## Introduction

The information in this report is taken from SAP. It covers the period 01 April 2005 - 31 March 2006.

The data is based on Haringey Council employees who

- hold Permanent, Temporary or Fixed Term Contracts
- are considered as Supernumerary (employees that have been on a Temporary Contract for more than 52 weeks)

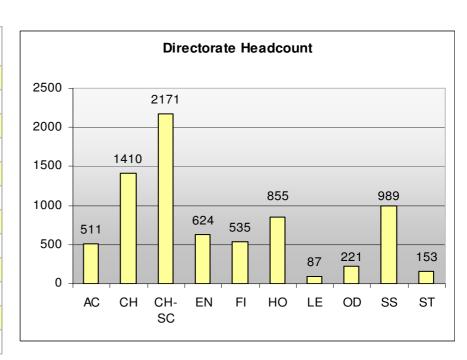

Note that this data excludes:

- Casual or Sessional Workers
- Teachers
- Agency Workers

| Legend                             |       |  |  |  |  |  |  |  |

### **Summary**

#### Headcount, Gender and Ethnic Breakdown

Haringey employs 7556 staff (excluding teachers and casual staff).

- 70.4% of the workforce are women
- 45.8% of the council workforce are from black & minority ethnic groups (B & M E). This compares well
  with the Haringey population of 34.4% black & minority ethnics (B & M E). It also compares well with the
  percentage of 48% white staff in the council
- The Council is one of only3 inner London authorities with B & M E representation over 40%.
- 33.1% of the council are B & M E women, which compares well with the percentage of 33% white staff
- 4.1% B & M E staff are paid more than £32,000. This compares with 7.1% white staff paid £32,000 or more. The proportion of black & ethnic minority staff to white staff is therefore not as good as other comparators
- Of the Top 5% earners in the council 21.1% are B & M E staff. At the end of financial year the Council had 25.7% B & M E staff and this put the council 1<sup>st</sup> in London for B & M E in the top 5% of earners

The above statistics show that we have met our stated HR Strategy objective of having a workforce that reflects the community we serve.

However, we are still continuing to strive for better representation where appropriate. We have achieved level 2 of the local government Equalities Standard and we have plans in place to achieve levels 3 & 4 by 2007.

#### **Earnings Growth**

The Council's workforce has not increased substantially in size over the last 2 years. However, there has been a large increase in earnings over the last 2 years.

This is evidenced by the fact that the number of staff in grades PO4 and above (£32k+) have increased by more than 20% over the past 2 years. Whilst, the number of staff in grades below Scale 5 (less than £21k) have gone down by more than 5%.

Personnel are leading on the Equal Pay and Conditions Review which will address issues of harmonising the pay and conditions of former manual and officer staff and address any equal pay issues. This review will ensure that the correct levels of pay are awarded across the organisation. The review is due for implementation from April 2007.

#### **Full-time and Part-time**

- 46.1% of the workforce is classed as part time workers. Of these 40.3% are female and the remaining 5.8% are male
- The largest groups of female part timers work in Access, Finance, Housing, Organisational Development and Strategy Directorates

### Summary (Continued)

#### **Age Profile**

- The average age of the workforce is 43 years old
- 5% of staff are aged under 25 compared with 15% in whole economy
- 28% of staff are aged 50 plus compared with 24% in whole economy
- The percentage of 50 plus workers increases in the higher pay grades. This is to be expected since with increased experience the opportunity to get better paid jobs increases

In October 2006 new Age Discrimination legislation will come into effect.

Personnel have conducted lunch time seminars for staff to inform them about the changes the legislation will bring. Committee have approved new retirement processes which will give people the opportunity to work longer than age 65.

Personnel are developing new policies to take account of the opportunities that changes to the pension scheme will bring to older workers to continue working whilst drawing a pension.

We will also continue with a variety of entry schemes to attract new employees at the lower end of the age range. Examples are the New Start scheme and the Graduate scheme.

#### Disabled staff

- 2.1% of the workforce are disabled. This is an increase from 1.9% last year
- 4.1% of the Top 5% of earners have a disability.

Although the number of disabled staff increased from last year it is important to continue this trend and improve representation across the organisation.

The Council was awarded the two ticks symbol for promoting disabled employment in 2005.

The Council has increased awareness advertising focussing on encouraging people with a disability to consider working for the Council. Recruitment looked into new ways of promoting Haringey by using advertising space at train and underground stations and in specific media targeting disabled applicants. The Council will widen its awareness advertising to other under-represented groups.

