The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect your business or any weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

# Introduction

This paper provides the Corporate Committee with a report on progress in delivering our responsibilities as your external auditors. The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you; and
- a number of challenge questions in respect of these emerging issues which the Committee may wish to consider.

Members of the Corporate Committee can find further useful material on our website [www.grant-thornton.co.uk](http://www.grant-thornton.co.uk), where we have a section dedicated to our work in the public sector (<http://www.grant-thornton.co.uk/en/Services/Public-Sector/>). Here you can download copies of our publications including:

- Rising to the challenge: the evolution of local government, summary findings from our fourth year of financial health checks of English local authorities
- 2020 Vision, exploring finance and policy future for English local government
- Where growth happens, on the nature of growth and dynamism across England

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Audit Manager.

# Progress at 14 January 2015

Work	Comments
<b>2013/14 Audit Certificate</b>	<p>We gave an unqualified opinion on the Council's financial Statements on 29 September 2014 in advance of the 30 September deadline. We were not able to certify the 2013/14 audit as complete due to two objections raised on the accounts by local authority electors.</p> <p>We are awaiting the Council's response to the objection relating to bailiff enforcement of parking/traffic debts. This has been delayed as the original objector was not an elector from London Borough of Haringey and a subsequent objection has only recently been received.</p> <p>The objection relating to the court costs requested by the Council at the point of issuing a summons for non-payment of council tax is delayed as this issue is subject to judicial review.</p> <p>Once these objections resolved we will be able to issue the audit certificate and close the 2013/14 audit. We will update the Committee on progress at the next meeting.</p>
<b>Grant certification work – 2013/14 financial year</b>	<p>We have completed the certification work for the Council's Grant Claims that are subject to audit. The Certification Report is a separate item on the agenda.</p>
<b>Audit Planning - 2014/15 financial year</b>	<p>We continue to work with the Council to prepare for the 2014/15 audit and build on the significant improvements to the accounts compilation and audit processes in the past two years.</p> <p>Our initial planning visit for the 2014/15 audit is scheduled for February 2015. As part of this visit we will be updating our understanding of key financial systems through discussions with officers and testing controls in these areas.</p> <p>As part of our wider audit planning we are meeting with officers to ensure our work is focused on the key risks facing the Council in respect of its financial statements audit and Value for Money conclusion.</p>

# Rising to the challenge

## Grant Thornton

Our national report, Rising to the Challenge, the Evolution of Local Government, was published in December and is available at: <http://www.grant-thornton.co.uk/en/Publications/2014/Rising-to-the-challenge---The-evolution-of-local-government/>

This is the fourth in our series of annual reports on the financial health of local government. Like previous reports, it covers key indicators of financial performance, strategic financial planning, financial governance and financial control. It also includes case studies of best practice and a comparison to the NHS. This year it has been extended to use benchmarking information on savings plans and budget performance.

The overall message is a positive one. What stands out is how well local authorities have navigated the first period of austerity in the face of ever increasing funding, demographic and other challenges. Many authorities are forecasting financial resilience confidently in their medium term financial strategy. This reflects an evolution in financial management that would have been difficult to envisage in 2010. However, there remains much to be achieved if the sector is to become sustainable in the long term, and authorities should consider if their:

- medium- to long-term strategy redefines the role of the authority creatively
- operational environment will adapt, working in partnership with other authorities and local organisations
- strategy looks beyond the traditional two- to three-year resource planning horizon
- organisational culture is aligned to where the authority needs to be in the medium to long term
- senior leadership teams – both officers and members – have the necessary skills and capacity to ensure delivery against the medium-term challenges
- corporate governance arrangements ensure effective oversight and scrutiny of the organisation as it adapts to the challenges it faces.

The importance of these actions will be magnified if local government devolves further, particularly in relation to fiscal devolution. The new-found confidence of local government in responding to the medium-term challenges will be tested significantly by the second phase of austerity.

Hard copies of our report are available from your Engagement Lead or Audit Manager.

# 2020 Vision

## Grant Thornton

Our national report '2020 Vision' is available at: <http://www.grant-thornton.co.uk/en/Publications/2014/2020-Vision-Exploring-finance-and-policy-futures-for-English-local-government-as-a-starting-point-for-discussion/>

In a time of unprecedented challenge for English local government, how can the sector develop towards 2020 if it is to have a sustainable future? Our latest report provides a thorough analysis of the current political and economic context, explores a range of potential policies and outcomes, and suggests several scenarios to facilitate an open debate on the future for the sector.

Produced in collaboration with the University of Birmingham's Institute for Local Government Studies (INLOGOV), our report suggests that fundamental changes to local government are both operationally necessary and constitutionally inevitable, for the sector to remain relevant by 2020. The report offers a thorough analysis of the current political and economic context and explores a range of potential future policies and outcomes that English local government will need to adopt and strive towards as they seek to adapt and overcome these challenges.

Placed in the context of enhanced devolution, following the Scottish independence referendum, 2020 Vision maintains a wary eye fixed on the 2015/16 Spending Round and looks ahead to the life time of the next government. It highlights that the economic and financial situation remains increasingly untenable, with an expanding North/South divide arising from the pattern of funding reductions and economic growth.

It highlights that English local authorities continue to face unprecedented challenges, relating to the pressures of austerity and central government funding reductions, and demographic and technological change. Our report highlights the vital role of a successful local government sector and encourages it to think hard about how it will cope in the future.

