<b>Title:</b>	Treasury Management June 2014 quarterly Activity & Performance update
---------------	-----------------------------------------------------------------------

<b>Report authorised by :</b>	Assistant Director – Finance (CFO)
-----------------------------------	------------------------------------

<b>Lead Officer:</b>	George Bruce, Head of Finance – Treasury & Pensions <a href="mailto:George.bruce@haringey.gov.uk">George.bruce@haringey.gov.uk</a> 020 8489 3726
----------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------

<b>Ward(s) affected:</b> N/A	<b>Report for Non Key Decision</b>
------------------------------	------------------------------------

**1. Describe the issue under consideration**

- 1.1 This report updates the Committee on the Council's treasury management activities and performance in the quarter to 30<sup>th</sup> June 2014.

**2. Cabinet Member Introduction**

- 2.1 Not applicable.

**3. Recommendations**

- 3.1 That members note the Treasury Management activity undertaken during the quarter to 30<sup>th</sup> June 2014 and the performance achieved.

**4. Other options considered**

- 4.1 None.

## **5. Background information**

- 5.1 The Council approved the Treasury Management Strategy Statement for 2014/15 on 26<sup>th</sup> February 2014. The Corporate Committee is responsible for monitoring treasury management activity and this is achieved through the receipt of quarterly reports. This report forms the 1<sup>st</sup> quarterly monitoring report for 2014/15.
- 5.2 Government guidance on local authority treasury management states that local authorities should consider the following factors in the order they are stated:

Security - Liquidity - Yield

The Treasury Management Strategy reflects these factors and is explicit that the priority for the Council is the security of its funds.

- 5.3 The quarterly reports during 2014/15 are structured to cover borrowing first and then investments according to these factors, so that members can see how they are being addressed operationally.

## **6. Comments of the Chief Financial Officer and financial implications**

- 6.1 Interest rates earned on investments remain low and significantly less than the cost of new borrowing and therefore the strategy of minimising cash balances is continuing in 2014-15. Borrowing will be taken only when required for liquidity purposes with the preference being short term local authorities loans at very low rates on short term bases. However longer term interest rates continue to be carefully monitored. The ability to take advantage of low interest rates in this way has resulted in anticipated saving on the treasury management budget.

## **7. Head of Legal Services and Legal Implications**

- 7.1 The contents and recommendation of this report are in accordance the Treasury Management Strategy Statement and consistent with legislation governing the financial affairs of the Council. In considering the report Members must take into account the expert financial advice available to it and any further oral advice given at the meeting of the Committee.

## **8. Equalities and Community Cohesion Comments**

8.1 There are no equalities issues arising from this report.

## **9. Head of Procurement Comments**

9.1 Not applicable.

## **10. Policy Implications**

10.1 None applicable.

## **11. Use of Appendices**

11.1 Appendix 1: Summary of Treasury Management activity of performance  
Appendix 2: Prudential Indicators

## **12. Local Government (Access to Information) Act 1985**

12.1 Not applicable.

## **13. Treasury Management Activity and Performance: Borrowing**

13.1 The Treasury Management Strategy Statement places a high emphasis on security of the Council's funds. One of the ways to do this is to minimise the funds held which need to be invested. This is where the borrowing and investment strategies interact.

13.2 During the financial year to date officers have been managing cash balances to keep them to a minimum and only borrowing externally when it is required to meet the Council's obligations. Since 1<sup>st</sup> April 2014 there has been a small maturity of £0.5 million and no new borrowing.

13.3 The cashflow forecast is showing a likely shortfall in Q1, 2015 of the order of £40 million. In order to address this, the current intention is to fund via short term local authority borrowing for around six months. The rates payable should be around 0.4%.

13.4 The current approach to borrowing was recently discussed with Arlingclose using their projections of interest rate movements. The conclusion was that borrowing now against expectations of future rate increases was not appropriate as it would incur a net cost.

#### 14. Treasury Management Activity and Performance: Security

14.1 The Council has sought to minimise its security risk by setting limits on each institution on the lending list. The Council has complied with all these limits during the financial year to date.

14.2 The economic environment remains uncertain, and given this background, the Council has kept cash investments to a minimum and short term. Money Market Funds continue to be used extensively as the portfolios are spread across a range of underlying investments, which diversifies risk. They also provide instant access enabling officers to take action quickly if there are any concerns about creditworthiness. The majority of the remainder of the Council's investments are with the government guaranteed Debt Management Office and overnight balances with Barclays. The only longer term investment is a three month deposit with Nationwide that matures in September 2014.

14.3 The deposits continue to be spread across the available money market funds to further minimise security risk. The table below shows the Council's deposits on 30<sup>th</sup> June 2014. These exclude pension fund balances of £8,932,000 and Icelandic balances, see paragraph 17. Pension fund balances are invested with Barclays Bank (£4,452,000) and money market funds (£4,480,000).

