

CONSULTATION METHODS – APPENDIX 3

The various highways schemes developed through this works plan will be the subject of further consultation/ notification. The level of consultation/ notification will depend on the impact of the scheme on the local community. The three consultation/notification types are:

- Notification of works (All works) – residents and businesses of affected roads will be notified by letter drop on approval of the Highways and Street Lighting Investment Plan. In addition, they will be notified by letter drop and any other appropriate media 3 weeks in advance of work commencing.
- Statutory notification - the public will be notified of the Council's intention regarding proposals through advertisements placed in the local press and on site. Residents and businesses of the affected roads will also be notified by letter drop. The notification will provide full details of the scheme and a commencement date for construction. Resident, businesses, and other interested parties will have the opportunity to approve/object to these proposals and these considerations will be taken into account before implementing the scheme.
- Co-production – any high-profile schemes that alter the network significantly will be subject to a co-production consultation with locally affected properties and lead residents' groups. The co-design process will include input from stakeholders as to the issues, aspirations and challenges which will inform the design development followed by presentation and further stakeholder input once the designs have been developed by the Council. Meetings will include site visits, public and Microsoft Teams meetings, exhibition of proposals on the website, on local notice boards and potentially at drop-in sessions for the wider community.
- The extent of public consultation for the majority of major highways maintenance works includes the identification of areas for future works. The public will be notified on; works programming, major changes proposed to the existing network,

any variance from Haringey's design standards, traffic management during the works, and any works updates.

The table below sets out the consultation process for major maintenance/improvement schemes.

Scheme Name / Location	Consultation Type		
	Notification	Statutory Notification	Consultation
Footway and Carriageway Improvements	✓	✓ Where applicable	✓ Where applicable co-production.
Highway structures	✓		
Other Highways Assets	✓		
Street lighting	✓		Commonplace in spring 2023