Informed by the views of a broad range of local authority leaders, chief executives and other sector stakeholders, the report offers a set of six forward-looking scenarios\* in which councils could be operating within by 2020. Though not mutually exclusive, we suggest that key stakeholders need to take urgent action to avoid a potential slow and painful demise for some councils by 2020.

Hard copies of our report are available from your Engagement Lead or Audit Manager.

# Pulling together the Better Care Fund

## Grant Thornton

Our national report 'Pulling together the Better Care Fund' is available at: <http://www.grant-thornton.co.uk/en/Publications/2014/Pulling-together-the-Better-Care-Fund/>.

The reports asks 'Do local authorities and clinical commissioning groups (CCGs) have effective arrangements to develop joint Better Care Plans for agreement by the health and wellbeing boards (HWBs) and how ready are they for the pooled fund in April 2015?'

Our report draws on our review of the introduction of draft Better Care Fund (BCF) plans for both the February and April submissions. It is based on a sample of our findings from 40 HWB localities. It considers the partnership arrangements across a HWB planning area and is supported by discussions with the sector, across the country. The result is a snap shot of progress as at 30 June 2014, prior to the issue of revised planning guidance by NHS England and the Local Government Association on 25 July 2014.

It provides you with:

- an understanding of how your approach to introducing BCF compares to others across the country
- assistance in identifying the key issues to delivering Better Care Fund plans effectively
- insight into current best practice
- practical areas for consideration for improving arrangements in the future.

Hard copies of our report are available from your Engagement Lead or Audit Manager.

# Accounting for schools

## Accounting and audit issues

### Accounting for schools

The debate about the recognition of school land and buildings on local authority balance sheets (which most commentators had thought settled) has been reignited. Grant Thornton is taking a leading role in trying to resolve this unexpected development.

In March, CIPFA/LASAAC Code concluded that under IFRS 10, maintained schools (but not free schools or academies) meet the definition of entities that need to be consolidated in group accounts. However, rather than requiring local authorities to prepare group accounts, the CIPFA/LASAAC Code requires local authorities to account for maintained schools within their single entity accounts. This includes school income and expenditure as well as assets and liabilities. The general expectation in the sector was that:

- the vast majority of voluntary aided, voluntary controlled and foundation schools would be recognised on local authority balance sheets
- a small number of school buildings that are provided at no charge by a religious body and where there was a realistic possibility that they could be taken back by their owners would be treated as assets of the religious body and so not recognised on the local authority balance sheet.

However, at the CIPFA conference in November, CIPFA clarified that it considers that most voluntary aided and voluntary controlled school buildings would **not** be recognised on the balance sheet. This view has been set out in more detail in LAAP 101. This is because the religious bodies have a legal right to take back these assets. Nor does CIPFA consider the position for foundation school building to be clear cut and local judgement would need to be applied. We are discussing issues with CIPFA in particular:

- how the treatment proposed by CIPFA complies with the Code
- the significant practical implications for the sector
- the potential for inconsistent accounting treatments depending on local judgement.

We are working with the Audit Commission, CIPFA and the other audit firms suppliers to try to seek a practical way forward as soon as possible.

Continued overleaf .....

---

# Accounting for schools (continued)

## Accounting and audit issues

We will continue to share the latest developments with officers. In the mean time we note your preparations for recognising school land and building including:

- identifying those schools where school buildings are owned by third parties (such as church dioceses) and determining under what circumstances the buildings could be taken back by the third party
- obtaining valuations for school land and buildings for each of the three balance sheet dates (1 April 2013, 31 March 2014, 31 March 2015)
- obtaining sufficient information to enable the authority to restate its revaluation reserve and capital adjustment account.

---

# Earlier closure and audit of accounts

## Accounting and audit issues

DCLG is consulting on proposals to bring forward the audit deadline for 2017/18 to the end of July 2018. Although July 2018 is almost 4 years away, both local authorities and their auditors will have to make real changes in how they work to ensure they are 'match-fit' to achieve this deadline. This will require leadership from members and senior management. Local government accountants and their auditors should start working on this now.

Top tips for local authorities:

- make preparation of the draft accounts and your audit a priority, investing appropriate resources to make it happen
- make the year end as close to 'normal' as possible by carrying out key steps each and every month
- discuss potential issues openly with auditors as they arise throughout the year
- agree key milestones, deadlines and response times with your auditor
- agree exactly what working papers are required.

---

# Local government financial reporting remains strong

## Local government guidance

The Audit Commission published its report, [Auditing the Accounts 2013/14: Local government bodies](#), on 11<sup>th</sup> December.

Financial reporting was consistently strong for most types of principal local authority in 2013/14 when compared to the previous financial year. This year the Commission has congratulated 16 bodies where auditors were able to issue an unqualified opinion and a VFM conclusion on the 2013/14 accounts by 31 July 2014, and the body published audited accounts promptly. Although, as only 21 principal bodies have managed to publish their audited accounts by 31 July since 2008/09, a move to bring the accounts publication date forward is likely to cause significant challenges for the majority of public bodies.

The Commission reports that auditors were able to issue the audit opinion by 30 September 2014 at 99 per cent of councils, 90 per cent of fire and rescue authorities, 97 per cent of police bodies, all other local government bodies and 99 per cent of both parish councils and internal drainage boards. This is consistent with last year for most groups, but an improvement for councils and small bodies compared to 2012/13.

Eight principal authorities were listed where the auditor was unable to issue an opinion by the 30<sup>th</sup> September deadline.
