

Winter Service Plan Review 2014/15, Appendix 2:  
Proposed Amendments and Points for Review for the Winter Service Plan 2014/15

Pavements

Source	Location	Proposed response
External	Midhurst Avenue, N10 due to route to Tetherdown School	Not, agreed. There is additional gritting undertaken on the pavements surrounding Tetherdown School if it snows during term time.
External	Steeds Road, N10 due to route to Coldfall School	Not agreed. However, expand existing pavement gritting for schools to include Everington Road south side only.
External	Haslemere Road, N8 due to route to school	Agreed. Add Haslemere Road north side and Waverley Road west side to Priority 2 (schools) Pavement gritting schedule
External	North View Road	Not agreed. The road is flat with no enhanced risk factors or infrastructure with enhanced priority such as a hospital or care home.
External	South Tottenham residential pavements	No specific gritting locations were suggested, but contact was prepared to carry out self-help gritting. A register of this and other self-help contact information will be kept and the council will work with contacts by supplying snow shovels and loose grit drops.
External	The Grove N8 due to sheltered housing	Agreed. Whole of The Grove east side added to Pavement Priority 1 schedule.

Carriageways

Source	Location	Proposed response
External	Midhurst Avenue, N10 due to route to Tetherdown School	Not, agreed. Midhurst Avenue is a flat road with no enhanced risk factors or infrastructure with enhanced priority such as a hospital or care home. Additional gritting is under taken on the carriageways surrounding Tetherdown School if it snows during term time.
External	Steeds Road, N10 due to route to Coldfall School	Not agreed. However, expand existing carriageway gritting for schools to include Everington Road, Barrenger Road and Marriot Road.
External	Grove House Road, N8	Agreed. Move Grove House Road and Birkbeck Road from Carriageway Priority 2 to Carriageway Priority 1 due to gradient.
External	Kenwood Road, N6	Agreed. Move Kenwood Road from Carriageway Priority 3 to Carriageway Priority 1 due to steep gradient at junction leading into main road.
External	North View Road	Not agreed. The road is flat with no enhanced risk factors or infrastructure with enhanced priority such as a hospital or care home.

## Grit Bins

Source	Location	Proposed response
External	Midhurst Avenue N10 j/w Fortis Green	Not agreed. The pavement at Fortis Green j/w Midhurst Avenue is gritted as Pavement Priority 1. Midhurst Avenue itself is flat with no enhanced risk factors, installation of a grit bin would not be justified.
External	96 Steeds Road (reinstate the grit bin that was previously there)	Not agreed. There is no record of a grit bin previously at this location. Steeds Road is relatively flat with no enhanced risk factors, installation of a grit bin would not be justified. Also, there are four existing grit bins within the network of roads nearby, the area is already well served by grit bins.
External	Coleraine Road, Courcy Road, Burghley Road and Waldgrave Road network	Not agreed. The pavements on this network of roads are flat with no enhanced risk factors, installation of a grit bin would not be justified.
External	Entire Fortismere Estate N2/N10, particularly near Tetherdown School	Not agreed. Request made to provide suggestions for specific locations received no response. There is additional gritting undertaken on the pavements and carriageways surrounding Tetherdown School if it snows during term time.
External	Linzee Road, N8	Not agreed. The road is flat with no enhanced risk factors, installation of a grit bin would not be justified.
External	Grove House Road, N8	Agreed. Install grit bin at Grove House Road north side at j/w Middle Lane to the side of street name plate.
External	Pages Hill, N10	Agreed. Install grit bin at Pages Hill, west side near j/w Pages Lane adjacent to street name plate.
