

Safeguarding Plan for Haringey

The JAR Action Plan

Together we ensure that every child matters

August 2009

Our Commitment

Together.... we protect children

Messages

- **Together we build a living picture of a child's needs.** We are always watchful. We always listen to the child's voice. We never ignore a child who needs our help or protection.
- **Together we pool our resources, time and information.** We never assume it is someone else's responsibility. We never leave a gap through which a child can fall.
- **Together we work for the children of Haringey.** Children are at the centre of everything we do. Together we will make this the best place to work for the welfare of children.
- **Together we ensure that every child matters.**

Background

Work has been underway to deliver improvements in the safeguarding of children for some months. An Improvement Plan was submitted in February 2009, and a follow up Action Plan was submitted to Ofsted and the Department for Children, Schools and Families (DCSF) in March 2009 and approved in April. This three year plan was designed to ensure that Haringey's services for children and young people are among the best by March 2012.

The subsequent inspection of progress was carried out by Ofsted in June 2009, demonstrating that whilst some improvements have been made, there is limited progress overall in addressing the weaknesses identified in the November 2008 joint area review. The July 2009 report from Ofsted identified 11 recommendations for improvement, all of which have been built into the refreshed Plan for addressing before the end of the year. In the meantime, there have been other findings from Serious Case Reviews (SCRs) and reports from other inspectorates following up the events that led to the death of Baby Peter.

The refresh of the JAR Action Plan is designed to pull these findings together into a set of prioritised improvements to be delivered over the next three years. This action plan therefore forms a Safeguarding Plan for Haringey. Several of the actions within the original plan have been completed, whilst others now appear within the Children & Young People's Plan (CYPP), which has been developed

alongside the Safeguarding Plan, and is the single statutory overarching plan for all services which directly affect children and young people in Haringey. The CYPP is based on the five Every Child Matters outcomes. The key actions from this Safeguarding Plan form a large part of the “Stay Safe” element of the CYPP.

The evolution of the plan showing these stages of development can be summarised in the figure 1.

