

Appendix IIc - Highways and Parking - Car Parks

The review and update of car parking tariffs is intended to deliver a comprehensive and consistent tariff offer, while taking account of the unique characteristics of those car parks. This seeks to address late night and Sunday parking, and pressures arising from events at the Tottenham Hotspur Stadium. The proposed charging structure brings us more in line with charging arrangements in other comparable boroughs. The event day charges are also informed by charges in other boroughs with major event stadia. 30% Diesel surcharge is applied to all pay for parking charges.

Car Park	2025-26 Current Operating Hours	2025-26 Current Charges	2026-27 Proposed Operating Hours	2026-27 Proposed Charges	Comments	% increase	Value Difference £
