10.4 The Head of Procurement therefore states that the recommendations in this report offer best value for the Council.

11. Equalities and Community Cohesion Comments

11.1 Homes for Haringey's Asset Management Strategy, 2007/2017, covers all investment in the Councils housing stock, including decent homes. In drawing up the Strategy, an Equalities Impact Assessment was undertaken. The findings have been incorporated into Homes for Haringey's planning processes for delivering decent homes. This includes ensuring that all residents receive the same standard of work, and consideration of specific language and other needs are identified and addressed when drawing up programmes of work.

12. Consultation

Internal

12.1 Homes for Haringey have consulted council officers in the preparation of the proposed Year 2-5 programme, which was approved by the Board in July 2008.

The Leader of the Council and the Cabinet Member for Housing have been consulted in the formulation of the proposed programme. Ward member comments have also been considered.

12.2 Residents have been consulted through the Homes for Haringey Asset Management Panel and Leasehold Panel.

12.3 Homes for Haringey have a dedicated team in place to manage resident consultation and involvement throughout programme delivery. They work closely with the constructor partners' Resident Liaison Officers.

External

12.4 Homes for Haringey has carried out detailed consultation with the residents that will be affected by the works set out in this report. A residents' meeting was held on 13th January 2010 and 18 residents attended in total. The Ward Members were invited to attend. This will be followed by a newsletter to residents within 10 days of the meeting.

12.5 Leasehold Implications

There are no leaseholders included in this phase of works.

13. Service Financial Comments

13.1 The total cost of works within this report is to be funded from the decent homes budget allocation of £33m for 2010/11.

Value for money has been achieved in the project through approved framework agreements. There is also an agreed maximum price for the works.

13.2 Over all the decent homes 5 year programme has achieved efficiency saving through an annual value for money review process that is ongoing . The exercise concluded in 2009/10 will see an average saving on the previous rates of 13.1%, applicable to the balance of the programme. The new rates have been applied to all the current work packages for 2010/11 and represent a net saving on 2008/09 and 2009/10 rates. The new rates are comparable to current market rates and represent good value for money. "These rates mean that the tender cost within this report is within the assumed cost when the £198m Decent Homes budget was initially allocated"