### **Headcount & Ethnic Breakdown**

This section contains data on the number of employees employed by Haringey Council.

Haringey Council employed **7556** employees (excluding Teachers and Casual/Sessional employees) at the end of the 01 April 2005 - 31 March 2006 period.

The table below shows the different ethnic groups by gender and salary bands (see appendix A for Salary information).

| Ethnic Comparison by Gender & Salary Bands (Percentages against total number of staff in Haringey Council) |               |       |       |           |      |       |              |       |               |       |      |       |        |       |      |

### **Headcount & Ethnic Breakdown (Continued)**

The above table provides a wealth of data but it is appreciated that it may be difficult to pick out key information. Therefore the table below summarises key information from the table above and allows for quick comparison of key data by ethnic group, females and salary level.

Level 1 – picks out the overall percentages for ethnic groups across the council

Level 2 – drills down to identify the percentage of females within these ethnic groups

Level 3 – drills down the ethnic groups into summarised salary levels and also provides the percentage of ethnic females within each salary level

| Summary of Ethnic Comparison by Gender and Salary |             |           |         |   |         |           |         |           |  |  |  |

| Other   | 2.7         | 1.8       | 0.3     | 0.1   | 1       | 0.6       | 1.4     | 1         |  |  |  |
| B&ME  | 45.8        | 33.1      | 4.1     | 2.7   | 15.1    | 10.7      | 26.8    | 19.7      |  |  |  |
| White   | 48          | 33        | 7       | 3.9   | 16.5    | 11.1      | 24.6    | 18        |  |  |  |

- 45.8% of the council workforce are from black & minority ethnic groups. This compares well with the percentage of 48% white staff
- 33.1% of the council are black & minority ethnic women, which compares well with the percentage of 33% white women
- 4.1% black & minority ethnic staff are paid more than £32,000, compared with 7% of white staff. The
  proportion of black & minority ethnic staff to white staff is therefore not as good as previous
  comparators

### **Headcount & Ethnic Breakdown (Continued)**

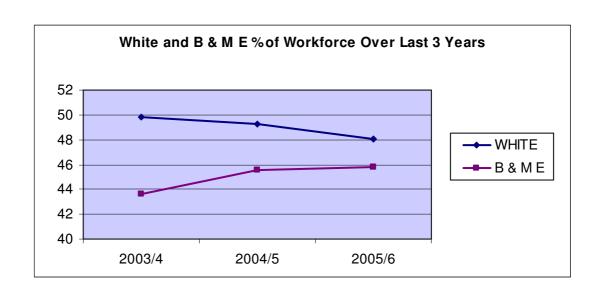

Haringey serves a multicultural community of around 217,000 with **34%** coming from black & minority ethnic communities. With over 7500 staff (approximately 9000 including teachers), Haringey Council is the largest employer in the borough. Most employees live locally and overall the Council's black & minority ethnic workforce is representative of the diverse community Haringey serves.

The following table shows the % of ethnic groups per Directorate compared with Haringey's population.

| Ethnic Distribution % (Percentages against total number of staff in directorate) |       |      |       |       |       |       |          |             |  |  |

<sup>\* =</sup> See Appendix B for ethnic breakdown.

<sup>&</sup>lt;sup>+</sup> = Haringey's Population. Figures taken from Census 2001

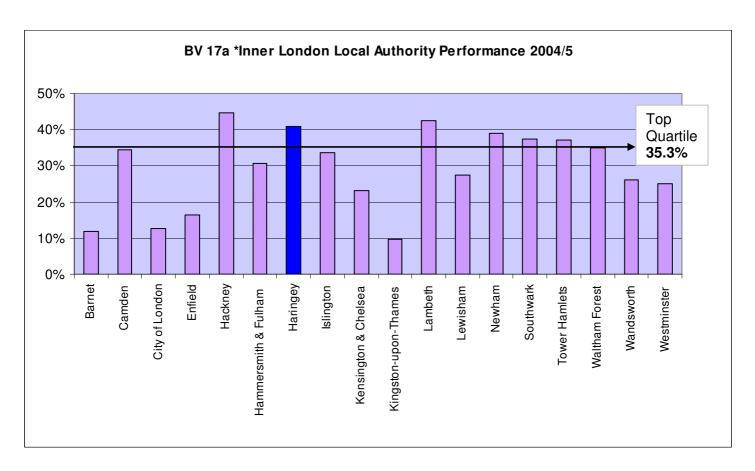

### **Headcount & Ethnic Breakdown (Continued)**

Haringey has consistently performed well for BVPI 17A - % of B & M E staff, and are 1 of only 3 Inner London Local Authorities, which had a representation of over **40**% for 2004/5. The table below displays the performance over the last 3 years.