:

Institution	Long Term Credit Rating	Amount (£'000)	% of total deposits
BlackRock MMF	AAA	6,450	9.7
Deutsche MMF	AAA	6,000	9.0
Goldman Sachs MMF	AAA	6,400	9.7
JP Morgan MMF	AAA	6,000	9.0
Invesco MMF	AAA	6,000	9.0
Barclays Treasury	A	15,520	23.4
Nationwide Building Soc	A	10,000	15.1
Debt Management Office	AAA	10,000	15.1
Total		66,370	100.0

*\* The Debt Management Office does not have a credit rating, so the UK Government rating is used as a proxy.*

14.4 Arlingclose, the Council's treasury management advisers, has a way of scoring the level of credit risk the Council is taking. This measure scores credit risk on a scale of 0 to 10 on both a value weighted and a

time weighted basis and the table below demonstrates how to interpret the scores:

Above target	AAA to AA+	Score 0 - 2
Target score	AA to A+	Score 3 - 5
Below target	Below A+	Score over 5

14.5 The scores for the latest quarter are shown below alongside the previous three quarters for comparison:

	March 2014	June 2014
Value weighted	6.0	4.42
Time weighted	6.0	4.92

14.6 The scores have decreased this quarter due to greater counterparty diversification reflecting the much higher balances compared with March 2014 (£9.6m). This represents an average credit rating of between AA- and A+.

## **15. Treasury Management Activity and Performance: Liquidity**

15.1 Once the Council is satisfied that security risk is being managed, the next consideration in treasury management is liquidity. The Council has a number of inflows and outflows every month and it is important that the Council's funds are managed to ensure there is sufficient liquidity when it is required. This is achieved through cashflow forecasting and monitoring.

15.2 With cash balances relatively low and projected to turn negative in Quarter 1, 2015, investments have been kept short term. The DMO deposits have a maturity of 7 and 21 days and the Nationwide deposit has a maturity of 3 months.

15.3 The weighted average maturity of the portfolio is 16 days.

## **16. Treasury Management Activity and Performance: Yield**

16.1 Only once security and liquidity have been considered and the Council is satisfied it has taken all steps to minimise these risks, should yield be a factor. Base rate has remained at 0.5% throughout the financial year to date and the Council's treasury management adviser, Arlingclose, is forecasting that it will remain at this rate until Q3, 2015.

16.2 The interest rates which money market funds are paying have reduced to between 0.30% and 0.40%. The Debt Management Office continues to pay 0.25% on all deposits regardless of the period of investment. The Barclays call account earns an initial rate of 0.25%, this rate is supplemented at year end by an additional 0.25% based on the average balance held on the account over the year. Longer maturities are paying rates that in absolute terms are not significantly higher e.g. 0.75% to 1% for 12 months deposits. The 3 month deposit with Nationwide earns 0.51% p.a. Quarterly earnings on the portfolio are approximately £49,000 at an average rate of 0.33%.

16.3 The interest payable on borrowing for 2014-15 is currently projected at £16.7 million (HRA £11.3 million and General Fund £5.4 million). The projections prior to the start of the year were total interest of £18.0 million (HRA £11.8 million and General Fund £6.2 million). The savings arise from less borrowing being required than was originally anticipated and prior year borrowing being of short maturities.

16.4 The average rate payable on the borrowing portfolio is currently 5.34%.

## **17. Icelandic Banks Update**

17.1 The distributions received from the Icelandic banks now total £34.8m out of the original £36.9m invested, which is a 94%. Further recoveries of at least £0.9 million are anticipated with a possible final distribution from Heritable this year. That will only leave the Glitnir escrow account (£0.4 million), which is locked in an Icelandic Krona account due to exchange control restrictions.

## **18. Prudential Indicators**

18.1 The Council set prudential indicators for 2014/15 in February 2014. The set of indicators is made up of those which provided an indication of the likely impact of the planned capital programme and those which are limits set on treasury management activity. Appendix 2 sets out the original indicators, the current forecast for each of the capital indicators and the current position on each of the treasury management limits.

18.2 None of the limits on treasury management have been breached in the year to date. Borrowing is well within the operational and authorised limits set due to the continued policy of using internal cash balances to fund the capital programme.

**Appendix 1: Summary of Treasury Management Activity & Performance**

1. Treasury Portfolio

	Position at March 2014 £000	Position at June 2014 £000
Long Term Borrowing PWLB	182,159	181,675
Long Term Borrowing Market	125,000	125,000
Short Term Borrowing		0
<b>Total Borrowing</b>	<b>307,159</b>	<b>306,675</b>
Investments: Council	9,570	66,370
Investments: Icelandic deposits in default	2,177	2,177
<b>Total Investments</b>	<b>11,747</b>	<b>68,547</b>
<b>Net Borrowing position</b>	<b>295,412</b>	<b>238,128</b>

2. Security measure

	March 2014	June 2014
Credit score – Value weighted	6.0	4.42
Credit score – Time weighted	6.0	4.92

3. Liquidity measure

	March 2014	June 2014
Weighted average maturity – deposits (days)	1.0	16
Weighted average maturity – borrowing (years)	29.8	29.7

The repayment of short term local authority borrowing has increased the average maturity.

4. Yield measure

	March 2014	June 2014
Interest rate earned	0.32%	0.33%
Interest rate payable	5.45%	5.34%