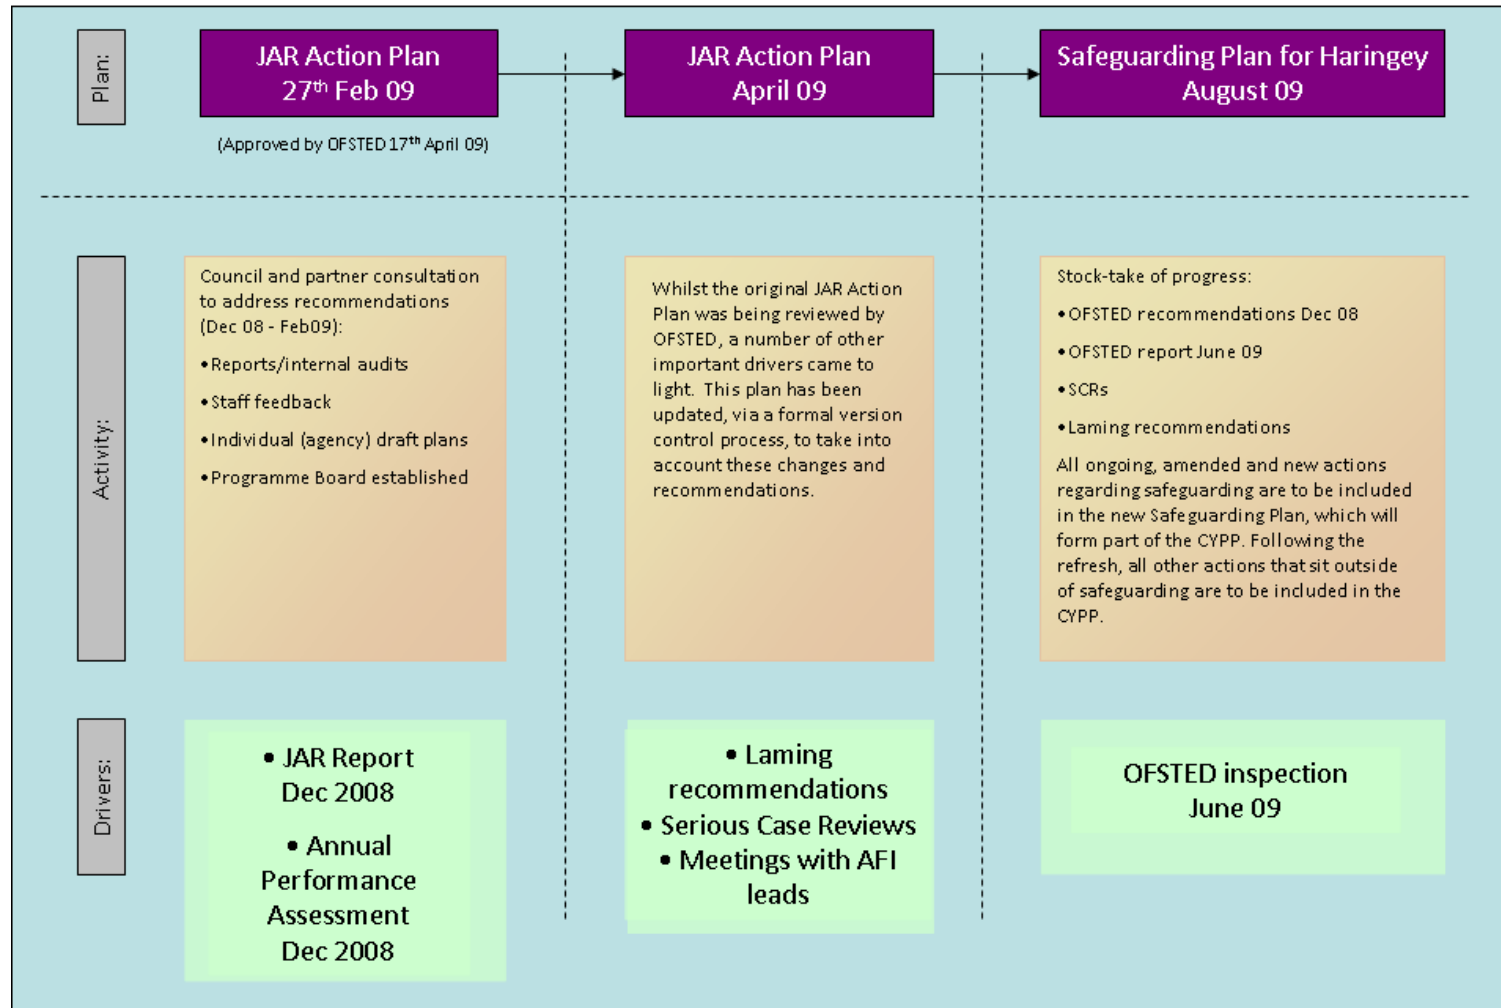

Figure 1 – Plan Development Stages

Following the June 2009 visit, feedback demonstrated that further improvement was needed as a priority in eleven areas. These are all being addressed as a matter of priority throughout section 1 of the plan (July – December 2009). In addition, some further areas of work are in need of early attention to avoid concerns being raised and lead to further improvement. The priority areas highlighted through inspection and other key priority areas previously identified are:

Priorities for further improvement	Actions
The council and its partners should take immediate action to ensure that all children and young people are adequately safeguarded	Throughout
The council and its partners should take immediate steps to accurately establish the volume of demand for services and strengthen the ability to prioritise responses so that the quality of the work can be improved and statutory timescales can be achieved	1.23
The Haringey Safeguarding Children Board should ensure that the learning from the recent serious case review of Baby Peter is fully disseminated to all front-line services with immediate effect	1.02
The Metropolitan Police Service should ensure that borough police activity is incorporated within and monitored through the Metropolitan Police Service action plan	1.25
The council's children's services should ensure that formal supervision arrangements are consistently in place and that all case decisions made in supervision are formally recorded on files	1.14, 1.16, 1.17 & 1.18
The council's children's service should formally launch and disseminate the revised procedure manual	1.11
The council's children's service should ensure that supervision and performance management are fully integrated in front-line social care services	1.16
The council's children's service should improve its use of the Framework-I computer system and investigate and take opportunities to improve its effectiveness and ability to support good practice	1.10, 1.16 & 2.06
The Children's Trust should take immediate steps to develop a local preventative strategy in accordance with the requirements of the joint area review action plan, and strengthen the role of the voluntary sector and wider	2.04

Priorities for further improvement	Actions
partnership	
The council's children's service should strengthen its use of the common assessment framework and formally implement its policy relating to eligibility for access to services	1.05
The NHS provider trusts should improve their collection and management of data to improve the effectiveness of their performance management capability	1.24
Other known issues explicit in reports but not the focus of recommendations	
Recruitment, retention training and development of social workers and health workers	1.14 & 1.15
Improve the quality and timeliness of initial and core assessments	1.06
Improve the quality of child protection plans and the making / recording of decisions	1.06, 1.07 & 1.08