| BVPI 17a - % B & M E Staff |        |          |        |          |        |  |  |  |  |
|----------------------------|--------|----------|--------|----------|--------|--|--|--|--|
|                            | 2003/4 | Change % | 2004/5 | Change % | 2005/6 |  |  |  |  |
| BVPI 17A                   | 39.3   | 3.8      | 40.8   | 9.3      | 44.6   |  |  |  |  |

Again, Haringey achieved higher than its target of **39.3**% with **44.6**%. Based on current standings, Haringey would be joint top Inner London Local Authority for it's representation of B & M E staff in the workforce.

<sup>\* =</sup> Members of the North London Strategic Alliance are also included: Barnet, Enfield & Waltham Forest

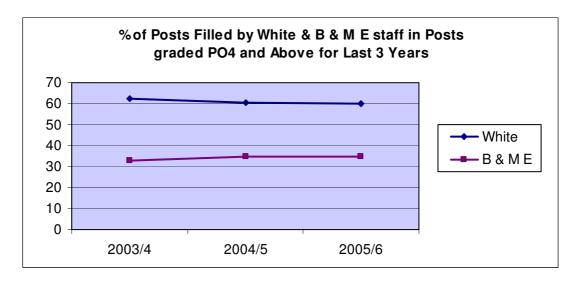

### **Headcount & Ethnic Breakdown (Continued)**

The table below highlights that Haringey Council is employing more staff at the higher end of the salary scales than it did in 2003/4. Though the actual number of staff increased by only 2 people from last year, staff graded in the PO4-PO7 band had the largest increase of **18.7%**, which is also **23.3%** more than 2003/4. Staff within the PO8+ band also had a large increase of **21.3%** from 2003/4.

## **Headcount & Ethnic Breakdown (Continued)**

Haringey is currently the best performing local authority for it's representation of B & M E staff in the top 5% of earners (BVPI 11b 2004/5). The table and chart displays the performance over the last 3 years.

| BVPI 11b - % B & M E Staff in Top 5% of Earners |        |          |        |          |        |  |  |  |
|---|--------|----------|--------|----------|--------|--|--|--|
|   | 2003/4 | Change % | 2004/5 | Change % | 2005/6 |  |  |  |
| BVPI 11B  | 22.9   | 12.2     | 25.7   | -17.9    | 21.1   |  |  |  |

Though the figure was lower this year, based on current standings the Council would still remain in the top quartile of local authorities.

<sup>\* =</sup> Members of the North London Strategic Alliance are also included: Barnet, Enfield & Waltham Forest

## Full Time / Part Time Distribution

This section shows the distribution of employees who are considered to be full-time (employees working the full standard week – 36 hours) and part-time (employees who work less than 36 hours).

| Full Time & Part Time Employees by Directorate & Gender (Percentages against total number of staff in directorate) |        |       |      |       |      |         |         |  |  |

### **Disability Analysis**

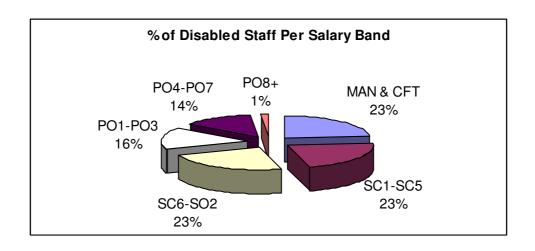

This section gives a snapshot of the number of employees who have declared that they have a disability.

The table below shows the Directorate distribution of employees declaring they have a Disability by Salary Band. The number of staff has risen to **2.1%** of the workforce, from **1.9%** last year.

The Audit Commission has introduced a new best value performance indicator, BVPI 11c -% of Top 5% of earners declaring they have a disability. We achieved **4.1%** for 2005/6 and have a target of **4.9%** for 2006/7.

### **Summary**

#### **Employee Turnover**

The Council's turnover rate stood at 15% for the last year. This is broadly in line with turnover levels in London Boroughs. In 2004/5 the turnover rate in London Boroughs was 15.2%.

The percentage of leavers within the 16-24 age group was 8.7% last year, which is a higher than the percentage of staff in the council in this age range of 4.9%. This points toward a net balance loss of staff within the 16-24 age range. For all other age groups the percentage of staff leaving were less than the percentage of staff within the age band.

