Date: 18 February 2011
Department and service under review: PRE – Economic Regeneration
Lead Officer/s and contact details: Martin Tucker, Regeneration Manager, 0208489 2932
Contact Officer/s (Responsible for actions): Martin Tucker, Regeneration Manager,
Summary of Assessment (completed at conclusion of assessment to be used as equalities comments on council reports)

The Equalities Impact Assessment for service restructures should assess the likely impact of restructuring on protected equalities groups of employees by: age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex (gender), sexual orientation.

The assessment is to be completed by the business unit manager with advice from HR. It is to be undertaken by an assessment of the basic employment profile data and then answering a number of questions outlined below.

PART 1
TO BE COMPLETED DURING THE EARLY STAGES OF CONSULTATION WITH
STAFF/ UNIONS ON THE STRUCTURE

Step 1 – Aims and Objectives

1. Purpose – What is the main aim of the proposed/new or change to the existing service?

It is proposed to establish a new Shared Economic Development Service for the boroughs of Haringey and Waltham Forest.

2. What are the main benefits and outcomes you hope to achieve?

Shared services between the two boroughs can deliver services at reduced costs in a time of reduced resources.

3. How will you ensure that the benefits/ outcomes are achieved?

The move to a shared service would be a phased process with:

Phase 1 - Development of full business case following Compatibility Analysis and Implementation and Engagement process by March 2011.

Phase 2 – shared joint economic development service with joint Head of Economic Development overseeing the service and strategic commissioning with commissioning leads for each borough and a soft split between commissioning and operational delivery by June 2011

Phase 3 – single strategic commissioning economic development service with operational delivery outsourced into a social enterprise established by December 2011.

The first phase of developing alternative models for delivery will be closer collaborative working between the two borough services with Phase 2 being the establishment of the new shared service. Phase 3 will include the establishment of a social enterprise for operational delivery.

Phase 1 - Development of full business case and model via Compatibility Analysis and the Implementation and Engagement Process

In the last quarter of 2010/11 January – March 2011 work on developing the full business case and model for the shared service based on the approach and

processes set out in the agreed Memorandum of Understanding between Haringey and Waltham Forest on Shared Services will be undertaken.

This work will include a **Compatibility Analysis** – high level evaluation - looking at Strategic Fit, IT systems, Processes, Staff arrangements, Governance, Service standards, Cost Sharing, Risks, and Organisational Arrangements and once this is completed progressing through **the Implementation and Engagement Process** including a full business case and design of the new shared service.

Phase 2 – a Shared Service

This service would see the collapsing of current provision in both boroughs to be replaced by a new slimmer service.

Phase 3 - A Social Enterprise

As local authorities retract and refocus on core statutory services over the next few years it is inevitable that more non-statutory services will be delivered by organisations external to local councils.

Economic development and regeneration is currently and will remain a priority for both boroughs as they recognise the importance of tackling worklessness and supporting local businesses in order to deliver economic prosperity through job creation and enterprise. However in light of changing policy priorities and spending reductions it is not a requirement of local authorities to deliver economic development delivery services themselves and this can be outsourced to a local provider through establishing a new social enterprise based on the operational delivery elements of the shared service in Phase 2.

Step 2 – Current Workforce Information & Likely Impact of your proposals

Note – there is an Excel template that accompanies the EIA Service Restructure template on Harinet. This is to help you complete the tables of staff information and % calculations. 22. If you provide services to residents please also identify the potential impact/ issues relating to the change in service delivery as a result of your proposals.

Part of the current Economic Regeneration service, which will be reduced to accommodate the new shared service, focuses on operational delivery of employment & skills interventions and programmes of activity to Haringey residents.

13 of the current staffing establishment are directly involved in this service delivery through the Haringey Guarantee programme. The Haringey Guarantee is externally funded and reductions in that funding will result in reductions in staffing (2 have taken VR) and a reduced programme. However the reduced programme will still maintain its equalities targets and will still predominantly focus on deprived wards and thereby lessen the equality impact. The reduced programme in 2011/12 will be a programme focussed on employment support leading to sustained employment and will include delivery partners with the best strategic fit, best performance, value for money plus local presence and connection – this will include the 4 Star rated EAN based in Northumberland Park combined with the innovative Families into Work project, the successful work placements provision, the NHS led Working for Health focussing on health conditions, IB and disability, and a local job brokerage based in Tottenham with excellent links to BME businesses.

A full Equality Impact Assessment is being undertaken on budget reductions affecting the Haringey Guarantee programme.