Purpose

The overall objective of the Safeguarding Plan is to unite all partners in the borough to develop and implement high-quality children's services, with safeguarding at its core. The key objectives of the Plan and response to Ofsted's December 2008 and July 2009 reports are summarised under 5 key themes and they set out changes for safeguarding services in governance, systems and procedures, capacity & staffing and performance management. This plan is designed to set out the route for Haringey Children's services to be recognised as "among the best" when assessed by Ofsted in 2012.

Themes

The refreshed plan is divided into 5 themes, summarised diagrammatically in Figure 1, around which the improvement actions will be delivered:

- Good Practice

- Early Intervention
- Leadership & Governance
- Capacity & Staffing
- Performance Management

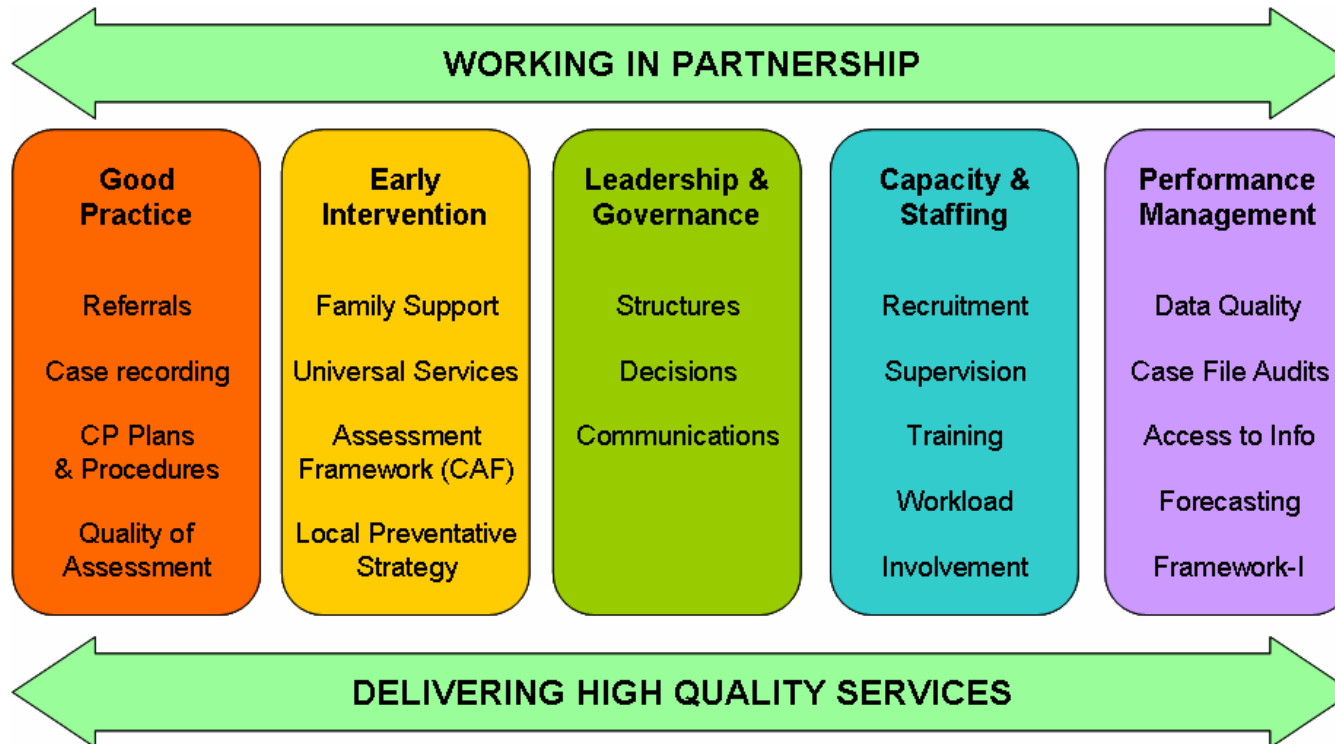

Figure 1 – Programme Structure

Explicit within each of these improvement themes is the need for quality and sustainability. The Action Plan must develop solid foundations by the end of 2009, on which future improvements and service developments can be built. For this reason the plan is split into three timescales:

