| 1 | Dowsett Road | It is nice having level pavements where I don't risk tripping up. It all looks very pretty, BUT is all this expenditure really necessary? I would rather the money was spent to ensure homeless rough sleepers had somewhere to live                                                                                                                                                                                                                                                         |
| 2 | Dowsett Road | <p>There is a concern around vehicles travelling north east on Park View Road and making the left turn into Dowsett Road against oncoming cyclists. This risk is exacerbated by the narrowing of Dowsett Road due to the proposed footway build outs. Has any consideration been given to providing a segregation island where Dowsett Road meets Park View Road ?</p> <p>Also, the plan doesn't show any tactile paving provision on the south side of the crossing across Carew Road ?</p> |
|   | 2            | 2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