44.4% of leavers were in the Black & Minority Ethnic groups. This compares favourably with the percentage of staff in the B & M E group (45.8%).

Dismissal turnover rates of staff at 0.6% are lower in Haringey compared with London borough averages of 0.8%.

We have successfully reduced the number of ill health retirements over last 2 years by more than 80%, down to 0.13% due to improved redeployment and absence management arrangements set up within the Council.

The council has a number of retention and retention initiatives to keep turnover rates at healthy levels.

Haringey provides a good employment package with competitive rates of pay and other non-financial benefits such as a flexible working scheme publicised in 2005 which promotes work-life balance.

The Council was awarded IIP accreditation in 2005 showing a commitment to training and development.

The Council has a number of schemes to improve the intake of staff into specific areas of work. We have a graduate programme that is into it's 5<sup>th</sup> year. Each year the Council recruits 9 graduates.

We have a New Start scheme that encourages apprentices and entry level administrative staff aged 18-24 into employment. We appoint between 10-20 staff each year under this scheme. Many of these young people have successfully applied for permanent jobs at the end of the scheme.

We have a programme called Pathways into Social Care and Teaching that was setup with conjunction with College of North East London, the Strategic Health Authority and a number of London boroughs. This has resulted in the recruitment of 23 Teaching Assistants and 20 trainees in Social Care. It is hoped both these groups will go on to get permanent work in teaching and social work.

We also take on between 10-15 social work trainees each year studying for B.A.'s and M.A.'s in social work. This successful programme is run jointly with Middlesex University.

In 2005 the Council was awarded the two ticks symbol for disability showing that Haringey positively encourages applications from those with a disability.

A pay and conditions package will be negotiated with trade unions during 2006 to comply with the national pay agreement for Local Government Service workers and address equal value considerations.

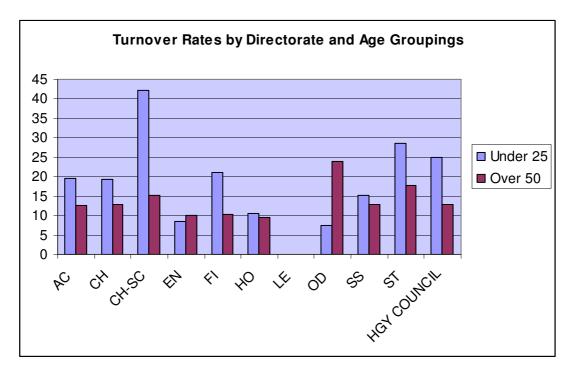

Staff benefit providers are being contacted to establish what kind of external benefits they can promote. The aim is to launch the staff benefits scheme with a dedicated internet site that staff can access to promote discount schemes for staff. Consideration is also being given to implementing a childcare voucher scheme through salary sacrifice.

### **Turnover & Leavers**

This section looks at Turnover rates by Directorate, ethnic group and specified age band groupings and Leavers by Ethnicity and Age Bands. The Housing Turnover rate excludes ALMO Leavers.

|             | Turnover Rate % by Directorate, Ethnic Group and Age Bands |       |      |              |             |  |  |  |  |  |

| SS          | 12.1   | 11.8  | 12.3 | 15.1         | 12.8        |  |  |  |  |  |
| ST          | 16.5   | 18.9  | 9.9  | 28.6         | 17.8        |  |  |  |  |  |
| HGY COUNCIL | 15   | 14.6  | 14.5 | 25           | 12.9        |  |  |  |  |  |

The formula used to calculate the overall Turnover Rate is 'No. of Leavers in year' / Average number of Employees in Same Period \* 100

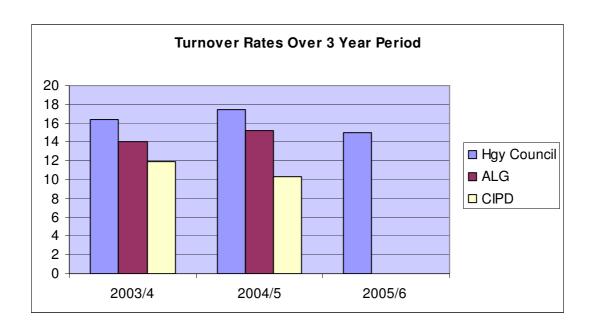

- Haringey Council's turnover rate for this period was 15%
- Childrens Services Schools have the highest turnover rate of 21.2%
- Haringey has an almost identical turnover rate for both White and B & M E staff
- The organisation has a higher turnover rate of staff under 25 then it does for staff over 50 and this is a prominent trend in the majority of Directorates

