

What changes are taking place and why?

We are altering the recycling and waste collection rounds, which means that most households will see a change to their waste collection day. These changes will further improve the efficiency of the service.

The calendar on the back of this leaflet shows you on what day your recycling and non-recyclable waste collections will take place. Your recycling and waste collection will happen on the same day of the week, with recycling being collected **every week** and non-recyclable waste **every other week**.

A sticker accompanies this leaflet detailing which materials you can put in your recycling bin. Please stick this on the green lid of your recycling wheelie bin.

Thank You!

The new waste service has now been introduced to the majority of street level properties within the borough in two phases. We have introduced wheelie bins for recycling and moved to fortnightly collections for non-recyclable waste.

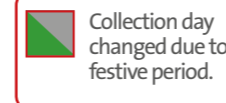

Following the introduction of the changes, the amount of waste being recycled has increased by more than 100 tonnes per week. A huge thank you for your efforts on recycling. We look forward to building on this achievement together to reach our target recycling rate of 40% by 2015.

Let's all recycle more together!

Your **new** collection day is **Tuesday**

Please see the calendar below, for information on your recycling and waste collections. Your recycling will be collected every week. Non-recyclable waste will be collected every other week.

Please make sure all your waste and recycling containers are placed at the edge of your property before 6am on your collection day.

Changes to your **waste collection service**

Your new collection day is: **Tuesday**

Let's all recycle more together!

From the week commencing **22 October 2012** your recycling and waste will be collected on **Tuesday**

working in partnership

All your recycling (dry, food and garden waste) is collected weekly. Here is a reminder of what you can recycle:

Dry recycling | Black wheelie bin with a green lid or green sacks

Only properties that do not have sufficient space to accommodate a wheelie bin are provided with green recycling sacks.

Please wash your food and drink containers before recycling them.

No thank you

Plastic wrappings, films and crisp packets, polystyrene, nappies and tissues.

Food waste | Green food waste bin

Tie bag when full

Keep me outside

Any bags used to contain food waste must be compostable and show this logo:

Compostable liners can be purchased from many stores within the borough. You can place your food waste straight into the green food waste bin without using a compostable bag.

No thank you

Food waste contained within plastic bags will not be collected.

Garden waste | White reusable sack

We will collect a maximum of five bags of garden waste with your weekly collection. Should you have any more please contact the Veolia Contact Centre.

No thank you

Large branches, turf, soil and sand.

Non-recyclable waste | Black wheelie bin with black lid

Your non-recyclable waste is collected every other week.

Yes please

Bin with lid closed, no waste visible

With the majority of household waste being recyclable there should be little left to go into your non-recyclable waste wheelie bin.

Please ensure that all waste is contained within your black wheelie bin. If you find you cannot do so, please contact us so that we can help.
