

Interim Period – Now until the FW(s) have been launched – 6-9months

**Levy**

This Levy structure will be used to promote the LCP-DPS projects with its members.

The reduction has been created:

- To encourage members to utilise the DPS for higher valued projects where the route to market is not always available through the LCP frameworks without paying the full 2% levy.
- To standardise the levy charges across the range of project values.
- A member has committed to a pipeline covering 12 months

Project Value (£m)	Levy Fee % (member)
Up to £1m	2%
£1m - £2.5m	1%
£2.5m over	0.5%

**Rebate**

Following receipt of the Levy Sum from the member and where the value of an individual project or cumulative spend for projects executed under the LCP DPS by a member total per £5,000,000 (five million), in the preceding financial year (April to March), the LCP will pay the member a rebate of £20,000 (twenty thousand pound). This is a one-off flat rate rebate.