### **Turnover & Leavers (Continued)**

The table below illustrates Haringey's Turnover rate for the last 3 years and comparable data from the ALG (Association of London Government) and CIPD (Chartered Institute of Personnel Development).

| Turnover Rates Over 3 Year Period                    |        |        |        |  |  |  |  |  |
|--|--------|--------|--------|--|--|--|--|--|
| Turnover Rate  | 2003/4 | 2004/5 | 2005/6 |  |  |  |  |  |
| Haringey Council                                     | 16.4   | 17.4   | 15     |  |  |  |  |  |
| ALG Employee Turnover Survey 04/05                   | 14     | 15.2   | 0      |  |  |  |  |  |
| CIPD Recruitment, Retention and Turnover Survey 2005 | 11.9   | 10.3   | 0      |  |  |  |  |  |

 Haringey's Turnover rate has decreased compared with previous years and appears to be slightly higher in comparison with the ALG and CIPD

"There is no set level of employee turnover above which effects on the employing organisation become damaging. Everything depends on the type of labour markets in which you compete. Where it is relatively easy to find and train new employees quickly and at relatively little cost (i.e. where the labour market is loose), it is possible to sustain high quality levels of service provision despite having a high turnover rate. By contrast, where skills are relatively scarce, where recruitment is costly or where it takes several weeks to fill a vacancy, turnover is likely to be problematic from a management point of view".

(CIPD, Employee turnover and retention fact sheet, August 2005)

In the future we will be able to report on turnover rates not only by Directorate and leaving reasons but also by Job Families, focusing and providing analysis on key occupational groups with current recruitment and retention difficulties e.g. Social Workers, Environmental Health, and Planning etc.

## **Turnover & Leavers (Continued)**

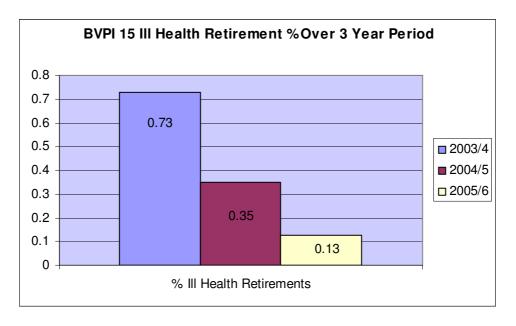

Haringey's Turnover rates by leaving reason are in line with ALG findings.

| Turnover Rates by Leaving Reasons |            |            |             |  |  |  |  |  |  |
|-----------------------------------|------------|------------|-------------|--|--|--|--|--|--|
| Reason                            | HGY 2005/6 | ALG 2004/5 | CIPD 2004/5 |  |  |  |  |  |  |
| Voluntary Resignation             | 8.8        | 9.1        | 7.9         |  |  |  |  |  |  |
| *TUPE Transfers                   | 0.9        | 0.8        |             |  |  |  |  |  |  |
| <sup>+</sup> Retirements          | 1.4        | 1.3        |             |  |  |  |  |  |  |
| Dismissal                         | 0.6        | 0.8        |             |  |  |  |  |  |  |
| Redundancies                      | 0.1        | 0.7        |             |  |  |  |  |  |  |
| Other/Not Known                   | 3.2        | 2.4        |             |  |  |  |  |  |  |
| Total Turnover                    | 15         | 15.2       | 10.3        |  |  |  |  |  |  |

<sup>\* =</sup> If staff made leavers due to the ALMO were included in this data then the turnover rate based on TUPE Transfers would have been **9**%. This percentage would be significantly high compared to ALG findings and would have affected Haringey's overall turnover rate increasing it from **15**% to **23.1**%

<sup>&</sup>lt;sup>+</sup> = **0.13**% of these retirements were due to III Health. Haringey had a target to reduce the number of ill health retirements and we have successfully done so, this is reflective in our BVPI 15 results shown below

| BVPI 15 III Health Retirement % Over 3 Year Period |        |        |        |               |  |  |  |  |  |
|--|--------|--------|--------|---------------|--|--|--|--|--|
| BVPI 15  | 2003/4 | 2004/5 | 2005/6 | Target 2005/6 |  |  |  |  |  |
| % of III Health Retirements 0.73 0.35 0.13 0.30    |        |        |        |               |  |  |  |  |  |

Ill Health retirements have significantly reduced as a result of improved redeployment and absence management arrangements set up within the Council.

