<p>1. Purpose of the report (That is, the decision required)</p> <p>1.1. To provide an update on the recommendations made in the Scrutiny Review of Service Based Transport in Adult Social Care.</p>	
<p>2. Introduction by Cabinet Member</p> <p>2.1. As Cabinet Member for Social Care and Well-being, I welcome this update on progress following the recommendations made by Overview and Scrutiny Committee in April 2009 . It is clear that the model of service based transport which has been operational for 4 years is robust, fit for purpose and gives additional flexibility to the service to meet the requirements of the Well-Being Strategic Framework for Adults 2007-10.</p> <p>2.2. Service based transport has recently been subject to external audit and it has been concluded that substantial progress has been made in realisation of the recommendations of the Overview and Scrutiny review undertaken in April 2009.</p> <p>2.3. I am pleased to report that the recommendations of both the original Overview and Scrutiny report plus the subsequent audit inspection have been fully implemented and embedded in practice in both learning disability and older people's services.</p>
