Jasmin, 14, from Wood Green said:

I've loved being part of the Wood Green Young Voices. It's provided me with so many amazing insights into people's views on Wood Green as well as London as a whole, and the diversity of the group ensure that all views are represented.

The group has meant a lot to me. It's been amazing to see the youth hub grow from a mere concept into something really quite amazing and I will 10,000% be visiting :)
