Update on school building program

Coldfall

The main school expansion works are completed and the school admitted its fourth expanded cohort in September 2008. It will be full to capacity of 630 in 2012.

Tetherdown

The main school expansion works are completed and the school admitted its third expanded cohort in September 2008. It will be full to capacity of 630 in 2013.

Children's Centre development

The phase 3 plans incorporate the development of a children's centre in the Fortis Green ward. We are exploring the possibility of working with Coldfall Primary School and are in discussions with Barnet on cross border provision.

Conclusion

The projections for 4 year olds show a continuing upward trend. This is supported mainly by an increasing birth rate. This area is characterised by low to middle band mobility, steady growth in school population and an overall high demand for school places. For the 2009 reception entry, first place preferences fell below the PAN for one school in this planning area.

Overall, first place preferences for schools in planning area 1 have increased since last year, with applications from parents living in PA 1 remaining high.

Planning area 1 still has pressure for places, as the majority of the schools are oversubscribed and popular, with large numbers of reception applications received from parents in this area. We have recently expanded both Tetherdown and Coldfall within this planning area to alleviate some of this pressure. Following comments in the last report, we have now issued statutory notices on the proposed expansion of Rhodes Avenue Primary School to meet demand in and around PA1. This is discussed further detail in sections 20, earlier in the report.

Planning area 2

This planning area incorporates Highgate ward.

Children's Centre development

Highgate Primary has been designated as a Children's Centre as part of the phase 2 programme. Current plans are in place to carry out capital development links to the site during 2009. It is anticipated that Highgate will be operational by early 2010.

Conclusion

The roll projections for 4 year olds show an upward trend over the next ten years. This area is characterised by high mobility. There has been a steady growth in the school population over the past 12 years. There are relatively few major building works and no known housing developments in the area that would have additional impact upon the demand for school places.

Demand for school places in Highgate ward has slightly decreased for September 2009 – back to a similar level as seen in September 2007. The situation will be closely monitored to ensure the recent school expansion programmes do not create instability within these schools.

The need for school places in this PA will be kept under regular review.

Planning area 3

This planning area incorporates the Hornsey and Crouch End wards.

Children's Centre development

Stonecroft Children's Centre supports the Muswell Hill community. This centre offers a range of services.

Campsbourne Infant & Junior schools incorporates Campsbourne children's centre to support the Hornsey community.

Update on school building program

Coleridge

The first reception cohort of 120 children was admitted in September 2007. The area is now available for the 3rd reception cohort to enter the school in September 2009. Building works are on schedule to allow the fourth cohort of 120 to enter the school in September 2010.

Conclusion

The projections for 4 year olds show a continuing upward trend. This is supported mainly by increasing birth rates which are growing at a faster rate than housing developments within the borough. This area is characterised by low mobility, steady growth in school population and high demand for school places.

The first 120 cohort was admitted to Coleridge in September 2007 and was full. Reception places at Coleridge were also full for the reception 2008 cohort. By creating the additional 60 places, we are currently meeting local demand.

Planning area 4

This planning area incorporates Stroud Green ward.

Children's Centre development

Stroud Green Primary school has a children's centre supporting the Stroud Green community. The centre offers a range of services for children under 5 and their families.

Conclusion

The roll projections for 4 year olds show an upward trend over the next ten years. This area has a low mobility. The school population has fluctuated over the past 11 years, but has become more stable in the past 5 years.

Demand for school places in Stroud Green ward has slightly decreased for September 2009 – back to the same level as September 2006. Rolls increased slightly this year – predominately at one school. With the extra 60 reception places created by the expansion of Coleridge primary in Crouch End, we should be in a position to offer parents one of their preferences, for the foreseeable future. We will continue to closely monitor the effects of the Coleridge expansion on Stroud Green Primary.

This situation will be kept under continuous review.

Planning area 5

This planning area incorporates Harringay ward.