### **Turnover & Leavers (Continued)**

In this period there were a total of 1124 Leavers (excluding staff made leavers due to the ALMO).

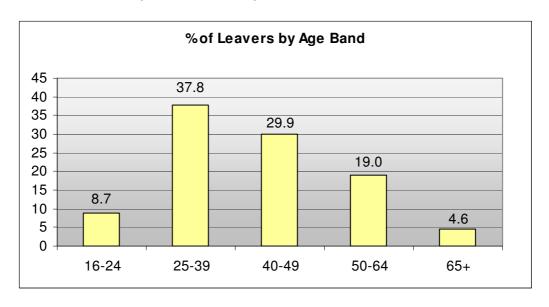

Please note that the Leavers identified in the table below have left Haringey Council and this data does not take into account any internal movement of Leavers between Directorates.

| Leavers by Directorate & Ethnicity |       |      |       |      |       |              |       |        |  |

\* = The vacancy rate is based against all SAP positions, excluding ones marked as casual. Positions filled with an agency member of staff has been counted as vacant.

## Section Two – Employee Turnover

### **Starters**

This section looks at the number of Starters by Directorate, Ethnicity and Age Band. In this period there were a total of **1159** Starters with **33.7%** of Starters being within Children Schools.

Please note that the Starters identified in the table below are new to Haringey Council and this data does not take into account any internal movement of Starters between Directorates.

| Starters by Directorate & Ethnicity |       |      |       |         |       |         |        |      |  |  |

### **Summary**

#### Sickness Absence

The Sickness Absence Target set by the Council and reported to the Audit Commission is **8.80** days per person. The aim is to get the council into the top quartile of London boroughs.

Comparison with other London boroughs is based on March 2005 statistics. In March 2005 Haringey's sickness absence rate was 9.5 days which compared with other London boroughs puts us into the bottom quartile of performance.

At present the absence rate at end of March 2006 was 10.4 days.

Long-term absence accounts for 50% of overall sickness.

HR is focussing on improving absence management and has worked to reduce outstanding long-term cases by 33%. It should be noted however, that this reduction will not improve the statistics for several months because absence levels are based on the last twelve months performance.

We have worked hard to improve sickness absence input over the last year and this improved by 23% over the last year.

Obviously, considerable work is required to get Haringey into the top quartile of absence performance. As part of our strategy to reduce sickness absence levels the following activities have been introduced to improve absence.

As part of our strategy to reduce sickness absence levels the following activities have been designed to enable better attendance:

- Occupational Health Services have been reviewed. We have a different clinical team, new business
  processes, and better records. As a result the turnaround time for a medical referral has reduced by
  more than 25%, the quality of doctor advice has improved, and the rate of ill-health retirement has
  reduced dramatically.
- The Council's smoking policy has been reviewed in consultation with our trade unions and was
  presented to General Purposes Committee on 2<sup>nd</sup> March 2006. Smoking cessation sessions are being
  run with the Primary Care Trust for our staff. At present 55 staff are accessing this support. We will
  continue to run smoking cessation support.
- A health programme called Health For Life is offered in partnership with the College for North East London. Two versions of the programme are available. Level 1 aims to develop understanding and use of physical exercise and an awareness of diet. Level two focuses on nutrition. 70 staff successfully completed level one last year. 150 staff are currently enrolled on to this year's course. We will re-run the programme periodically.
- A staff health fair was held on 8<sup>th</sup> March 2006 to promote the importance of diet, exercise, safe working, and general wellbeing. More than 500 staff attended. The event was held on No Smoking Day and also promoted the Council's improved leisure facilities.
- The Council has a flexible working framework that enables you to consider how best to deploy staff to achieve your service objectives. The Personnel Managers can advise on the application of flexible working.

### Sickness Absence Data

This section looks at Sickness Absence data, including BVPI 12 performance, absence recording and sickness data analysis. Because of comparison with BVPI 12 in this section, all data excludes temporary staff who have been working less than 1 year.

The following table shows BVPI 12 performance by directorate with a comparison of last year's results.

| Averag      | Average Days Sick per Employee (Rolling Year) by Directorate |        |        |        |        |                          |  |  |  |  |

| ST          | 6.8  | 8.3    | 6.5    | 7.6    | 8.8    | 28.5                     |  |  |  |  |
| HGY COUNCIL | 9.5  | 8.7    | 9.4    | 9.3    | 10.4   | 9.1                      |  |  |  |  |

The Council is committed to achieving top quartile performance and therefore aim to achieve an average of 8 days per person. The sickness absence rose by 8.8% due to a clarification on the formula used to determine sickness absence, as set by the Audit Commission, and because of improved data collection compared with a year ago, which has resulted in an increase of sickness absence data (see below).

