

Haringey Adoption Scorecard 2012

	England		Statistical Neighbours		Haringey		Haringey				Notes	
	2008-11	2009-12	2009-10	2010/11	2011/12	2012/13	Latest 3 yr ave 2009-12	2009/10	2010/11	2011/12		Quarterly Update - YTD June 2012/13
Children												
A1	625	717	739	747	736	784	715	678	The average days from becoming looked after to being placed for adoption was 678 for the period April - June 2012. In the 3 year rolling average calculation 2010-13 the 2009/10 average will drop off leaving the 2012/13 average to be added to the average days for 2010/11 (784) and 2011/12 (715). The 2012/13 average will therefore need to reduce significantly if Haringey is to achieve the national threshold of 639 days. Assuming equal numbers of adoptions each year, an average of 418 days would			
A2	171	132	239	239	239	239	239	239	Measuring recent progress on this indicator at a local level is reliant on the release of data by CAF/CASS.			
A3	58%	54%	41% (35)	41% (47)	33% (4)*	31% (5)*	50% (7)*	41% (7/17)**	All figures are based on adopted children and those current placed, with the exception of the annual figures for Haringey*, which are based on adopted children only. In the year to June 2012/13, 17 children moved in with their adopted family (i.e. were either adopted or placed), of whom 7 did so within 21 months of entering care. This includes 4 children who were adopted within the period, of whom 1 moved in with their adopted family within 21 months of entering care.

D6	67%		65%	72%	55%	71%	70%	69%	The percentage of children in care for more than 2.5 years who had been in the same placement for over two years..			

* Adopted children only
 ** adopted children and those currently placed
 *** Data to be released by CAF/CASS

Average time between a child entering care and moving in with its adoptive family for children who have been adopted (days)		2009	2010	2011	Data for 2012 will be available from Autumn 2012	http://www.educatio n.gov.uk/rsgateway/ DB/SFR/s001026/in dex.shtml The number of children who were adopted can be found in table LAE1	1. This indicator includes all children adopted in the period 1 April 2008 to 31 March 2011 that were placed for adoption immediately prior to their adoption. 2. Time is calculated between a child starting to be looked after and their placement for adoption. Only children with valid data are included. 3. Figures are rounded to the nearest day.
Indicator A1	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	http://www.educatio n.gov.uk/rsgateway/ DB/SFR/s001026/in dex.shtml The number of children who were adopted can be found in table LAE1	1. This indicator includes all children adopted in the period 1 April 2008 to 31 March 2011 that were placed for adoption immediately prior to their adoption. 2. Time is calculated between a child starting to be looked after and their placement for adoption. Only children with valid data are included. 3. Figures are rounded to the nearest day.
Average time between a local authority receiving court authority to place a child and the local authority deciding on a match to an adoptive family (days)							
Indicator A2	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	Underlying figures are not currently published	1. This indicator includes all children adopted in the period 1 April 2008 to 31 March 2011 that were placed for adoption and on a placement order or freeing order immediately prior to their adoption. 2. Time is calculated between receiving court authority to adopt (granting of placement order/freeing order) and matching with adopters. A time of zero is assigned to children who were matched before court authority was received. 3. Figures are rounded to the nearest day.
The number and percentage of children who wait less than 21 months between entering care and moving in with their adoptive family							
Indicator A3	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	Underlying figures are not currently published	1. This indicator includes all children adopted in the period 1 April 2008 to 31 March 2011 that were placed for adoption immediately prior to their adoption and all children with a current adoption plan at 31 March 2011 (excluding those where the decision to adopt has been reversed). When adoption is the preferred option for permanence this is referred to as the adoption plan. 2. Time is calculated between a child starting to be looked after and their placement for adoption. Only children with valid data are included. Children are flagged if they waited less than 21 months between starting to be looked after and being placed for adoption or had not yet been looked after for 21 months at 31 March 2011. 3. The numerator is therefore all adopted children who were placed for adoption first who were placed less than 21 months after becoming looked after and all children looked after at 31 March 2011 with a current adoption decision who were placed less than 21 months of becoming looked after or who had not yet been looked after for 21 months. 4. The denominator is therefore all adopted children who were placed for adoption first and all looked after at 31 March with a current adoption decision.
Adoptions from care (number adopted and percentage leaving care who are adopted)							
Indicator A4	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	http://www.educatio n.gov.uk/rsgateway/ DB/SFR/s001026/in dex.shtml The number of children who were adopted can be found in table LAE1	1. Only the last occasion on which a child ceased to be looked after in the year has been counted. 2. Figures exclude children looked after under an agreed series of short term placements.
The percentage of black and minority ethnic children leaving care who are adopted							
Indicator A5	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	National figures can be found in table E4	1. The denominator includes all children with an adoption decision in the period 1 April 2008 to 31 March 2011. The numerator includes all children with an adoption decision in the period 1 April 2008 to 31 March 2011 that had the decision reversed in the period 1 April 2008 to 31 March 2011.
Indicator A6	2011	2009	2010	2011	Data for 2012 will be available from Autumn 2012	National figures can be found in table E4	1. Only the last occasion on which a child ceased to be looked after in the year has been counted.

						will be available from Autumn 2012	http://www.education.gov.uk/childrenandyoungpeople/families/adoption/b0076713/databack	<p>2. Figures exclude children looked after under an agreed series of short term placements.</p> <p>3. 'Black and minority ethnic' refers to all non-White children with a known ethnicity. Figures exclude all children where ethnicity was refused or not obtained.</p> <p>4. Percentages show the proportion of all black and minority ethnic children leaving care who are adopted. Therefore if a local authority has a low proportion of black and minority ethnic children in their care population then the denominator will reflect this low number.</p>
The percentage of children affected by...								
Indicator A7	2011	2009	2010	2011		Data for 2012 will be available from Autumn 2012	<p>2010 data:</p> <p>http://www.education.gov.uk/childrenandyoungpeople/families/adoption/b0076713/databack</p>	<p>1. Only the last occasion on which a child ceased to be looked after in the year has been counted.</p> <p>2. Figures exclude children looked after under an agreed series of short term placements.</p> <p>3. Age on leaving care.</p>
Average length of time children awaiting adoption								
Indicator A8	2011	2010	2011			Data for 2012 will be available from June 2012	Figures are currently not publicly available	<p>1. Figures are provided from the Cafcass national Case Management System (CMS).</p> <p>2. The unit of measurement is a care application. An application can involve multiple children. CMS is a live system and any late entries will be accounted for at the time of release of subsequent updates to this data.</p> <p>3. Average care duration is calculated from date of care application to the court to date application completed on CMS in the selected time period. Averages are based on care applications completed in the period.</p> <p>4. The average length of care proceedings locally includes all care proceedings which the local authority has initiated, including care proceedings which take place in courts outside of the local authority area.</p>
Percentage of children awaiting adoption								
Indicator A9	2011	2011				Data for 2012 will be available from Autumn 2012	Underlying figures are not currently published	<p>1. This indicator includes all children with an adoption plan in year ending 31 March 2011 that were still looked after at 31 March 2011 and who had not been placed for adoption at 31 March 2011. When adoption is the preferred option for permanence this is referred to as the adoption plan.</p>
