

Haringey Council

URGENT BUSINESS SHEET

Report Title: Installation of Solar Panels on Council Buildings using the Solar PV installation and management framework and Solar PV components framework let by Birmingham City Council.

Committee/Sub etc: Cabinet Procurement Committee

Date: 17th November 2011

The report is late because

The announcement by the Department for Energy and Climate Change (DECC) concerning Feed-in-Tariff rate changes necessitated amendments to the report prior to submission. More information is available from the DECC website.

The report is too urgent to await the next meeting because

If the implementation date (12th December 2011) for the change in Feed-in-Tariff rates is postponed due to consultation responses, Haringey Council will need to be primed to deliver the programme within very tight timescales. Delaying the report will impact upon delivery within those timescales.

The Head of Local Democracy & Member Services concurs with the admission of this item.
