Subject: RE: Licencing application for Camikhanlilar

Dear Daliah,

Please take this email as my formal objection to the licencing application that has been submitted by Camikhanlilar for a licence for 155 West Green Road, N15. The application is essence is to create a social club that will operate unti 4am Mon-Sun.

The provision of social club opening every night until 4am is hugely detrimental for the local population. There are many businesses and residents living in the vicinity including above the proposed site of this social club. The noise coming from such a place for starters will cause a huge nuisance for people. In addition the volume of people coming to such a premises will be a huge nuisance in terms of traffic, parking and people who may have been drinking throughout the night up to 4am causing a nuisance.

I have concerns in terms of public safety with what would likely to be many people leaving this place throughout the early mornings throughout the week and all weekend leaving a venue likely to have been drinking up until 4am exiting along West Green Road which is a busy thoroughfare or wandering through a residential area (Elmar Road, Turner Avenue estate etc).

I know that local residents and businesses will be concerned about this and that is goes before Licencing Cttee to be carefully considered and refused or amended to change the opening hours to something more reaonsable and in keeping with the area. More information is needed over the specifics of what is intended to be provided here.

I have copied in my fellow Ward Cllrs for Tottenham Green and the Chair of the local residents association, Chair of the local Nhood Watch and the local SNT sergeant who I am sure will be commenting on this application.

Best wishes
Richard
