

Violence Against Women and Girls

Haringey's 10 year Strategy

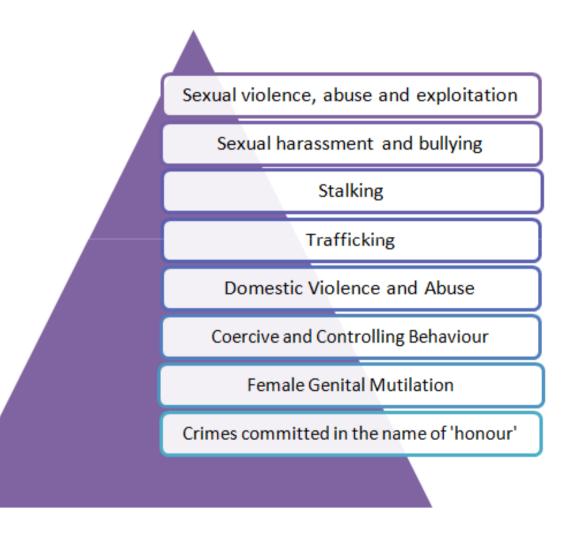

What is Violence Against Women and Girls?

Violence against Women and Girls (VAWG) is both a form of discrimination and a violation of human rights.

 'Any act of gender based violence that results in or is likely to result in physical, sexual or psychological harm or suffering to women [or girls], including threats of such acts, coercion or arbitrary deprivation of liberty' (1993, Article 1)

The Forms of Violence Against Women and Girls

Our vision over the next 10 years is to improve the safety, health and wellbeing of women and girls in the borough so they can live to their full potentials and for Haringey to become a borough in which no form of abuse is tolerated.

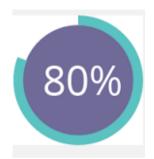

What do we know about VAWG in Haringey?

It's very difficult to get detailed information on how many women and girls are affected each year as VAWG is underreported and many victim/survivors do not come to the attention of services. But, we do know that...
