

Appendix 6: HARINGEY PREVENT DELIVERY PLAN 2016/17 (Community Safety Strategy 16/17 – Outcome 6)

Introduction

This document has been informed by the Prevent Duty 2015, national Prevent priorities, the Counter Terrorism Local Profile (CTLP) supplied to the borough and by additional and current local intelligence. This plan is scrutinised by Haringey Prevent Delivery Group (HPDG) which is governed by the following arrangements.

Governance arrangements

The Haringey Prevent Delivery Group (HPDG) is made up of the following specified agencies and key strategic partners including Local Authority (Adult Services, Children and Young People's Service, Community Safety, North Middlesex and Whittington Hospitals, BEH Mental Health Trust, Homes for Haringey, Police Service (local), Prevent Engagement Officers (SO15), Fire Service, Probation Service, College of HENEL. The Group meets four times a year and has previously met on an emergency basis following local or national incidents. The delivery group has an agreed TOR and reports quarterly to the Haringey Community Safety Partnership whose membership comprises of elected members, service directors and key stakeholders from across the borough who provide a strategic overview and oversight for the key community safety outcomes for Haringey.

National Context: Nationally the UK faces a range of extremist threats which play out differently in each local authority area. Attention will be given to all forms of extremism and violent extremism with particular focus on 2016 national priorities which focus on the following areas:

- preventing people/families from travelling to Syria and other conflict zones;
- working in **education institutions** to increase awareness of the dangers of radicalisation and develop critical thinking to resist radicalisation;
- working to build knowledge of and resilience to **online radicalisation**;
- working with **women and families** increasing knowledge of radicalisation and providing additional family support;
- working with **vulnerable young people** to provide targeted support to divert them from being drawn to extremist and terrorist groups; and delivering active **counter narrative**.
- Proactively communicate positive Prevent work locally to ensure that it better understood.

Local Context: An analysis of local threats and vulnerabilities faced by Haringey Council and partner agencies echo those identified as national priorities however a number of additional local priorities have been identified via the both the East Area CTLP and local intelligence. We would summarise these as follows:

- An overall increase in the number of Channel referrals in general terms, with an identifiable increase where the individual is known by either Social Care or NHS, as a current or previous Mental Health service user
- The use of private premises by Extremist Speakers
- Safeguarding including home schooling & Supplementary Schools
- Local fundraising and support for Nationally Proscribed groups via sales and distribution of literature in key locations with borough
- Concern regarding a small but significant group of Somali young men either involved in local street gangs or entering the CJS and their vulnerability to radicalisation resulting from exiting gang involvement or from radicalisation whilst in YOI
- A continued increase in Homophobic, Anti Semitic and Islamophobic hate crimes in the last year. Marked increases faith based hate crimes following the Paris attacks on 13 November 2015. This trend is reflected across London.
- There have been community safety concerns raised from within the Jewish community following attacks in Paris and Brussels. Haringey is home to a diverse Jewish community which contains a highly visible Charedi/ Orthodox community in the Seven Sisters ward in S. Tottenham.
- Emergence of Eastern European (Polish) Far Right Neo Nazi activity in S. Tottenham (Seven Sisters ward)
- To develop and agree Prevent communications strategy to ensure that Prevent is better understood locally by Haringey residents and that initiatives are positively publicised in local media

PREVENT DELIVERY PLAN – Haringey 2016/17

Subject	Desired Outcomes	Objectives	Actions	Agency/Lead	Timescales & Update