Table 5.1: Schools, PANs, reception numbers and unfilled reception places in planning area 5

Proposed housing developments in PA 5 since 2002

There are no major housing developments proposed in PA 5

Children's Centre development

South Harringay Infant school incorporates a children's centre. The centre is designated as part of the phase 2 development and has begun to offer services to the Harringay community. It is proposed that North Harringay Primary school will link into the children's centre.

Conclusion

The roll projections for 4 year olds show an upward trend. Overall, first place preferences for schools in planning area 5 have increased since last year. This area has variations in mobility, with the infant school experiencing a lower mobility than all other schools located in this planning area. The area also has a high number of temporary accommodation units.

Rolls fell slightly this year – predominately at one school. Although the school's population has fluctuated over the past 11 years, we are expecting rolls to stabilise as a result of the PAN reduction at North Harringay.

The situation will be kept under annual review.

Planning area 6

This planning area incorporates St Ann's, and parts of Seven Sisters and West Green wards.

Table 6.1: Schools, PANs, reception numbers and unfilled reception places in planning area 6

Total		59	22

Children's Centre development

Woodlands Park children's centre (formally Known as Woodlands Park Early Education Centre & Nursery) opened in 2005.

Conclusion

The roll projections for 4 year olds show an upward trend. This is supported mainly by an increasing birth rate. Rolls fell slightly this year – predominately at two schools. However, reception figures are at a six year high. Overall, first preference applications have increased since 2006 but dipped slightly between 2008 and 2009. This area is characterised by variations in mobility with the infant school experiencing a lower mobility than all other schools located in this planning area

Due to current economic climate, the delivery plans for a major development of 4000 units of affordable housing (of which 2000 units are new housing)

over in the Hackney border on the Woodbury Down Estate have been delayed.

The expectation was for school rolls to increase in the area within the next 3 - 4 years, once families were moved back into the Woodbury Down development. For further information on Hackney's school development plans for Woodbury Down please see Appendix 4 paragraph 14.

The situation for school places will be kept under regular review.

Planning area 7

This planning area incorporates the majority of Seven Sisters ward.

Due to current economic climate, plans for a major development of 4000 units of affordable housing (of which 2000 units is new housing) over in the Hackney border on the Woodbury Down estate by Seven Sisters Road have been delayed. Hackney council will not be expanding Woodbury Down primary school to 3fe until there is proven sufficient demand.

Children's Centre development

The Triangle Children, Young People and Community centre offers a range of children's centre services, as well as inter-generational services for young people and older members of the community.

Haringey continue to work with LB Hackney to offer services at the Lubavitch Children's Centre in Stamford Hill to support the Orthodox Jewish Charedi community living in Seven Sisters.

Conclusion

The projections for 4 year olds show a continuing upward trend. This is supported mainly by an increasing birth rate. Rolls within this planning area have increased since 2007 and reception figures are at a six year high. This area is characterised by high mobility.

Due to current economic climate, plans for a major development of 4000 units of affordable housing (of which 2000 units is new housing) over in the Hackney border on the Woodbury Down estate have been delayed.

The expectation was for school rolls to increase in the area within the next 3 - 4 years, once families were moved back into the Woodbury Down development. For further information on Hackney's school development plans for Woodbury Down please see Appendix 4 paragraph 14.

The situation for school places will be kept under regular review. We are working with schools in the area to try to stabilise rolls and support them during the delay of the delivery of large numbers of new housing units at Woodberry Down.

Planning area 8

This planning area incorporates Tottenham Green ward.

Building work has begun on Hale village (former GLS Site). The location of the development is around Tottenham Hale station. There will be 1210 units within the Hale Village development, yielding an estimated 608 children (see PA 9). A separate application for the Hale Wharf site, which was anticipated to create 500 units of housing has been withdrawn due to the current economic climate.

Children's Centre development

Earlsmead Primary School now incorporates a designated children's centre as part of the phase 2 development to support part of the Tottenham Hale and part of the Tottenham Green communities.

