**Contact**

The NPS and Crime Reduction Unit for between 1 August 2010 and 31 July 2011. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. Violence against women is a high priority for the NPS and the NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.

**Activity**

The Grouping and Youth Violence Programme is a large, multi-agency, key on how to date a group:

- **Beit Mitha Initiative:** Early in the year, as a result of the NPS and the NPS, the NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.
- **Grouping and Youth Violence Programme:** The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.
- **Violence Reduction Programme:** The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.

**Area of concern**

- **Law and Order:** The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.
- **Violence against Women:** The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.

**Emerging Issues**

- **Performance Data:** The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.

**Partner Comments**

The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11. The NPS has a target to meet police objectives by working with the police and the NPS in 2010/11.

Community Safety Partnership Quarterly Performance Assessment

**Objective 2: Reduce violence against women (including domestic violence)**

Discussions are underway with key partners to develop a meaningful set of indicators around domestic and gender-based violence. Consideration is being given to attrition /stuck action, repeat victimisation, links to substance misusing treatment, and court referrals. The indicators shown below are readily available figures taken from the MPS scoreboard and are provided for context but they alone do not provide the whole picture.

**Domestic Violence Offences - case-study**

	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21

<b>Domestic violence - 20th offence</b>	0.2%	0.2%	0.2%	0.2%	0.2%	0.2%	0.2%	0.2%	0.2%	0.2%

**Notes:**  
 1. There were 145 reported domestic violence offences in April 2020, up from 105 in the previous quarter and a significant increase over the 122 offences in the same period last year.  
 2. The number of reported offences has steadily decreased over recent years. However, the Haringey rate has not decreased to the same extent as the London rate.  
 3. The Haringey rate per 1000 population for 2011/12 was 9% higher than the London rate.

**Notes:**  
 1. Both the repeat rate and the short-term detention rate are below the London average.  
 2. The gap between the repeat rate and the short-term detention rate is greater for Haringey than for London as a whole.  
 3. In recent years, Haringey's repeat rate has stayed consistently around the 7% mark, but has fallen below 70% in April - July 2019. The short-term detention rate has fallen over the same period from 50.2% in 2009/10 to 30.2% in 2011/12 and currently stands at 21.2% (for April to June 2018).

- Emerging issues**
- Performance indicators and targets are under development (see above).
  - Standing Together Against Domestic Violence have undertaken a Domestic Violence partnership review and recommendations are currently being considered.
  - Securing sustainable funding remains an issue.
  - Demand for the IDVA service will increase if a DOBV national disclosure scheme is rolled out in 2013.
  - The partnership will need to evaluate the effectiveness of the MARAC.

**Context**

Domestic violence is an offence which affects women disproportionately. According to the 2009/10 British Crime Survey (BCS) nearly three-quarters (73%) of domestic violence victims are women. It is understood that there is significant under-reporting of domestic abuse by victims, based on the 2010/11 BCS the police came to know about just 39% of incidents of all BCS domestic violence.

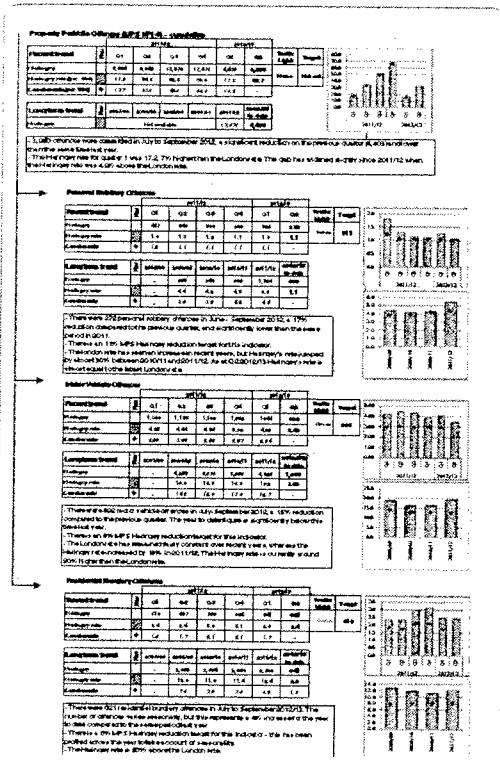

Domestic violence accounts for 30.2% of violence against the person (VAP) and 5.7% of total notifiable offences (TNO) in Haringey. There has been no statistically significant change from the average proportion of DV for either VAP or TNO over the last five years.

- Activity**
- Haringey has an active Multi-agency Risk Assessment Panel (MARAC) strongly supported by the police to reduce repeat victimisation.
  - The Troubled Families Initiative has identified families affected by DV as one of the local criteria for inclusion in the programme.
  - The Integrated Offender Management Model (IOM) will prioritise a cohort of repeat offenders especially where property crime and involvement in DV are key issues.
  - One full-time Independent Domestic Violence Adviser (IDVA) has been provided. The IDVA dealt with 196 cases in 2011/12. The majority of funding for 2013/14 is through the voluntary sector (NIA Project).
  - DVIP ran a workshop at the national conference hosted by Haringey/Respect in July 2012. The support programme focuses on teenage violence against parents, mostly involving sons/mothers.
  - The Haringey Women's Forum has launched a six-month programme offering training for women on the safe use of social media.
  - The review carried out by Standing Together Against Domestic Violence in September 2012 included initial feedback on the Partnership's approach to commissioning and funding. Haringey were given an overall score of 2 out of 4. Full recommendations will be considered fully.
  - Funding has been found to re-engage services of HARTS (Haringey Tenancy Support for Families) and HAGA (Haringey Action Group on Alcohol workers. Extra solicitors' appointments for free legal advice sessions are being well used.
  - Commissioned refuge and housing support services now in place for 2012/13:
    - 10 refuge units with NAWP
    - 6 refuge units with NIA
    - 15 refuge units with Solace
    - 10 units of floating support with Christian Action
    - Housing support and advice from Heathstone and from the Haringey Women's Forum
  - Probation/CYPS are exploring the next steps for joint working, e.g. joint assessments, joint home visits.

