3 ward councillors and by the local MP. He also mentioned that, previous meetings of Licensing Sub-Committees, had refused late licenses on several occasions for areas between the railway bridge and Turnpike Lane.

The applicant mentioned that his clients tend to be older men. Many were over 50. As such, he stated they were unlikely to cause disturbances. He said that noise pollution in the area was often caused by others who were standing in the street and milling around, not by his customers. He also stated that he would not be playing music. In his opinion, the noise generated by the café would thus not be great.

Cllr Patel enquired as to whether the premises was currently open late. The applicant stated that, as the premises did not serve alcohol, until the 2003 Act came into effect there were no licensing rules restricting his opening hours and so he sometimes kept the premises open until late.

Concern was expressed about the outdoor toilet area and the fact the back door of the café was kept open to allow access to this. This was thought to be a major reason why noise was being transmitted. The officer from Noise Team present at the meeting concurred.

**RESOLVED:**

Having considered the representations made, the Sub-Committee resolved to grant the application subject to the closing time being 2 am on every night.

As an informative, the Sub-Committee urges the applicant to take measures to enclose the way to the toilet area to prevent the transmission of noise. Up until the toilet area is enclosed, then the door must be kept closed except for access purposes.

In addition, there is a condition that the applicant complies with the provisions of the operating schedule.
