

Ref: Licence No: WK/000521383

Application for premises licence, The Broadway, 266 Muswell Hill Broadway, N10 2QR

Dear all, I write as I am concerned about the above existing licence and review.

Since opening they have never complied with the stated clauses until after persistent complaints. There are often no security officers outside allowing their customers to congregate and make noise at night and menacing passers-by.

These include:

- 1 Many instances that when the venue closes the party continues outside. This was initially in the main road but after complaints moved to our car park (see video attached from a recent Saturday). At 2am-3am their customers party, dance, sing and yell for more than an hour. The police have attended on several occasions to break the disturbance up. I am sure that we have drug dealing and taking on our premises. If I had to return late at night with my car I would be scared to enter the car park.
- 2 Music can be heard from the venue and is only reduced after complaints.
- 3 As they close at 2pm the noise is worse after the Haringey Noise Compliant Line is closed. I have complained both at night and the next day on several occasions. I have now decided that if the noise happens after 2am in future I call the police on 999 as I am so desperate.

I am filled with dread that you will allow this licence to continue. The behaviour and disturbance is intolerable and on Friday and Saturday nights I go to bed knowing I will be woken. How long can this continue? I appreciate that the owners are entitled to make a living but in the circumstances I am amazed that there is even any consideration that the licence may be renewed. On viewing the enclosed video do you think that this is acceptable behaviour after 2am?

Yours faithfully

Dr Keith Mount
