1 The MPS collects disorder data by recording the number of 999 calls under one or more of a range of predetermined categories, type code 34 relates to Street Drinking disorder and this report is based on all type 34 Class codes; that is any call confirmed and categorised as a Street Drinking incident by the police regardless of how the original call was reported.

## Appendix 4

*Note.*  
CAD call data are aggregated to 250 square meter grid squares based on the location provided. Points are plotted to the centre of these grid squares as opposed to their exact location, hence the statistics shown in this reports should only be presented as indicative of the true position.
