x Data suppressed  
 \* Adopted children only  
 \*\* adopted children and those placed fro adoption at end of period  
 \*\*\*\* Data to be released by CAF/CASS

## Progress Against Adoption Scorecard Key Indicators

Notes for all indicators:

1. Percentages have been derived from unrounded numerator and denominator figures.
2. Percentages have been rounded to whole numbers but where the numerator was five or less or the denominator was 10 or less, they have been suppressed and replaced by a cross (x).
3. Numbers in the related information sector: of the scorecard are rounded to the nearest 5 children.
4. The average number of days have been derived from unrounded numerator and denominator figures and are presented rounded to the nearest day.
5. Symbols used:
  - x Figures not shown in order to protect confidentiality.
  - .. Not applicable, i.e. no children in the cohort.
  - Percentages less than 0.5% but greater than 0%
6. All figures exclude children looked after under an agreed series of short term placements.

Notes for individual indicators:

Indicator	Latest data	Data included in average	When will the next data be available?	Where can I find the numerators and denominators for percentages	Notes
Indicator A1	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	<a href="http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml">http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml</a> The number of children who were adopted can be found in table LAE1	1. This indicator includes all children adopted in the period 1 April 2009 to 31 March 2012 that were placed for adoption immediately prior to their adoption. 2. Time is calculated between a child starting to be looked after and their placement for adoption, i.e. the date they move with their adoptive family. Only children with valid data are included. 3. Figures are rounded to the nearest day.
Indicator A2	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	Underlying figures are not currently published	1. This indicator includes all children adopted in the period 1 April 2009 to 31 March 2012 that were placed for adoption and on a placement order or freeing order immediately prior to their adoption. 2. Time is calculated between receiving court authority to adopt (granting of placement order/freeing order) and matching with adopters. A time of zero is assigned to children who were matched before court authority was received. 3. Figures are rounded to the nearest day.
Indicator A3	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	Underlying figures are not currently published	1. This indicator includes all children adopted in the period 1 April 2009 to 31 March 2012 that were placed for adoption immediately prior to their adoption and all children with a current adoption plan at 31 March 2012 (excluding those where the decision to adopt has been reversed). When adoption is the preferred option for permanence this is referred to as the adoption plan. 2. Time is calculated between a child starting to be looked after and their placement for adoption, i.e. the date they move in with their adoptive family. Only children with valid data are included. Children are flagged if they waited less than 21 months (measured at 639 days) between starting to be looked after and being placed for adoption or had not yet been looked after for 21 months at 31 March 2012. 3. The numerator is therefore all adopted children who were placed for adoption first who were placed (less than 21 months after becoming looked after) and all children looked after at 31 March 2012 with a current adoption decision who were placed less than 21 months after becoming looked after or who had not yet been looked after for 21 months. 4. The denominator is therefore all adopted children who were placed for adoption first and all looked after at 31 March 2012 with a current adoption decision.
Indicator A4	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	<a href="http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml">http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml</a> The number of children leaving care can be found in table LAD1 and the number of children who were adopted can be found in table LAE1	1. Only the last occasion on which a child ceased to be looked after in each year has been counted. A child who ceased to be in care in more than one year will be counted more than once. 2. This indicator compares the number of children who ceased to be looked after in the period 1 April 2009 to 31 March 2012 with the number of children who were adopted during that period.
Indicator A5	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	Underlying figures are not currently published	1. The denominator includes all children with an ongoing adoption decision in the period 1 April 2009 to 31 March 2012. (The adoption decision date may be prior to 1 April 2009.) The numerator includes all children with an ongoing adoption decision in the period 1 April 2009 to 31 March 2012 for whom the decision was reversed in the period 1 April 2009 to 31 March 2012.
Indicator A10	2012	2010 2011 2012	Data for 2013 will be available from Autumn 2013	<a href="http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml">http://www.education.gov.uk/rsqateway/DB/SFR/6001084/index.shtml</a>	1. This indicator includes all children adopted in the period 1 April 2009 to 31 March 2012 that were placed for adoption immediately prior to their adoption.

Indicator	2012	2010	2011	2012	Data for 2013 will be available from	The number of children who were adopted can be found in table LAE1	2. Time is calculated between a child starting to be looked after and their placement for adoption, i.e. the date they move with their foster carer. Where children are adopted by their foster carer, the time is measured until the date they moved in with their foster carer. Only children with valid data are included. 3. Figures are rounded to the nearest day.
Indicator A6 The percentage of black, minority ethnic children leaving care who are adopted					Data for 2013 will be available from Autumn 2013	2011 data: <a href="http://www.education.gov.uk/childrenandyoungpeople/families/adoption/00076736data.html">http://www.education.gov.uk/childrenandyoungpeople/families/adoption/00076736data.html</a>	1. Only the last occasion on which a child ceased to be looked after in the year has been counted. 2. The numerator includes all children with a known ethnicity of Asian, Black, Chinese, Mixed or Other who were adopted in the period 1 April 2009 to 31 March 2012. The denominator includes all children within these ethnic groups who ceased to be looked after for any reason in the same time period. Numerators and denominators exclude all children where ethnicity was refused or not obtained. 3. Percentages show the proportion of all black and minority ethnic children leaving care who are adopted. Therefore if a local authority has a low proportion of black and minority ethnic children in their care population then the denominator will reflect this low number.
Indicator A7 The percentage of children aged 5 or over leaving care who are adopted					Data for 2013 will be available from Autumn 2013	2011 data: <a href="http://www.education.gov.uk/childrenandyoungpeople/families/adoption/00767136data.html">http://www.education.gov.uk/childrenandyoungpeople/families/adoption/00767136data.html</a>	1. Only the last occasion on which a child ceased to be looked after in the year has been counted. 2. Age on leaving care. 3. The numerator includes all children who were adopted in period 1 April 2009 to 31 March 2012 who were aged 5 or over. The denominator includes all children who were aged 5 or over when they ceased to be looked after in the same time period.
Indicator A8 Average length of care proceedings locally (weeks)					Data for 2013 will be available from Autumn 2013	Figures are currently not publicly available	1. Figures are provided from the Calcecs National Case Management System (CMS). 2. The unit of measurement is a care application. An application can involve multiple children. CMS is a live system and any late entries will be accounted for at the time of release of subsequent updates to this data. 3. Average care duration is calculated from date of care application to the court to date application completed on CMS in the selected time period. Averages are based on care applications completed in the period. 4. The average length of care proceedings locally includes all care proceedings which the local authority has initiated, including care proceedings which take place in courts outside of the local authority area. 5. All data updated on 25 September 2012. Changes to figures are due to late updates in information within the CMS
Indicator A9 Number of children with adoption					Data for 2013 will be available from Autumn 2013	Underlying figures are not currently published	1. This indicator includes all children with an adoption plan in year ending 31 March 2012 that were still looked after at 31 March 2012 and who had not been placed for adoption at 31 March 2012. When adoption is the preferred option for permanence this is referred to as the adoption plan.
