4.1 The financial implications section of the report sets out the financial position.

7. Strategic Implications

11. Background

11.1 Pensions Committee considered a report on Responsible Investment at their meeting on 25 October 2007. It was agreed that we consider joining LAPFF once they have given a presentation to the Committee. The presentation by Keith Bray from LAPFF was considered earlier on this agenda.

- 11.2 I attach in the Appendix the part of the paper presented by our external advisors, Hymans Robertson, to the last meeting concerning LAPFF, which advised that the Committee needed to consider whether membership of LAPFF might go some way towards redressing the shortfall on engagement activity.
- 11.3 Main benefits of joining LAPFF are as follows and this fits in as part of the approach agreed at Pensions Committee on 25 October 2007.
- Has 44 Local Authorities as members including 12 London Boroughs and therefore can exert some influence to promote Corporate Social Responsibility and high standards of corporate governance;
 - Facilitates commissioning of research and policy analysis of issues more effectively than individual authorities;
 - Forum for consultation on shareholder initiatives;
 - Forum for exchanging information and discussion about investment issues;
 - Forum to consider issues of common interest. e.g. overseas property investment.
 - Improves compliance with Myners principle number 6 regarding activism.

5 LOCAL AUTHORITY PENSION FUND FORUM

The Local Authority Pension Fund Forum [LAPFF] was established in 1990 to promote the investment interests of local authority pension funds and to maximise their influence as shareholders, whilst promoting corporate social responsibility and higher standards of corporate governance amongst the companies in which they invest.

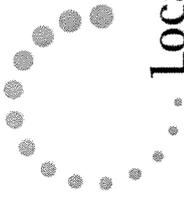

The Forum meets quarterly and provides an opportunity for discussion and debate on a broad range of investment issues concerned with shareholder responsibilities. However, membership of the Forum does not impede a fund's ability to act unilaterally where it is considered to be in its best interests.

Meeting Agendas are constructed by members of the Forum, which has an Executive Committee comprised of elected member representatives of Forum members, a (Honorary) Secretary and Treasurer and its own part-time Forum Officer – Keith Bray, a former County Treasurer. Meetings are serviced by PIRC Ltd, an independent research and advisory consultancy that provides services to institutional investors on corporate governance and corporate social responsibility.

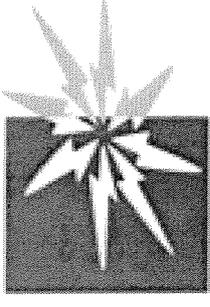

The Forum has over 40 LGPS members (see table) whose pension fund assets total about £70 billion.

LGPS Fund Type	Number of Funds
County Councils	15
London Boroughs	12
Former Metropolitan County Funds	7
Passenger Transport Authority Funds	2
Scottish Funds	2
Welsh Funds	4
Northern Irish Funds	1

The Forum does undertake some limited engagement activity on governance and SRI issues; however, the level of activity is significantly lower than that provided by the overlay providers described above. We suggest that it probably will not serve as a substitute for them. However, the Fund should give consideration as to whether joining LAPFF would assist it in discharging its socially responsible investment responsibilities and the best way to do that would be to arrange for a presentation from LAPFF at a future meeting. We understand the fee to join LAPFF would be relatively modest.

Corporate Governance & Corporate Social Responsibility

The Role of the LAPFF

A presentation to
Haringey Pension Fund
Keith Bray, Forum Officer, LAPFF
4 December 2007

Background

- The aim - improving shareholder value
 - Scandals
 - Changing public opinion

Corporate Governance

What is it?

“The system by which companies are directed and controlled. Boards of directors are responsible for the governance of their companies, while shareholders’ role in governance is to appoint the directors and auditors and to satisfy themselves that a proper governance structure is in place.” **Cadbury (1992)**

“Corporate governance can be defined *narrowly* as the relationship of a company with its shareholders or more broadly, as its relationship to society” (Financial Times)

* **NB** This illustrates the link between corporate governance and corporate social responsibility (CSR)

Some milestones

- 1992 Cadbury
- 1995 Greenbury
- 1998 Hampel – leading to ‘The combined Code’
- 2003 Higgs – the role of the non- executive director
- 2003 Smith – the role of the auditor

And of course

- 2002 Myners – Principles for institutional investment decision making

and that means us (LGPS)

**As part - own these companies we need to act like owners to maximise
our returns and protect our investments**

The Myners Principles

<ol style="list-style-type: none">1. Effective decision-making2. Clear objectives3. Focus on asset allocation4. Expert advice5. Explicit mandates	<ol style="list-style-type: none">6. Activism7. Appropriate benchmarks8. Performance measurement9. Transparency10. Regular reporting

Shareholder Activism

- Myners - Principle 6

Trustees should ensure they have an explicit strategy on Activism elucidating the circumstances in which they will intervene in a company; the approach they will use in doing so; and how they measure the effectiveness of this strategy.

- CIPFA Guidance states:

Authorities may wish to seek alliances with a group of local authority pension funds, to utilise the benefits of collective size where there is common interest to influence companies on issues relating to corporate governance.

Elliot Morley

Minister for the environment

- "Good environmental standards should never be seen as a burden on companies; indeed, they are good for sustainability, profitability and efficiency.
- "I congratulate LAPFF for playing an important role in furthering these aims. Recently I met with representatives from the Forum and was pleased to hear the positive responses they received in assessing the FTSE 100's level of greenhouse gas emissions reporting.
- "I therefore look forward to seeing the LAPFF continuing to increase company awareness on the importance of reporting their greenhouse gas emissions." (September 2004)
