

Provisional 2010 GCSE Results

Based on children who have continuously been in care for a period of more than 12 months, 48 young people were in the year 11 cohort. Of this cohort 33 young people sat GCSE examinations and all of these achieved a level one qualification or above. **Results are provisional subject to verification.**

- 17% passed 5A* - C grades including English and Maths
- 31% passed 5A* - C grades
- 69% passed 1A – G grade

	Inborough	Outborough
GCSE 5 A* - C (E&M)	2	5
GCSE 5 A* - C	7	7
GCSE 5 A* - G	8	10
GCSE 1 A* - G	16	17

Summary of Provisional 2010 GCSE Results

Today we have 19 young people (31%) who have achieved 5 A-C GCSE ie strong Level 2 qualifications. This will take them through to study at Level 3 or into local employment. All of our new Yr 12 Level 2 students (20 young people) have enrolled into college onto appropriate Level 3 courses. This will give them the opportunity to progress to university.

Two years ago, at the end of Key Stage 3 only 2 of these pupils were predicted, using standardised nationally recognised prediction scales to achieve 5 A- C GCSE. Early intervention during Key Stage 3 built the foundation for the rapid and accelerated progress through Key Stage 4 resulting in 17 additional young people achieving 5 A-C s.

Analysis of post 16 Haringey data (July 2010) shows that young people in care who achieve 5 A-Cs at 16 will be in employment, education or training at age 19. Those in care who do not achieve 5 A-Cs at 16 are highly likely to be NEET at 19.

- 20 pupils have achieved 5 A-C's and need to maintain this level of progress and achieve a Level 3 qualification by the end of Key Stage 5
- 3 pupils need to maintain the progress made from achieving 5 A-Gs (ie secure Level 1 to gain a Level 2 qualifications by the end of Key Stage).

This will dramatically increase their chances of employment and ultimately their life chances enabling them to become financially independent and contributing citizens.

16 of the Yr 11 cohort who gained 1 A-G GCSE ie below a Level 1 qualification are highly unlikely to gain a Level 1 or above qualification without specific multi-agency intervention:

- 11 girls in the 1 A-G group are at high risk of becoming young mothers these need co-ordinated multi-agency approaches, across health social care education and youth offending
- 6 boys in the 1 A- G group are currently offending and youth offending need to be the lead partner with social care

8 of the Yr 11 cohort have High and complex special educational needs. These have achieved well on life skills programmes and are continuing their education at appropriate colleges or at residential specialist out borough provisions
