### 2. Haringey's proposed PRIORITIES for housing over the next five years are set out below.

**Q2a** **Priority 1 Build strong inclusive and successful communities. How much do you agree or disagree with this priority?** [We think the following is needed to make this priority happen: Strong communities need to be built where all residents feel they belong and can thrive. When new homes are built new local employment opportunities and infrastructure like schools, health and leisure facilities need to be created as well. Better support is needed for residents with housing problems].

**Q2b** Any other comments about this priority (for example, have we missed anything you think important?)

**Q2c**     **Priority 2. Build more homes across the borough.** [To achieve this priority we think the following needs to happen: The right kind of homes need to be provided in the right places. Public-owned land (including council-owned land) and resources should be used to provide new homes including social rented homes. More genuinely affordable homes of all types should be built for Haringey people].
