## **5.** <u>Table 1. Incoming Resources</u> – Unrestricted Funds

The Trust funds its unrestricted activities from the London Borough of Haringey (LBH) operating grant and in 2015-16 this grant is £1,900k. It also funds its activities from income received from the Park and Palace tenants of £180k and this income is on target to be achieved. The Trading company pays an annual licence fee for using the Park and Palace which as per current Licence Agreement is £190k pa (Agreement to be renewed in 2016).

The Trading company gift aid target has been revised to £1,633k (£537k up on budget) due to exceptional performance of trading activities, in particular because of additional income from Events and associated catering offer.

The forecast of unrestricted incoming resources for 2015/16 is £3.9m (budgeted at £3.4m).

#### **6**. Table 1. Overheads

YTD the majority of budgeted expenditure is on target. Under-spending on Legal and Professional fees is attributable to the hotel project. Maintenance of Park and Palace is likely to be spent on ongoing minor repairs. The Marketing, Advertising and Design budget has been underspent due to a lack of human resource in the Trust and the expenditure has been partly borne by the Trading company; this will be subject to appropriate internal recharge of costs at the year end.

#### 7. Table 2. Designated Funds (Fixed Assets)

The Capital Grant from LBH for 2015-16 is £400k and in addition there is an agreed balance carried forward from 2014-15 of £116k making a total available of £516k. YTD spending and committed projects are on target to expend in 2015-16 – refer to Table 2 for details.

The Trust has been advanced a SIF loan from LBH of £278k for a replacement of lighting in the Great Hall. The loan is repayable over 7 years with 1<sup>st</sup> repayment of £44,417 due on 1<sup>st</sup> April 2016. The project is now completed and a new LED lighting will enable annual savings in maintenance and energy usage.

#### **8.** Table 3. Restoration Project (Restricted Funds)

The current forecast of incoming resources for the Project in 2015-16 is £1,735k being £500k from LBH and £1,235k from the HLF (as per The HLF Agreement 70% of the Project's expenditure is funded by HLF and 30% by LBH and fundraising).

Since the start of Phase 2, two Claims for funding to HLF have been submitted and payment received. Table 3 provides details of forecast expenditure for the Project in 2015-16, this is subject to revisions as advised by the Project manager Mott MacDonald – we are currently awaiting a revised 2016-2018 Cash Flow Projection and in the new financial year we will report on the income and expenditure over a duration of the Project to enable a meaningful monitoring of its progress

## 11. Legal Implications

The Council's Assistant Director of Corporate Governance has been consulted in the preparation of this report, and has no comments.

# 12. Financial Implications

The Council's Chief Financial Officer has been consulted on this report and welcomes the strong income position in the unrestricted fund. There is also a level of underspending which is welcome if it is an indicator of good financial control and value for money. Where slippage on expenditure is incurred it will be important to ensure that this is reflected in future year budgets and plans. Overall however the information presented in this report indicates an overall level of good financial performance.