To be discussed and added by the Community Safety Partnership Board

Community Safety Partnership Quarterly Performance Assessment  
**Objective 3: Reduce all property crime**

**Context**

Historically, property crime has contributed significantly to overall crime figures. It has also been a top concern of residents. There were significant escalations in acquisitive crime between August 2010 and January 2011 (22.7%), particularly personal robbery, which increased by over half (54.7%), motor vehicle crime which rose a quarter (25.1%) and domestic burglary which increased by 10%. This coincides with the economic downturn and rising unemployment, and follows many years of significant and sustained reductions in these crimes.

- Activity**
- **Establishment of an Integrated Offender Management Model (IOM):** Haringey now has an IOM board and has developed an integrated model of working which knits together the case work of probation, police, the prison estate (mainly Penitentiary), providers of drug and alcohol services, and voluntary sector pathway services. This is a cost-effective model which pulls resources in from existing roles, budgets and contracts. The full model will be discussed at the forthcoming IOM board in October. A business case is being put together for some additional investment from MOPAC as part of next year's grant.
  - **The exceptional work of the Q Cars Team** contributes significantly to the reduction in personal robbery. This is a dedicated rapid response team of highly experienced officers who respond to robbery reports at the scene and conduct investigations whilst searching for the suspect. The high quality information gathered contributes to successful convictions. It also reduces false reporting and contributes significantly to increased victim confidence and intelligence gathering. The Q Cars Team have also recently carried out bicycle based operations, using bicycle reconditioned by Dr Bike (a service funded by the Council's Single Frontline). The contribution of the Q Cars is demonstrated by a significant increase in robberies during quarter 2 of 2011/12 when a reduced shift pattern was in place and there was no additional support from the Priority Crime Teams.
  - **Key crime prevention messages** (anti motor vehicle crime and burglary) are being delivered through:
    - Homes for Haringey Homezone magazine
    - Haringey MPS twitter account
    - Safer Neighbourhood Teams
    - Safer Schools Officers
    - Haringey Council press releases

**Emerging Issues**

- Thefts from shops in key locations have increased, with crimes tending to be more desperate and more acute. Associated with this there has been an increase in the prevalence of neck chain robberies.

**Senior Officers Crime - Effectiveness of targeted drug treatment interventions**

Drug treatment interventions (DTI) are being used as an alternative to custody for drug offenders. The effectiveness of these interventions is being monitored. The number of offenders in the DTI programme who are not charged with further offences within 12 months of their original arrest, is being monitored. A number of drug offenders are being treated by DTI.

Community Safety Partnership Quarterly Performance Assessment

Objective 4a: Reduce repeat offending (Adults)

Prevent re-offending rate (adults) - the percentage of offenders in the cohort who re-offended within 12 months

Account	Q1	Q2	Q3	Q4	YTD	Target	%
Prevention	11.7%	12.4%	12.7%	12.8%	12.4%	12.4%	100%
London	11.7%	12.4%	12.7%	12.8%	12.4%	12.4%	100%

This measure has recently been updated by the London Probation Trust. The latest data available relates to the October 2009 - September 2010 cohort. Changes to the data are expected to be in the first three quarters.

The latest data shows that there have been 27 positive outcomes between April and August 2012, against a target of 40. However, this represents a significant improvement from the June position (67% of target) following a period of only 33% as at June. Data is provided by the London Probation Trust.

Context

Re-offending constitutes a significant proportion of overall recorded crime and there are considerable barriers to the successful resettlement of former offenders in London.

Particular crime types which featured high levels of re-offending were drug trafficking (41.7%), burglary in other buildings (31.4%) and personal robbery (28.8%) charged for the 3rd or more time.

The direct cost of re-offending in Haringey in 2007/8 was £39,715,658.3, an average of £176.28 per Haringey resident per year. Of this an estimated forty-six percent (£18,113,247) relates to violence against the person. Whilst this is only an estimate it does provide an indication of the cost of re-offending in Haringey.

Activity

Since April, two new Education, Training and Employment (ETE) advisors have been working within the Local Delivery Unit. These ETE providers work on the basis of payment-by-results, and are keen to engage offenders. Some of the methods they are using include putting job vacancies in the waiting area, working more closely with Probation Officers, and sending monthly outcome information to Senior Managers.

The work of the ETE providers is supported by monthly reminders to Probation Officers to enter relevant employment codes to ensure the outcomes are measured.

Emerging Issues

- Data quality and consistent recording are a concern.
- Significant barriers to employment remain, particularly in deprived parts of the borough where job opportunities are limited.
- London Probation Trust are looking to further develop the re-offending data at a local level to inform practice.
