ADDENDUM REPORT FOR ITEMS

UPDATE FOR CONSIDERATION AT PLANNING SUB-COMMITTEE Item No. 8

Reference No: HGY/2023/3078	Ward: Tottenham Hale
<p>Address: Tottenham Hale Station, London Underground Ltd, Station Road, Tottenham, London, N17 9LR.</p> <p>Proposal: Section 73 application to vary Conditions 1 and 11 of the approved development (application ref. HGY/2018/1897 which amended the original permission HGY/2013/2610 for changes to the works to extend the operational railway station at Tottenham Hale). The variations are to replace the requirement of providing a new station entrance and footbridge from Hale Village to Tottenham Hale Station, to instead requiring pedestrian and cycle network improvements on Ferry Lane and accessory works.</p> <p>Applicant: London Underground Limited</p> <p>Ownership: Public</p>	

Clarification

1. Para 5.2 of the report references an objection by the Director of the Engine Room Church and Community Centre, which includes an internet link to an online petition at Change.org, insisting the Hale Village Link Bridge is built.

Although the Change.org petition that the objector refers to was signed by 1,108 people, only three signatories signed the petition following the date the application to amend the Tottenham Hale Station planning permission was submitted.

The petition is noted to have been started on 18 November 2019 so only applications received after the date of the application (Nov 2023) can be directly linked to the current amendment application (HGY/2023/3078) as the application did not exist when the majority of people signed the petition.

However, officers believe understand that all signatories signed the petition, because they believed that the Tottenham Hale link bridge should be built.”
