Recommendation

In light of the HSP decision on 11 February the Board is asked to consider these allocations and agree the programme for 2008/09.

- i. That 2008/09 should be treated as a transitional year to facilitate the move to the new Area Based Grant.
- ii. That a consistent Performance Management Framework should be developed across the HSP, which would be capable of identifying outcomes and value for money.
- iii. That the Thematic Boards should submit funding proposals to the HSP Performance Management Group for agreement
- iv. That each Thematic Board would participate in a workshop in March that would cover the new national duties contained within the Local Government and Public Involvement in Health Act and to embed the new Performance Management Framework.

- v. That a six monthly performance review would be conducted to identify any changes in activity or funding that may be required to meet LAA Performance Indicators.
- vi. That consistency, in terms of current funding, should be provided to existing commitments as far as practicable within the overall reduction of grant.