- Short term – 5 months: by December 2009
- Medium term – 1 year: by June 2010
- Longer term – by March 2012

Throughout these periods of activity, emphasis is placed equally on the harder aspects of workflow, systems and procedures and the softer elements of change management and leadership to make implementation of the systems happen, now and in the future. The emphasis throughout is **working in partnership** to deliver improved services to the people of Haringey. As such, partnership has not been identified as a separate theme, but instead is a means of achieving each of the improvement areas. This in itself adds an extra layer of complexity, but it is viewed as essential in delivering the improvements. For this reason governance and service delivery improvements will be considered in the partnership dimension and built into the relevant actions, rather than being identified separately for each partner organisation.

Many actions have been removed in this streamlined and refreshed version. In accordance with the agreed programme management arrangements, the status for each of these actions has been recorded.

The Outcomes

The Safeguarding Plan aims to deliver visible outcomes for children and young people across the borough over a three year period through creating improved ways of working and service delivery, enabling Haringey to be recognised as providing outstanding safeguarding services.

Good Practice – Joint working is essential to maximise expertise and resources. We will deliver high quality social work and professional practice across the partnership. We will commission services with greater market intelligence to make the most of resources and maximise value for money. Through the provision of all our services, we will put children at the centre of all we do. There will be new protocols for information sharing, agreed thresholds for action, improvements in communications and decision-making and better outcomes for families.

Outcome: *Good staff, working across organisational boundaries, that are supported in their duties by effective systems and procedures, helping them improve working practices and making sure we improve timeliness, effectiveness and quality of decision making and interventions.*

Early Intervention – We will ensure the safety and wellbeing of children through early intervention, ensuring that families receive the appropriate support at an early stage to meet their lower level needs. With a seamless transition between the tiers of need, we will ensure that those children whose needs do escalate can access a range of services that can respond to their changing needs. Through working within the partnership we will put the child's needs at the centre of all we do, supporting families in their role.

Outcome: *An improved balance between universal and specialist services, which ensures that families are supported in order to reduce demand on specialist services. Families have, or are supported to develop, the appropriate skills and support networks and are engagement by all appropriate universal services.*

Leadership & Governance – The Local Safeguarding Children Board (LSCB) has specific responsibilities for proactively monitoring and challenging the performance of services who deliver safeguarding. The new Haringey Children’s Trust reflects the renewed closer working between agencies in the borough and fulfils statutory obligations. More significantly it signals a renewed commitment to the children and young people of the borough, regardless of agency or individual. The Children’s Trust is one element of the Haringey Strategic Partnership (HSP).

Within the Council, members play a key role in the Corporate Parenting Member Group, monitoring the quality of our work for the most vulnerable children and young people. The ‘Safeguarding Policy & Practice Panel’ reviews the Council’s practice in safeguarding children and young people.

Outcome: Leadership that is visible across the partnership; owning, demonstrating and effectively communicating the clarity of purpose and the framework for accountability that delivers high performing safeguarding services.

Capacity & Staffing – We will continue to develop our staff across the partnership to build a confident and competent workforce providing excellent safeguarding services. This will require investment in the skills, capacity, training and development of our workforce, and attracting the very best in the sector to the challenges and benefits of working in Haringey. Professionals, including social workers, health workers and the police, will work closely together understanding the needs and demands placed on each agency to ensure that the child is protected by our skilled and knowledgeable staff.

Outcome: A motivated and successful workforce comprising the right people, doing the right thing at the right time within clear systems of information sharing, communication and decision-making across the partnership.

Performance Management – We need systems to recognise and measure achievements to improve poor practice. High quality supervision and management across the agencies, working to shared values and standards, will raise the performance and quality of all our interventions. We will make the best use of the systems we have in place to ensure that those to whom we report are able to ensure greater scrutiny than ever before and confirm the quality of what we do. We will establish more consistent monitoring of how children and young people feel about the services and support we provide. The Children’s Trust Executive Performance Monitoring Group will make sure that targets are set and met across the partnership by the safeguarding services.

Outcome: Performance on safeguarding children is clearly known and seen to be improving, with performance information used to drive quality of service performance and delivery of outcomes vigilantly, transparently and consistently across the partnership.

Programme Management

The programme management arrangements build on those adopted in the original JAR Action Plan. There will be monthly reports to the DCSF. There will also be reporting to the Quality Outcomes Board, the Children's Trust and the Local Safeguarding Children Board (LSCB). The respective delivery organisations will also report their progress through their management structures. From September 2009, the Council's Overview & Scrutiny Panel will receive quarterly reports.