#### Short-term/long-term distribution

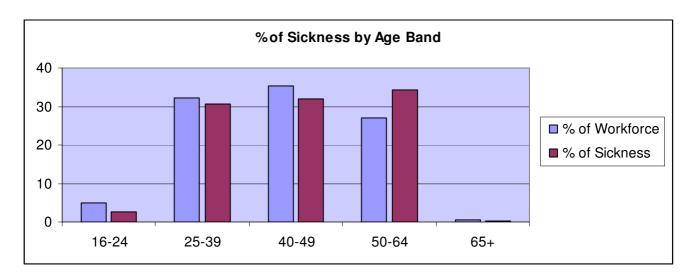

Long-term absence (single spell of 20 days or more) contributes to **50%** of overall sickness. In response, a dedicated HR team has been established to focus on assisting with absence management. The team is currently focussed on long-term sickness absence with a view to unblocking the progress of cases that appear to be unduly delayed. Since the team begun they have worked to reduce the outstanding long-term cases by **33%**.

## Sickness Absence Data (Continued)

The % of the workforce made up by ethnic groups is also reflected by the % of sickness taken.

As shown in the table below, the % of sickness taken at each age band is slightly lower than the % of the workforce for each age band, with the exception of range '50-64', which has a larger gap between the % of workforce, 27%, with 34% of the sickness.

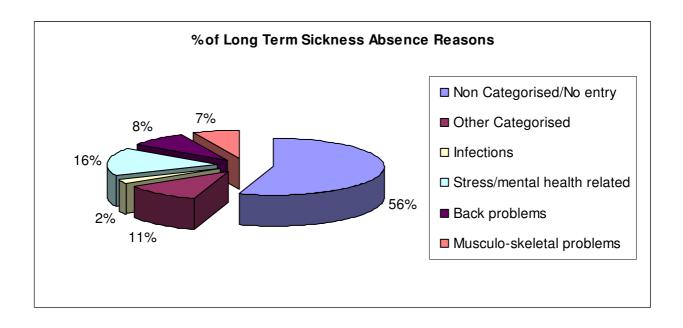

|          | % Sickness by Age Band<br>(Percentages by Columns)       |      |      |      |  |  |  |  |  |

## Sickness Absence Data (Continued)

#### Sickness Absence Reasons

| Sickness Absence Reasons                                  |      |      |      |  |  |  |  |
|---|------|------|------|--|--|--|--|
| Reason Short-term (1-19 Days) Long- term (20+ Days) Total |      |      |      |  |  |  |  |
| Non Categorised/No entry                                  | 36%  | 55%  | 46%  |  |  |  |  |
| Other Categorised   | 24%  | 11%  | 18%  |  |  |  |  |
| Infections  | 25%  | 2%   | 13%  |  |  |  |  |
| Stress/mental health related                              | 5%   | 16%  | 10%  |  |  |  |  |
| Back problems   | 5%   | 9%   | 7%   |  |  |  |  |
| Musculo-skeletal problems                                 | 4%   | 7%   | 6%   |  |  |  |  |
| Total   | 100% | 100% | 100% |  |  |  |  |

- 46% of sickness was recorded as 'Other' or had no entry recorded.
- Infections (flu, cold, etc) was the main cause for sickness absence overall with 13%.
- Stress was the highest categorised cause of long term sickness absence at 16%.

### Section Four - Formal Procedures

### **Summary**

#### **Disciplinary Procedures**

There were 124 disciplinary cases handled over the last year.

It is important to note that staff who are subject to disciplinary cases account for only 2.3% of the workforce.

The highest cause for disciplinary action was behaviour e.g. attitude, swearing, etc at 17.7%.

Men account for approx. 60% of disciplinary cases.

Black and minority ethnic staff account for approx. 60% of cases.

73% of suspension cases are heard within 120 days. 32% are heard within 60 days. On average it takes 90 days to hear a suspension case.

Personnel have only recently been able to generate useful management information on the length of suspension cases. Now that we can start to monitor this regularly management action will be started to ensure that the length of suspensions come down, including changes to management guidance on the operation of the disciplinary procedure by giving timescales for investigation and length of suspension.

#### **Employment Tribunals**

Of 24 Employment Tribunal cases finished during the year the Council lost only one case. The Council won 13 cases including those withdrawn. The remaining 10 cases were settled. This is a good performance overall.