Seven Sisters primary incorporates South Grove children's centre. The centre has begun to offer services to under 5s and their families in the Tottenham Green ward.

Conclusion

The projections for 4 year olds show an upward trend. However we expect these trends to increase once the large housing developments in the area become populated. Due the extent of building development planned for Tottenham Hale, we are considering that consultation for additional school provision is undertaken from 2010/11. This will allow us to implement the additional capacity by September 2014. We are currently in very early talks with local schools on this. This is discussed in further detail in section 20 of this report.

We will continue to closely monitor the school places situation for this area.

Planning area 9

This planning area incorporates Tottenham Hale ward.

Building work has begun on Hale village (former GLS Site). The location of the development is around Tottenham Hale station. There will be 1210 units within the Hale Village development, yielding an estimated 608 children (see PA 9). A separate application for the Hale Wharf site, which was anticipated to create 500 units of housing has been withdrawn due to the current economic climate.

Children's Centre development

Pembury children's centre (formerly known as Pembury House EEC & Nursery School) offers the full range of services.

Welbourne Primary School now incorporates a designated Children's Centre to support the Tottenham Hale Ward

Conclusion

Rolls have slightly fallen this year- predominantly as a result of a loss of pupils at one school. This area is characterised by high mobility and has a high number of temporary accommodation units.

Births have increased and reception class projections show a steady upward trend. We expect these trends to increase once housing developments become populated. Due the extent of building development planned for Tottenham Hale, we are considering that consultation for additional school provision is undertaken from 2010/11. This will allow us to implement the additional capacity by September 2014. We are currently in very early talks with local schools on this. This is discussed in further detail in section 20 of this report.

We will continue to closely monitor the school places situation for this area.

Completed building developments in PA 10

There have been 3 major housing developments completed since 1996.

Table 10.9: Completed building developments in PA 10

Site	Number of units	Child yield calculation
Northumberland Park House	20	9
Blaydon Close	15	5
1-49 Meridian Walk	74	54
Total	109	68

Proposed housing developments in PA 10 since 2002

There no major housing development currently being considered. Nine major housing developments have been granted by planning.

Table 10.10: Proposed housing developments in PA 10

Site	Decision	Number of units	Child yield calculation
62-70 Northumberland Park N17	Granted	16	6
Blaydon Close, Northumberland Park N17	Granted	15	5
Northumberland Park House, Northumberland Park	Granted	20	10
6-8 James Place N17 8NR	Granted	12	5

Harpers Yard, Ruskin Road N17 8QQ	Granted	9	9
761-767 High Road Tottenham N17 0JP	Granted	16	8
691-693 High Road N17	Granted	58	24
Total		185	82

The area around White Hart Lane football stadium has been identified in the Mayors Draft Spatial Strategy as a potential regeneration area. The area has the potential capacity to build a further 400-600 units.

The Central Leaside development, which extends from Pickett's Lock in the North East Tottenham (in Enfield) to Northumberland Park in the south, could further increase school place demand in Northumberland Park ward. The development is large scale and will transform the area by creating a mix of community businesses and homes. There is currently no information available about the number of units this development will bring, however initial estimates range between 5,000-10,000. It is expected that the Central Leaside Area Action Plan (CLAPP) will be adopted by 2010. Haringey is working in partnership with Enfield to assess the impact on demand for future school places.

Children's Centre development

Park Lane Children's Centre offers a full range of services for under 5s and their families in the Northumberland Park ward.

Conclusion

The schools in this Planning Area are either full or very close to capacity across all their year groups, with demand for places at its highest since 2002. The projections for 4 year olds show an upward trend. The area is has a large number of temporary accommodation units and experiences variations in pupil mobility.

We will continue to work with planners and colleagues in Enfield to understand the impact of all the housing developments planned for the area and how this will affect the demand for school places. This work is on going and updates will be provided annually.

Planning area 11

This planning area incorporates White Hart Lane ward.

Table 11.1: Schools, PANs, reception numbers and unfilled reception places in planning area 11
