## Public and Statutory consultation

### Wightman Road – Proposed Highway Improvements

Dear Resident or Business,

Following the implementation of the highways improvements in Wightman Road, which were recommended by the Green Lanes Area Transport Study (GLATS), a post implementation Road Safety Audit was carried out to assess the safety and effectiveness of the scheme.

The safety audit identified some issues in relation to sightlines for vehicles exiting some of the side roads onto Wightman Road. In response to the findings and recommendations from the safety audit, we intend to shorten the parking bays outside nos. 152, 218, 256, 272 and 280 Wightman Road. The amendments will consist of a minor reduction to the existing bays to a total length of 6m, as shown on the plan overleaf.

Our proposal aims to improve visibility for vehicles existing sides roads onto Wightman Road making it safer for all road users.