A small group of chief officers from key partners has been re-established (in place of the previous AFI Lead Group) in order to drive delivery of the programme on a day-to-day basis. This group comprises: Chief Executive Haringey Council, Director of Children's Services Haringey Council, Deputy Director, Schools Standards & Inclusion, Haringey Council, Chief Executive NHS Haringey, Borough Commander Metropolitan Police and the Programme Manager Haringey Council. This smaller group will be responsible for overseeing day to day delivery of the immediate first phase of the Plan, after which stage arrangements will be reviewed. This core group will take on the role of theme leads, providing individual responsibility for each element of the plan and collective responsibility for delivery of the plan as a whole.

The reports to this group, the Children's Trust and Scrutiny are being streamlined in order that sufficient information is reported without the reporting detracting from delivery. Programme reporting will be against milestone delivery and overall assessment of progress in delivering the overall action. Each milestone will have a named lead, responsible for ensuring that the action lead is updated on progress with their milestone in order to feed the reporting processes. A small set of performance indicators will be monitored to ensure that the required process improvements are being made in the short term, leading to improved outcomes in the longer term.

Performance Indicators

As well as monitoring progress of the milestones within this plan, a manageable set of performance indicators will continue to be used to ensure that the required process / system improvements are being implemented and the targeted outcomes delivered. Most of these key indicators are taken from, or contribute to, delivery of the Local Area Agreement (LAA). The other indicators used are drawn from:

- Safeguarding National Indicators
- Staffing / Corporate Health Performance Indicators

At this stage, it is not proposed to change the performance indicators from those originally selected to monitor delivery of the plan. The performance indicators to be used are contained within Appendix A.

These performance indicators will be collected, reported and managed on a monthly basis. At the same time, we will ensure that the quality and reliability of data is continuing to improve and actions are in place to drive genuine improvements in service delivery.

Action Plan

The following Action Plan comprises 3 sections demonstrating the timescales within which actions will be completed. Each action is aligned to one of the five themes and will help achieve the outcomes set for the respective time period as well as laying effective foundations for our continued improvement.

Section 1: Priority Actions – By December 2009

Outcome – to achieve an adequate rating and recognition of good improvement being made in the delivery of services and outcomes for children and young people

Performance Indicators to be used in the Safeguarding Plan for Haringey

National Indicator set

Our aspiration for performance against the national indicator set is based on the following principle:

- By December 2009, we will have moved out of Ofsted's 'inadequate' rating and be at least 'adequate', with the outturn for 2009-10 being in the lower quartile as compared to statistical neighbours.
- Outturn for 2010-11 will be broadly in line with statistical neighbours.
- Outturn for 2011-12 will demonstrate top quartile performance.

Target-setting has been completed with this aim in mind, however targets for future years will be subject to revision in light of 2009-10 performance, and trends in the performance of statistical neighbours. The primary focus of improvement work is on quality and this will impact upon performance in the short to medium term.

The table below sets out those national indicators which provide evidence of progress against the Safeguarding plan, with targets for 2009-10 and 2010-11. these targets have been set in accordance with the Local Area Agreement (LAA), and will be reviewed in line with LAA development, at which stage 2011-12 targets will be established.

National Indicator	Target	
	2009/10	2010/11
Referral and Assessment		
NI 59 Percentage of Initial Assessments Completed in 7 days (LAA)	53%	72%
NI 60 Percentage of Core Assessments Completed within 35 days (LAA)	63%	81%
NI 68 Referrals to children's social care going on to initial assessments	58%	TBA
Adoption and Children in Care		
NI 61 Timeliness of placements of looked after children adopted following an agency decision that the child should be placed for adoption (number of children who should have been placed within 12 months divided by number who	78%	80%

ceased to be looked after)		
NI 62 Stability of placements of looked after children: number of moves (Percentage at 31 March with three or more placements during the year)	11%	10%
NI 63 Stability of placements of looked after children: length of placement (Percentage aged under 16 at 31 March who had been looked after continuously for at least 2.5 years who were living in the same placement for at least 2 years, or are placed for adoption and their adoptive placement together with their previous placement together last for at least 2 years)	70%	TBA
NI 66 Looked after children cases which were reviewed within required timescales (LAA)	97%	98%
Child Protection		
NI 64 Child Protection Plans lasting two years or more	5%	5%
NI 65 Children becoming the subject of a Child Protection Plan for a second or subsequent time	10%	10%
NI 67 Child protection cases which were reviewed within required timescales (LAA)	100%	100%
CAMHS		
NI 51 Effectiveness of child and adolescent mental health (CAMHS) services (Based on four questions, each scored out of four, giving a maximum possible score of sixteen)	15	TBA
Hospital admissions		
NI 70 Hospital admissions caused by unintentional and deliberate injuries to children and young people	22.68	TBA