### Section Four - Formal Procedures

### **Disciplinary Cases**

The Council's Disciplinary Procedure is considered as a tool to assist in good management and not solely as a means of imposing sanctions or setting out procedures leading to dismissal.

The procedure aims to:

- Allow managers to address issues of unsatisfactory conduct and seek improvements in behaviour
- Ensure that employees covered by the procedure are treated fairly and consistently
- Ensure that proper and adequate procedures are observed before any disciplinary decisions are taken
- Help and encourage all employees to achieve and maintain standards of conduct, attendance and job performance
- Maintain discipline essential to the delivery of high quality services
- Protect the health, safety and well being of staff, service users and members of the public
- Safeguard the integrity and good reputation of the Council (Disciplinary Procedure July 2005)

This section looks at the number of formal actions taken against employees under the disciplinary procedure based on data retrieved from SAP.

- 72.7% of suspension cases were investigated and heard within 120 days or 24 weeks
- 31.8% of these cases were heard within 60 days or 12 weeks

#### Section Four - Formal Procedures

#### **Disciplinary Cases (Continued)**

As mentioned above, even though on average the majority of suspension cases are investigated and heard within 120 days, there are some Directorates where one case can take much longer this.

Good practice suggests that an organisation should aim to reduce the average length of time taken for a case to be heard from our current average of 90 to 60 days. This practice would lessen any negative effects on Service delivery and staff morale.

## **Employment Tribunal Cases**

Summary of Employment Tribunal cases heard, finished or started during the period 1 April 2005 to 31 March 2006. It shows that out of 24 cases finished the Council lost only 1.

Note – Tribunal applications can arise from current employees as well as those dismissed.

## Section Five - Health & Safety

## **Summary**

#### **Accident Statistics**

The majority of reported accidents were made in the Children's, Social Services and Housing Directorates.

Approximately 59% of accidents were reported by employees and approx. 33% were reported by school children.

Over 30% of accidents were slip/trip/falls in nature.

A team from the Health and Safety Executive carried out a snapshot inspection of this Council's health and safety management systems during November 2005.

The inspectors made a number of comments and recommendations including:

**Training** Both strengths and weaknesses in the Council's Health and Safety management systems were identified within the findings

**Systems and Procedures** The Council already has systems that will effectively drive good health, safety and welfare management i.e. Business Planning, People Plans, Corporate and Service Induction, Performance Appraisal Targets, One to ones, Team Briefing etc.

**Communication** The Inspectors felt that the Council's health and safety forum and communication systems could be improved.

**Contractor Monitoring and Management** The circumstances of the Crowland School Fire merit further improvement of systems for monitoring contractors and sub-contractors.

**Data reporting and Analysis** The Inspectors welcomed the Council's systems reporting of accident and sickness absence statistical information but felt that the capture of data and also the identification and analysis of trends could be taken much further in driving pro-active strategies. They also commented that the current corporate accident reporting pro-forma is too heavily weighted towards insurance purposes.

**Stress Management** Inspectors acknowledged both the existence of the Council's Stress Policy and examples of good practice demonstrated in individual Services. However, the HSE were concerned that there is no mainstream approach to the management of stress across the Council.

As a result of these comments and recommendations the Council have agreed an action plan to improve health and safety management. The actions address the following themes:

- Strengthening existing training provision and introducing improved methods of delivery
- Fast-tracking the roll out of the new corporate health and safety policy
- Introducing the HSE Stress Management standards as a corporate strategy
- Revitalising corporate and directorate communication of health and safety issues
- Improving methods of monitoring contractor/sub-contractor activity on site
- Reviewing and updating the Council's procedures for reporting and analysing work related sickness and accidents.
- Strengthening the links between Corporate Occupational Health and Health and Safety practitioner teams and improving service delivery

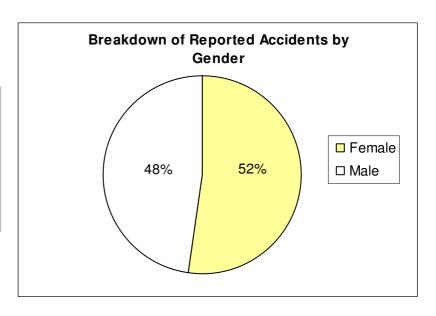

# Section Five – Health & Safety

## **Accident Statistics**

This section outlines accident statistics that have been reported during the year 1 April 2005 to 31 March 2006.
