is too late for a fast food restaurant to be open on a residential street. The noise, litter and increased traffic will cause undue stress and reduced standard of living to the residents living above an adjacent to the location.

The fact that Noel Park is an article 4 conservation area I increases the inappropriateness of this type of late night business.

Sincerely,  
Rachella Sinclair,  
Chair, Noel Park Conservation Area Advisory Committee

**Subject:** Taco Bell planning application

To whom it may concern,

I am a resident in Noel Park and I wish to object to the following planning application:

###

**Taco Bell**

1-2 Gladstone House, High Road, Wood Green, London, N22 6JS  
Ward - Noel Park

Late Night Refreshment

Monday to Sunday 11pm to 3am

Hours open to the Public

Monday to Sunday 10.30am to 3am

Type of Premises -Restaurant

End Date - 26 April 2021

Licence Type New Application

###

The fact that this establishment is hoping to remain open until 3 am EVERY day is crazy and would have a terrible impact on nearby residents, not to mention other residents in Noel Park – imagine all those drunk, loud, shouty customers returning to their cars in the early hours of the morning every day of the week. Furthermore, seeing as everybody seems to drive a car in Haringey, such a late licence would mean an increase in (loud and pollutant) traffic in the area during the early hours of the morning.

My details are as follows:

Jason Warner

Subject: Objection - Taco Bell - 1-2 Gladstone House, N22 6JD - (WK/493154)

Please note that this is an objection to the above.

I am surprised to see yet another application for a late night licence. I do not see nor understand the need. There are numerous issues around this and hopefully I can capture them all.

There are other premises which already have late night licences. It is a fact that these contribute to the general level of anti social behaviour seen in Wood Green. The best example of this is the nightclub. I have complained about the level of noise, litter and the number of people that linger around after the club closes. Why is it that the residential properties have to suffer. It is very easy to assume that a Taco Bell with a late night licence will continue to attract more people in the early hours of the morning. This will be an additional to an already busy area.

It is not unreasonable to want to be able to sleep in your own home without constant noise interruptions. You can take your pick: people sitting in their cars playing loud music; people lingering around on the street shouting, singing; the fights and random acts of violence; people being sick or taken ill; people urinating in the street; additional volume of traffic and people simply revving their car engines. This is already a problem which you do not seem to take seriously at all.

Let's remember a simple fact: Gladstone Avenue is a residential road. People live and sleep here. While the other places which open late night are not directly on a residential road, this Taco Bell will be. I cannot see how it is considered acceptable to want to add to the number of people in Wood Green in the early hours of the morning.

The current parking restrictions stop at 10pm and anyone can park on the roads after this. Given the location of the Taco Bell it is not hard to work out where everyone will park. Surely the council has some form of requirement to protect the people living in the area from additional noisemakers. Perhaps this is the time to introduce full parking restrictions with enforcement. I'm sure this will net a large amount of fines if the enforcement officers are capable in dealing with the frequent abuse and threats of violence.

Perhaps it is worth mentioning that people now think it is ok to park on the pavements around the proposed site for Taco Bell. This shows the level of respect that these people have for the laws and that fact no one takes any action to correct this. The police and the council simply turn a blind eye to this. Why do the residents have to put up with the issues that this causes.

For some reason, many people seem to use Gladstone Avenue as a meeting place to eat food and talk. The time of the day is irrelevant. This happens with people in cars and people standing in the street using people's walls as some form of a table. Taco Bell will not help this as it will encourage more people to eat their food on the streets in the early hours of the morning. Again Gladstone Avenue is supposed to be a residential road.

I'm pretty sure that you have received numerous complaints about rats and foxes living in the area. Having another source of food for these animals will only increase their numbers. Very few people take their food away. Most seem to eat in the surrounding area and the most convenient place for their rubbish is the pavement. Please explain how you plan to tackle the vermin and especially the rat issue that seems to be growing.

As I have just mentioned very few people use bins or take their food away with them. The road or pavement is the most convenient place. It is a simple assumption that the litter and food waste will get even worse. Again residents are the ones who have to suffer from this.

I do not understand the need to have a Taco Bell with a licence opening every day of the week until 3am. There are already several places which open late and the level and variety of anti-social behaviour is intolerable. An additional licence can only add to the problem. This is a residential road which makes this application different. The residents have to endure the problems caused by these licences. Perhaps you could review this every night for a month and then go and start your day job at the normal time. Perhaps you might actually appreciate the position of the residents. Is it unreasonable to want to try and get some sleep. Even during the lockdown Gladstone Avenue remains exceptionally busy. With lockdown coming to an end this can only get worse.

I cannot understand the need for another place which sells food and alcohol until 3 am every day of the week. There are already plenty of other places to which meet this requirement. The nightclub had to address the issue of people lingering after they closed. From experience the people will not leave the area after Taco Bell has closed and will continue with their anti social behaviour.

The reasons to object are numerous: this is a residential road; litter; noise; vermin; increased traffic; more pressure on parking; car revving; slamming of car doors; random car alarms going off; violence; urinating; being sick; loud music; shouting; lingering around after closing etc. There are few positive aspects to the proposal other than the concept of simple commercial profit. This is at the expense of quality of life for residents which must surely be a higher priority for the council in its consideration of the application, rather than simply ignored. There is simply no need for Taco Bell or any other fast food chain, to be open 16.5 hours every day, 7 days a week. This application is totally unacceptable for every reason stated. I OBJECT to this application.