Organisational health indicators

Local indicators covering sickness, staffing levels, supervision and training will be used to monitor and evaluate the implementation of actions in the plan. For example, indicators on vacancy rates, sickness levels and the percentage of agency staff (broken down by agency and by service) will form part of the evaluation of the 'Haringey Offer'. Indicators on the completion of staff appraisals also form part of the evaluation of the actions in the plan on supervision. These indicators will be included in the monthly progress reports.

Local indicators – LSCB QA Sub-group dataset

The LSCB Quality Assurance sub-group dataset has been updated to include more indicators that monitor the quality of safeguarding practice. The group is also doing some work to develop a multi-agency audit tool. Findings from this work which provide evidence of progress against the safeguarding plan will be included in monthly progress reports as and when they become available.

Case audits

An improved audit tool for evaluating the quality of social work practice has been developed and a pilot audit of 30 cases completed. Staff will be trained in the use of this tool in September 2009, with regular qualitative and in-depth audits being undertaken from October 2009. In addition we will be running a series of quantitative audits from September 2009. The results from both of these audits will be included in the monthly progress reports for the safeguarding plan.

PAN London CAF QA Framework

The Pan London CAF Protocol comes into effect in September 2009. The Protocol represents an agreement between all London local authorities and partners delivering children's services to set in place minimum standards for all children, young people and families with identified additional needs. The protocol includes a CAF quality assurance framework to monitor the quality of the CAF process and identify improvements. The Integrated Working Steering Group is currently developing plans for local implementation of the framework, including identification of nominated auditors, and setting up of an evaluation team to consider outcomes. Implementation is scheduled for November 2009, and findings will be included in monthly progress reports as they become available.

Partnership staff survey

A survey to gather the views of practitioners across the partnership on a range of issues will provide a means of monitoring the implementation of specific actions in the plan, and also enable the partnership to gauge progress against the broader objectives of creating an open culture where staff feel able to exchange views and challenge each other's perspectives, and feel supported in their work. The survey has been tendered and awarded to Ipsos MORI, and will be carried out in autumn 2009 with the results reported in a future progress report.

Social work forum

The social work forum was established in December 2008 to enable front-line social workers to raise issues directly with the Director of the Children & Young People's Service. Information from these meetings and similar ones extended to include a wider range of staff provide further useful material for gauging progress. Issues arising from these meetings will be included in the monthly progress reports.

Service user and Stakeholder feedback

Where service user and stakeholder feedback provides information regarding the progress of the Safeguarding Plan, it will be included in monthly progress reports. Channels for this feedback include the following:

- The 'vulnerable children conversation' provides a rich source of information, primarily on the provision that schools make for vulnerable children, but also on their views of working with children's social care, the CAF process etc.
- Viewpoint is a computer based system for children in care to give their views online. An independent company collates the results and reports them to Haringey Council.
- For parents whose child is subject to a child protection plan, a revised questionnaire is in place for them to give their views following the first conference and the concluding conference.

Where possible performance information collected will enable a mix of quantitative and qualitative measures in order to ensure and demonstrate the continued improvement in services delivering tangible improvements in outcomes on the ground.

Further indicators have been identified which are reported to DCSF and Government Office for London (GoL) on a regular monthly basis. Over the coming months work will be progressed to align or integrate these reporting frameworks within the Safeguarding Plan reporting and performance management mechanisms.

CROSS CHECKING - Ofsted Safeguarding Assessment

To be Adequate we need to demonstrate that each of the following is in place:

Achievement	Actions (Ref no.)	Completion Date
There is a track record of achieving continuous improvement in service provision and / or outcomes.	All actions and performance indicators	
Plans are in place and are effective in delivering improvements in priority areas.	1.02 1.03 1.06 1.07 1.08 1.10 1.12	Oct 09 Nov 09 Nov 09 Oct 09 Oct 09 Dec 09 Dec 09
