## Interpretation

A Quality Assurance and Improvement Programme (QAIP) enables an evaluation of the internal audit activity's conformance with the Internal Professional Practices Framework (IPPF), Definition of Internal Auditing and Standard 1300 (Quality Assurance and Improvement Programme) within the Public Sector Internal Audit Standards (PSIAS) 2017 and an evaluation of whether internal auditors apply the Code of Ethics. The program also assesses the efficiency and effectiveness of the internal audit activity with the primary objective of the QAIP to promote continuous improvement to enable Internal Audit to meet its mission namely, to

*“Deliver a forward thinking to enhance and protect organisational value by providing risk based, independent and objective assurance, consulting activity, advice and insight.”*

## Benefits of a QAIP

Internal Audit's QAIP is designed to provide reasonable assurance to its stakeholders that the service:

- ✓ Conforms with the mandatory guidance of the Public Sector Internal Audit Standards (PSIAS);
- ✓ Performs its work in accordance with its Charter (which is consistent with the PSIAS);
- ✓ Is perceived by stakeholders as adding value and continually improving its operations;
- ✓ Has the ability to increase the credibility of internal audit within the organisation;
- ✓ Anticipates, meets and exceeds stakeholder expectations by offering valuable advice and insight;
- ✓ Operates in an effective and efficient manner; and
- ✓ Adds value and identifies areas for continual improvement to the services provided.

## **PSIAS Standard 1300**

A QAIP covers the entire spectrum of assurance, consulting and fraud / irregularity work performed by the internal audit activity in accordance with the Standard 1300 (Quality Assurance and Improvement Programme), including. To implement the Standard the Chief Internal Auditor (CIA) must consider the requirements related to its four essential components:

1. Undertaking both periodic and on-going internal assessments (Standard 1311);
2. Commissioning an external assessment and communicating the results to the Corporate Committee (1312 & 1320);
3. Proper use of a conformance statement (Standard 1320 & 1321); and
4. Disclosure of non-conformance (Standard 1322).

## **Internal Assessments**

Internal assessments are undertaken through both on-going day to day supervision of Mazars and periodic reviews of the audit work.

### **On-going Reviews**

Continual assessments of quality are undertaken via:

- ✓ Management supervision of all audit activity and structured documented review of Terms of Reference, working papers, draft and final reports;
- ✓ Audit quality procedures for each audit engagement to ensure consistency, quality and compliance with planning, fieldwork and reporting standards;
- ✓ Feedback from audit clients obtained through surveys at the closure of each engagement;
- ✓ Post audit evaluations undertaken at the end of each audit activity to identify trends and any learning and development needs;
- ✓ Monitoring of internal performance targets and quarterly reporting to Senior Management and Corporate Committee;
- ✓ High priority recommendation monitoring process in place to ensure implemented; and

---

## Internal Audit Quality Assurance and Improvement Programme (QAIP) Framework

---

- ✓ Follow up audits undertaken where a limited assurance opinion on the control environment provided.

### Periodic Reviews

Periodic assessments are conducted via:

- ✓ Annual Risk Based Internal Audit Plan developed. This is dynamic and changes in year due to risk, consultancy, irregularity and assurance needs;
- ✓ Quarterly Progress Reports presented to the Corporate Committee which includes progress against the annual plan, reports issued during the period including details of the risk and control opinions and summaries of key issues and outcomes from the work undertaken in the period, including fraud and irregularity work;
- ✓ Annual self-assessment of conformance with the PSIAS and annual review of compliance against the requirements of the QAIP, the results of which are reported to Senior Management and the Corporate Committee;
- ✓ Feedback from Director of Finance and Chair of the Corporate Committee on the CIA's performance; and
- ✓ Annual Satisfaction Surveys to key stakeholders.

### External Assessment

In addition to internal assessments, the CIA is responsible for ensuring that the internal audit activity conducts an external assessment at least once every five years.

The purposes of the assessment, which must be performed by an independent assessor or assessment team from outside the organisation, is to validate whether the internal audit activity conforms with the Standards and whether internal auditors apply the Code of Ethics.

A self assessment may be performed in lieu of a full external assessment, provided it is validated by a qualified, independent, competent and professional assessor.

The review undertaken during 2015 by an independent assessor included a review of the team's conformance to the International Professional. The independent assessment identified conformance and reported the outcomes to the Audit and Risk Committee in Sept 2015.

The Corporate Committee was advised an External Assessment was overdue and that it would be conducted in the 2022/23 financial year. The outcome will be reported to the Committee once the external assessment completed.

### **Responsibility / Communication of QAIP Results**

The CIA is committed to continuous improvement and is responsible for implementing the QAIP and will ensure that the results of this programme are communicated to the Corporate Board and the Corporate Committee (as defined within the Charters). However, everyone within Internal Audit have responsibility for maintaining quality, therefore all activities outlined in this QAIP involve all relevant staff and Mazars. The communication of QAIP results will include:

- ✓ The outcomes in respect of both internal and external assessments;
- ✓ The internal audit service will only communicate that the internal audit activity conforms with International Standards for the Professional Practice of Internal Auditing, if results of both the QAIP's internal and external assessments support such a statement; and
- ✓ Any non-conformance with the IPPF's mandatory elements of the standards, their impacts and improvement plans.
