The hours the event space will be opened to the public should be reconsidered as the event space is a working site for the build-up prior to the event opening to the public. How will the public be kept safe in the event site from 7am? I think this time should really just reflect the timings the event is open to the public to take part in licensable activity.

The planned event is proposed for a late finishing time. Sunset times for 20th August is 20:12, therefore additional lighting towers must be in place and must be switched on by 19:12pm. For 21st August the sunset time is 20:10pm and additional lighting must be switched on by 19:10pm.

How are attendance numbers being monitored across the day?

A separate PA system for any emergency announcements must be installed.

SIA and stewards will need radios to communicate across the entire period.

What thought has been given to possible Counter terrorism as you are dealing with a large crowded space. Your risk assessment and any plans will need to be included in the EMP.

What thoughts have you had around safety of women and girls whilst onsite. There is a big push to ensure safe spaces are made available in case a female or other vulnerable person is being harassed or feeling unsafe. Are your medical team and Security being briefed about such matters?

There seems to be six bars will each one have someone who is a personal licence holder who will be responsible for overseeing sales? CHALLENGE 25 to be in use across all bars.

Due to the additional stages and the growing of the event you will need to have a sound engineer who can monitor the sound escape to residents along Seven Sisters Road, Green Lanes and roads by Endymion Road.
