**To:** Licensing <Licensing.Licensing@haringey.gov.uk>  
**Subject:** District 22 application/s for licence/s.

To whom it may concern,

My objections are as follows:

Yet again a business operating from these premises is applying for licenses to play music and sell alcohol, at hours that are more suited for the High Road than this part of Wood Green.

The area is noisy and polluted enough thanks to the continuous traffic, day and night, and granting these licences will only add to the ever-growing problems of noise/air pollution.

Please consider the people that live here 24/7. The business is surrounded by families with jobs to go to in the morning, and children who have school the next day. There are also a lot of elderly and disabled people with physical and mental health problems. It is essential for their well-being that they are able to get a decent night's sleep. Interrupted sleep is one of the worst things in life, nobody can dispute that.

From past experience, under various names, the businesses that operate from 83 Mayes Road invariably promise to do all they can to ensure the noise is kept down, particularly when customers are leaving. This promise has never been kept, simply because it is impossible for the security staff to patrol the whole area. Once out of the pub, customers are drunk, and loud, with absolutely no thoughts about keeping the noise down. Conversations are loud, happy, high, laughter, as you would expect; arguments break out, car doors slam, heavy bass music blares out. Meanwhile probably in every household we are all sitting in the dark hoping it will pass quickly. It's hard to get back to sleep. In the morning we find vomit on the pavements, bottles of alcohol, scraps of food, shiny canisters of laughing gas; as you would expect if were living on the High Road.

Going from past experience, if it closes at 2 a.m., they will be around till 3 a.m. at least. I do not blame the customers; they are just doing what anyone would expect if this was on the High Road. I blame the company that has done all it can to invite them into the area, District 22, operating as businesses do, with no consideration of the time or place and the consequences of their actions upon the real local residents.

I am aware of the terrible problems being experienced by the residents of Corbyn Road - the cars, the music, and the inability of security staff to prevent any of this. And this has been going on for month after month, with many questions yet to be answered. I hope the licencing team will investigate this before any decisions are made. It seems more than unreasonable to inflict exactly the same sort of damage on the residents of Mayes Road without resolving the numerous outstanding complaints first.

Please bear in mind that many of my neighbours are computer-illiterate due to age or poverty or mental health issues, and are unable to respond to these applications. I am also

speaking on behalf of my immediate neighbour at 114 Mayes Rd- [REDACTED]. We have discussed this in detail and she wishes me to state that she agrees with what I have written.

My last point is that District 22 are obliged to inform the public with a Notice (on a blue plaque) of their applications for licences put on the doors/windows. This has never happened, to date. They have categorically never informed the general public of their intentions. Among other implications, this may well affect the number of objections you receive. I have taken photographs as evidence should you need them. Surely this alone should mean that they are not granted licences.

Yours Sincerely,

[REDACTED]

**Subject:** Objections To District 22 licencing

Dear Sirs /madam,

Please see my objections below,

this building was called the Duke of Edinburgh Pub, it has changed hands 3 times but only when they got into trouble, as this is well documented.

We do not consent to the 2 am. finish, this would be totally unacceptable, Coburg Road has a lot of elderly people living on our road, also around the corner of our road there are people with mental health conditions to which the Council has a duty of care.

We have a right to a private life and we expect these businesses to respect that and not paid lip service.

This management would have known of past struggles with noise, drugs, wild parties, customers loitering, yet the first thing they did was to go for a special licence to have extra time, which disturbed the neighbours to the early hours of the morning, they had not learnt anything.

District 22 have been taken over by so-called new management but yet it felt like the same people, nothing had really changed but it actually got worse, we have been disturbed by noise almost every day since this management took over , their customers leave at all hours of the morning, customers blocking our driveways, drink bottles been left on our streets, cars with loud exhaust pipes leaving these premises at all hours of the morning waking up the households.

11 p.m. should be there finishing time, we will find that reasonable.

There should be restriction on the shisha area, there should be no music in this area from 10 p.m. And they should clearly demonstrate that they can fix the noise in this area to the industry standards and that their customers will leave on time, (11pm) as they have failed both of these requirements and we can back this up with video evidence and complaints that have been logged with the Council, please see below.

To my knowledge I don't think they even had planning permission to do the shisha area extension , after a complaint the council had to advise them that they had to apply, maybe someone can enlighten me in this area.

They were given two special licences called, TEN, within days of each other, they did not finish on time and they played music over those times, which disturbed us almost every single night with Vibrations from these premises, this intern messed up are sleeping patterns and cause a lot of stress, my mother is 84 years old and her window will be facing this area, when the weather is hot the windows have to be open but when you're hearing the music noise from this building this will be Impossible.

If they were given a licence to 2 a.m. that means they are not going home to 4am and the music will be played throughout the night and early hours of the morning, as the management seem to have a problem telling people to leave, this will be totally unacceptable and not appropriate for this area with elderly people, mental health conditions and young families.

They must stop breaching the Peace on our road.

They are trying to turn this road into the West End, a place that does not sleep, there are houses and flats nearby this building and it would not be appropriate for a residential area.

They did what they wanted without a licence, what would they be like with one.

Residents do not trust these people and by the evidence we were right, no one in their right mind would agree to 12am, 1:30am or 2 a.m. finish and from their record this will be disastrous.

The well-being of the residents should be paramount and outweigh money, profits from a business that would have known there are residents living nearby and should there by respect their rights to a private life.

The only time this building was running properly was when it was the Duke of Edinburgh Pub, it was a community pub and the management respected the Residence.

Since then, every single person that has moved into the pub has given problems, stress to the residents and does not follow the rules.

Please see complaints below,
